*Autumn Planting*  
1945

## We Appreciate

The understanding and consideration shown us last spring. Not only were your orders of generous proportions, but your understanding of the difficulties under which we are operating due to the war, and consequent shortage of man-power, displayed a tactful consideration which we deeply appreciate.

In an effort to save both your time and ours, each order for bulbs or Roses, when filled, is accompanied by simple planting instructions. This, in addition to the information contained in the catalog, gives you full and complete knowledge of our plants and tells you all you need ever know about them in order to obtain the maximum rewards in beauty. Thus have we tried to anticipate the questions which might naturally arise in your mind at the time your order is placed.

We deeply appreciate your indulgence and patience, and ask that you continue to bear in mind these few thoughts: (1) **Nursery products are always ordered in advance.** (2) **Simple planting instructions accompany each order.** (3) **We ship promptly at planting time.**

## And Now —

The autumn planting season is almost upon us. Many orders for delivery this autumn already are on file in our busy office and stock is scarcer, multiplying our problems.

THE DEMAND FOR FLOWERS, ROSES, BULBS AND SHRUBS IS GREATER THAN EVER BEFORE. Thousands of new and eager gardeners are being created throughout the land and their letters tell us how great is their enjoyment derived from the mild exercise, the pleasant relaxation, and the soothing peace that flowers bring to tired minds and bodies. The reason for this desire for beauty in such a world is obvious to you.

It is essential that you place your order NOW for the things you wish to see grow and bloom in your garden in the spring to come. This floral beauty must be planned and arranged for in advance. The lack of man-power has resulted in a serious shortage of supply but, by ordering now, you, your family and friends will be assured the gay patches of gorgeous color in your garden—cheerful, brilliant blossoms that offset the drab days of winter and war.

Send your check with the accompanying order blank in the back of the book. Or, if more convenient, we will gladly send the shipment at planting time, C. O. D.

Our products cannot be surpassed in quality, therefore the demand for them is very great. Join the ranks of our vast number of discriminating and far-sighted customers and place your order NOW—TODAY—while stocks are complete, so that we may devote as much time as possible to the actual filling of orders. Please write us only when necessary.

Guaranteed Superior Quality

YOU ALWAYS SAID YOU WANTED MORE CLOSET ROOM—  
NOW PROVE IT!

WANTED:—  
CLOTHES FOR THE  
LITTLE PEOPLE OF HOLLAND!

We are greatly indebted to "Ding" Darling, internationally known cartoonist  
for the above illustration.

Five years of Nazi oppression and the most concentrated destruction in all Europe, have left the people of Holland, Home of the Tulip, destitute, impoverished, starving. Their homes have been robbed and destroyed, their farms flooded with salt water, so that they may be non-productive for 50 years, and their commercial and productive facilities—even transportation equipment—wrecked or removed to Germany.

This situation, described by UNRRA officials as "the most hideous in all Europe," is being remedied by American people, who are collaborating in shipping food and clothing to the Dutch through the agency of American Relief for Holland, Inc. Aid will be welcomed from Garden Clubs, and other organizations which desire to give the Dutch people helpfully tangible evidence of their admiration for the brave resistance of the Dutch people to Nazism and their heroic fight for civilized principles.

AMERICAN RELIEF FOR HOLLAND, Inc.,  
New York, N. Y.

# Urgent!

If someone did you a very great favor or showed you a kindness, you would wish to repay it.

You would, in fact, feel ill at ease until such time that you could clear your conscience in the matter. Thus do we react when we feel that we are under strong moral obligation to a friend.

You may have inherited this debt—it may have been handed down to you by your grandparents or other ancestors, but you will look upon the obligation as a purely personal one, such is the high moral sense possessed by all good Americans.

In the year of 1812, we had one of the most difficult wars in our history. Famine and disease spread over our land. Our people were hungry, sick and poorly clad. It was a dark hour in our history; but just when it appeared the blackest something happened to cause the skies to clear:

THE SYMPATHETIC AND BIG-HEARTED DUTCH PEOPLE CAME TO OUR RESCUE. THEY SENT SUPPLIES IN ABUNDANCE. FOOD, CLOTHING AND MEDICINE CAME FROM THE MAGNIFICENT HOLLANDERS. GREAT WAS THEIR INTEREST IN SAVING THOUSANDS OF LIVES OF OUR CHILDREN THAT THIS NATION MIGHT SURVIVE AND PROSPER.

Although the United States has aided most all other nations of the world at one time or another, this wonderful gesture of the Dutch is one of the few instances where another nation has aided us.

The people of Holland have been singularly free from wars. They enjoyed one of the longest reigns of peace of any nation on earth. They neither needed or sought any help from any source because they had prospered.

You know the remainder of the story: their cities and towns have been burned and looted, their very clothes have been taken away from them by the enemy, parents have been forced into slave labor. Vulgar Nazi heels have tramped over and flooded much of the rich and fertile soil, laying waste to food crops and meadows, ever unmindful of the beauty beneath their feet.

Thousands of Dutch children, men and women, are facing Westward, looking to the United States and YOU. Shivering and sick, the very bones of their under-nourished bodies show through their rags as they hold extended arms to you.

I know that you will heed their appeal and do something about it this very day. It is our chance to repay our debt to the Dutch—to pay off our old obligation to them which has stood for 133 years.

Clothes, and more clothes, are needed. Send all clothes you do not need. Send all you can spare for grown-ups as well as children. Coats, sweaters, warm underwear, towels, sheets, washcloths, etc. Soap is also urgently needed to replace the mixture of sand and clay that now is being used to wash with. Appeal to your Garden Club. Urge members to make a specific contribution to the men, women and children who work in the bulb fields. Mark the bundle carefully, telling which Garden Club it is from. It will mean much to them to know Gardeners over here have not forgotten them. Send your bundle to American Relief for Holland, Inc., 1 East 40th Street, New York City, and send notice of shipment to us at Wayside Gardens, Mentor, Ohio.

Thank you,

THE WAYSIDE GARDENS CO.

J. J. Grullemans, President

# Wayside Gardens Special Daffodil Mixture for 1945

Our Special Daffodil Mixture is unique and we believe that nothing quite like it is available elsewhere. It is composed of fine standard varieties and popular favorites as well as surplus bulbs from our collection of choice collectors' varieties. In addition it contains all our tested unnamed seedling Daffodils.

It is impractical to introduce or name every one of the thousands of seedlings we raise each year, so after testing the best of the Hybrids for several years, only a few are chosen for mass production, the balance, no matter how fine, must be sold. As a result you will find flowers in this mixture which differ only slightly from catalog varieties which sell for \$2.00 or more per single bulb.

Each variety is carefully selected for its ability to continue blooming and increasing year after year without the necessity of frequent transplanting. Early, medium and late flowering kinds are properly proportioned. This provides a long and satisfactory flowering period. The increase in bulbs from year to year will give you an ever-increasing number of lovely flowers in your garden as well as for cutting.

## Top Size Bulbs Only

|                      |         |
|----------------------|---------|
| 25 bulbs for .....   | \$ 4.00 |
| 50 bulbs for .....   | 7.00    |
| 100 bulbs for .....  | 12.50   |
| 1000 bulbs for ..... | 110.00  |

250 or more bulbs may be had at the 1000 rate.

# Daffodils Grow Easily

Plant Some This Autumn and They

Daffodils announce the arrival of springtime and reward you richly. They grow with little attention and provide quantities of cut flowers. These gay flowers endure unseasonable cold weather without damage. They will not disappoint you. They grow so easily that children plant them. They multiply rapidly if **Wayside** bulbs are used and your dividends of beauty are doubled each year. They harmonize beautifully with other flowers and no garden is too modest for an abundance of them.

# ~ Require Little Care

## Will Increase In Great Numbers Each Spring

In planning your spring garden do not overlook the dainty Narcissus. It offers you considerable variation and desirable novelty. It has proven increasingly popular and each year we have added to our listings. In this book you will find the widest choice of tested and guaranteed varieties.

Remember, Narcissi multiply rapidly. Many of our customers make their investment in Narcissi quite profitable by selling their yearly increase of these lovely flowers to neighbors and friends. Of all bulbs, it is one of the easiest to grow.

# Yellow Trumpet Daffodils

**Division 1a:** Trumpet as long or longer than perianth segments, trumpet lemon, yellow or sulphur colored, with perianth of same shade but not of white.

## Aerolite

Each 30c, Three 80c, Doz. \$2.75, 100 \$19.00

The large flower is beautifully proportioned, giving the impression of gracefulness, despite its size; perianth deep primrose, with a medium yellow trumpet which is left in bold relief by the broad pointed star formed by the opening outer petals, an inch and a half wide; medium early, but remains until late, and is one of the longest lasting of all Daffodils in the garden or after being cut.

## Alaska

Each 40c, Three \$1.10, Doz. \$4.00, 100 \$25.00

Giant flower of deepest gold; more graceful than most of the giant Ajax varieties as the trumpet is deeply frilled and recurved.

## Alasnam

Six \$1.35, Doz. \$2.50, 100 \$17.00

Wide, short, densely frilled trumpet of pure deep yellow, a shade deeper than the perianth; finely placed with good neck; flower "looks you in the eye"; excellent for landscape groups, also for forcing; very early, possibly the first of the trumpet varieties to bloom.

## Dawson City

Each 30c, Three 85c, Doz. \$3.00, 100 \$21.00

Much overlapping and flat perianth with a very smooth trumpet, nicely flanged at the mouth. This perfect flower is golden yellow throughout. Great favorite in England.

## Diottima

Each 50c, Three \$1.35, Doz. \$5.00, 100 \$35.00

Considered by experts as the very best of the new super-giant yellow trumpets; despite its huge size (perianth being five to six inches across) the whole flower is beautifully proportioned and is carried gracefully on two-foot tall stem, entirely free from stiffness of many of the giant trumpets; the broad overlapping petals form a star-shaped perianth of medium deep primrose, trumpet somewhat more deeply colored; undoubtedly one of the top-notchers for many years to come.

## Emperor

Six \$1.25, Doz. \$2.30, 100 \$15.00

Perianth primrose, trumpet darker, a forcing and bedding flower of proven merit. Still a fine old variety.

## King Alfred

Top Size Round Bulbs

Six \$1.35, Doz. \$2.50, 100 \$17.00

Mammoth Double Nose Bulbs

Six \$1.75, Doz. \$3.00, 100 \$20.00

A king among the fine varieties. Rich, lustrous golden yellow throughout. Extremely vigorous in habit. Perianth often 4 inches across, trumpet fully 2 inches. Most popular variety for forcing.

## Lord Wellington

Each 75c, Three \$2.15, Doz. \$7.50, 100 \$55.00

One of the largest yellow Trumpets of unusually strong texture and lasting remarkably long in condition, perianth slightly reflexing, trumpet long, rich golden yellow. It is our opinion this is one of the finest of the yellow Trumpet Daffodils.

## Mount Royal

Each 65c, Three \$1.80, Doz. \$6.50, 100 \$45.00

Wide spreading trumpet with perianth having three base petals extra wide, the three inner being narrower and more curved, making a particularly well-formed attractive flower.

## Statendam

Each 55c, Three \$1.50, Doz. \$5.50, 100 \$37.50

An extremely large golden yellow Trumpet Daffodil of superb yet graceful proportions. Massive overlapping deep golden yellow perianth, large, flaring, well-formed trumpet. Vigorous grower suitable for exhibition.

## Warwick

Each 30c, Three 85c, Doz. \$3.00, 100 \$21.00

Another of the striking new King Alfred seedlings outstanding in every way and very early; refined stem and neck bearing a star-shaped perianth of great substance; golden yellow, with trumpet a shade deeper in color.

## Winter Gold

Each 50c, Three \$1.35, Doz. \$5.00, 100 \$35.00

Very early, of great garden merit, producing flowers of very elegant form in February in mild territories. Perianth bright yellow, trumpet long and straight, of a deep golden yellow, prettily frilled at mouth. Very showy. Height 18 inches.

## Youth

Each 30c, Three 85c, Doz. \$3.00, 100 \$21.00

A superb flower of very good form and invaluable for exhibition. The perianth is flat and overlapping with long trumpet beautifully proportioned. A clear shade of pale lemon-yellow throughout. Outstanding.

# Bicolor Trumpet Daffodils

**Division 1c:** Bicolor Trumpet Daffodils, with white or whitish perianth and a yellow, lemon or pale primrose trumpet.

## Ben Hur

Each 35c, Three 95c, Doz. \$3.50, 100 \$23.00

Enormous flower with deep yellow trumpet, well opened; perianth pale yellow with outer petals exceptionally broad and inner ones usually slightly twisted, making the flower more graceful.

## Jefta

Each 60c, Three \$1.60, Doz. \$5.75, 100 \$40.00

A striking new variety with broad overlapping perianth of creamy white, and light canary trumpet; strong grower, but graceful.

## Silvanite

Each \$2.50

A striking new variety with broad overlapping perianth of creamy white, and light canary trumpet; strong grower, but graceful in habit. Considered by many as the finest bicolor.

## Spring Glory

Each 30c, Three 85c, Doz. \$3.00, 100 \$21.00

A great favorite, both for the garden and for forcing; pure yellow trumpet, slightly paler perianth, excellent stem, and always free blooming.

# White Trumpet Daffodils

**Division 1b:** Varieties with white perianth and white or nearly white trumpet, including pink or apricot trumpets.

## Ada Finch

Each \$1.75, Three \$5.00, Doz. \$19.00, 100 \$135.00

Exquisite white variety, with snow-white flowers and beautifully shaped trumpet. Fine for garden and show use.

Each \$1.90

**Bersheba** Perianth and trumpet of magnificent proportions. Height 20 to 22 inches. Its color is not pure white, yet is expressive of purity in the highest sense. Those who are forming collections of fine Narcissus rate Bersheba at the top of the large white Trumpets.

Each \$2.00

## Eskimo

A variety of fine build and great substance, with broad perianth and very open trumpet; opens pale primrose but quickly passes to pure white; a real gem.

## La Vestale

Each 55c, Three \$1.50, Doz. \$5.50, 100 \$37.50

Giant Trumpet type with pure ivory-white perianth, of informal design, with trumpet of deep cream-yellow, tall, fine for small groups or naturalizing in dim shade; though of delicate appearance, it is of good substance and lasts well; early.

## Lovest

Each 45c, Three \$1.25, Doz. \$4.50, 100 \$30.00

One of the very few members of the "Pink Daffodil" class; among the daintiest of all the Trumpets; medium in height with a starry shaped perianth of informal type; nicely proportioned trumpet of saffron-yellow turning to apricot-pink; delightfully charming at all stages; very early.

## Mrs. E. H. Krelage

Each 55c, Three \$1.50, Doz. \$5.50, 100 \$37.50

The pristine purity of this flower, the play of light on its balanced petalage, the graceful curve of the trumpet brim are unforgettable. An excellent grower. Easy to force, long-stemmed.

## Mrs. John Bodger

Each \$1.75

Considered by many the most exquisite of the new trumpets; a semi-dwarf hybrid of medium size, with a pure white star-shaped perianth and a good trumpet; wonderful variety for the rock garden or the front of the border; sure to become a great favorite as it has been enthusiastically received at every show.

## Mrs. R. O. Backhouse

Each \$1.75, Three \$5.00, Doz. \$19.00, 100 \$135.00

This is the famous "Pink Daffodil"; fine informal perianth of ivory-white, and beautifully proportioned, slim long trumpet of apricot-pink, changing to shell-pink at the deeply fringed edge; delicately beautiful but of exceptional substance; long lasting; early, belongs in every collection.

## President Carnot

Each 50c, Three \$1.35, Doz. \$5.00, 100 \$35.00

A self-colored creamy white trumpet of the Olympia type, with perianth petals slightly twisting and reaching forward, adding beauty of form to the charming color harmony.

# Double Narcissi

## Division 10:

### Albus Plenus Odoratus

Six \$1.10, Doz. \$1.85, 100 \$12.00

The old Gardenia-flowered Double Poet's Narcissus. Pure snowy white; wonderfully fragrant. Should be planted in the shade and kept well watered at flowering time to prevent the flower buds from drying off. Blooms extremely late, long after most of the Narcissi have gone. It is a rare old variety preserved jealously in a few old gardens and worth special care.

### Daphne

Six \$1.35, Doz. \$2.50, 100 \$17.00

The most promising novelty of this division. Sweet scented, dainty, pure white double flowers; early forcer.

### Indian Chief

Six \$1.25, Doz. \$2.30, 100 \$15.00

Very large and very double, bright yellow interspersed with orange; the petals curled and twisted. A large substantial almost globelike ball of yellow and orange.

### Mary Copeland

Each 45c, Three \$1.25, Doz. \$4.50, 100 \$30.00

One of the famous varieties of the new Doubles. This variety has been termed the most striking double in cultivation; the longer petals are pure cream-white with a golden ray down the center, interspersed with shorter petals of lemon and brilliant orange, giving a three-color effect; unsurpassed for garden or show.

### Moulin Rouge

Each \$1.15, Three \$3.30, Doz. \$11.50, 100 \$77.50

Very lovely double, long primrose petals shading to cream down the center, short petals deep yellow-orange, giving a tri-color effect; light citron-yellow overlapping perianth, orange cup deeply frilled; very late.

### Royal Sovereign

Each 65c, Three \$1.80, Doz. \$6.50, 100 \$45.00

Valuable addition to the Twink group of semi-doubles, most graceful of all in form, and the most charming, if not the most striking, in coloring; creamy white interspersed with crinkled and frilled trumpet petals of primrose-yellow, shading to pale primrose as the flower develops; a Daffodil appealing to every flower lover's fancy.

### Texas

Each \$1.35, Three \$3.90, Doz. \$13.50, 100 \$100.00

Taller growing and of better form than Indian Chief; pale yellow interspersed with brilliant orange; very late.

### The Pearl

Six \$1.10, Doz. \$1.85, 100 \$12.00

Nice flower; not too double; creamy white, interspersed with sulphur-yellow, deeper at the center; charming.

### Twink

Each 30c, Three 85c, Doz. \$3.00, 100 \$21.00

It is double, of the semi-full type, the petals alternating a soft primrose and clear orange; and so arranged as to give the flower a most attractive appearance; and making it a most adaptable flower for large scale decorative work; is very free-flowering and hardy.

# Incomparabilis Narcissi

Division 2: Incomparabilis, cup or crown measuring from one-third to nearly the length of the perianth segments.

## Abelard

Each 60c, Three \$1.60, Doz. \$5.75, 100 \$40.00

Broad yellow cup, orange tint at edge, and showy orange anthers, supported by broad primrose perianth of exceptionally good substance; beautiful in the unfolding bud, and an unusually long lasting flower.

## Adler

Each 65c, Three \$1.80, Doz. \$6.50, 100 \$45.00

A universal favorite both among exhibitors and amateurs; a marvelous flower with perianth of the purest white, overlapping and opening nearly flat, circular in outline and 4 inches across, with a beautifully proportioned cup of pure chrome-yellow, shading to a blood-orange at the deeply frilled edge; the most admired flower in many large collections.

## Bernardino

Six \$1.10, Doz. \$1.85, 100 \$12.00

Perianth cream colored, the frilled and fluted cup stained deep apricot-orange at its edge. A good hardy grower which forms nice clumps in a short time.

## Croesus

Six \$1.25, Doz. \$2.25, 100 \$14.00

Universally popular both for the garden and for exhibition; light canary-yellow perianth of perfect form, with outer petals nearly touching, the inner ones overlapping, opening flat; broad fluted cup of rich orange to base; substantial, free flowering, and a fine propagator.

## Carlton

Each 50c, Three \$1.35, Doz. \$5.00, 100 \$35.00

A most beautiful variety. Broad, overlapping, flat perianth with a large, expanded cup. The whole flower is of a soft uniform yellow. Very free flowering and a strong and sturdy grower. One of the outstanding varieties in this group.

## Dick Wellband

Each 80c, Three \$2.25, Doz. \$8.00, 100 \$57.50

The perianth is pure white and the cup a brilliant flame-orange. One of its most remarkable qualities is that the color does not fade but rather intensifies with age. The flower has unusual lasting qualities. Its greatest beauty lies in the startling contrast between petals and cup which makes it stand out even in the largest collection of Daffodils. An exhibition variety "par excellence."

## Fortune

Each \$1.25

Broad, creamy yellow perianth of very solid texture, crown of great size and elegant form, opening at mouth and beautifully frilled, of a glowing soft orange. A Giant Incomparabilis of perfect form, early, a strong grower. Undoubtedly will soon become one of the more popular varieties. This is already a great English favorite.

## Francisca Drake

Each 30c; Three 85c, Doz. \$3.00, 100 \$21.00

The pure white perianth petals are of unusual substance, an inch and a half wide, and tinted gold at the base, which shows through on the outside; the cup, wide and deep, is golden yellow at the base; changing gradually to flame-orange at the densely frilled edge; the flowers are held well above the fine foliage and give the effect of a flock of white seagulls taking flight; strong growing and free flowering.

## Helios

Each \$1.25, Doz. \$2.30, 100 \$15.00

Deep golden yellow perianth, semi-overlapping; the cup opens a little darker than the petals and in a cool climate gradually changes to light orange.

## John Evelyn

Each 30c, Three 85c, Doz. \$3.00, 100 \$21.00

Outstanding among the new Incomparabilis hybrids; flatly opening perianth, 4 to 5 inches across, with a flat cup nearly 2 inches in diameter, densely frilled, the perianth being pure white without a trace of shading, and the cup lemon-yellow and fluted or shirred to the base; good neck; strong grower; free flowering and a good propagator; one of the greatest Daffodils.

## Milford-Haven

Each 30c, Three 80c, Doz. \$2.75, 100 \$18.00

Fine flower with cream-white perianth and wide cup ruffled and deeply frilled at edge, chrome-yellow at base and shading into rich orange-scarlet, the same gorgeous color combination as in the Montbretia "His Majesty."

## Orange Glow

Each 45c, Three \$1.25, Doz. \$4.50, 100 \$30.00

Flowers are very large, with broad, flat yellow perianth often 5 inches across. The cup is deep glowing orange, beautifully frilled. Of fine proportions, this is an outstanding Daffodil.

## Pygmalion

Each \$1.15, Three \$3.30, Doz. \$11.50, 100 \$77.50

Extra large perianth of pale citron, and a deep trumpet of orange-yellow shading to blood-orange at the nicely frilled edge; broad strong foliage and tall stem with upright neck, holding the flower well aloft. A choice new Daffodil.

## Red Shadow

Each 30c, Three 85c, Doz. \$3.00, 100 \$20.00

A most attractive flower of bold appearance. The perianth is creamy yellow and the cup is dark yellow with orange-red margin. It is unusually free flowering and a strong grower. Although one of the latest Incomparabilis types to flower, it forces well and is very attractive in pots. One of the best exhibition flowers.

## Red Cross

Each 30c, Three 85c, Doz. \$3.00, 100 \$21.00

Famous throughout the Daffodil world; extra large, strong flower, opening flat, primrose-yellow perianth, and deep yellow cup densely frilled, of deep orange; substantial and long lasting, and fine both in the garden and for exhibition.

## Sir Watkin

Six \$1.10, Doz. \$1.85, 100 \$12.00

Perianth primrose-yellow; large and well-formed yellow cup, tinged deep yellow. A persistent bloomer, it multiplies rapidly, and is a very hardy variety.

## Walter Hampden

Each 30c, Three 80c, Doz. \$2.75, 100 \$18.00

Very tall and outstanding; bright primrose perianth and pure yellow trumpet of Loutspecker type, with a tint of orange in the frills; very vigorous grower; medium late.

## Whiteley Gem

Each \$1.50

This Daffodil was awarded the Gold Medal for the best new variety at the London Daffodil Show, March, 1928. It is extremely early, by far the earliest of the red-cups to flower on our farms. On a very tall stem, the flower is beautifully balanced, the proportions of perianth and cup are very pleasing. The perianth is not much overlapping but of great substance. The coloring is very fine, deep golden yellow for the perianth and a bright orange for the finely fluted cup. For general garden use it should be most satisfactory as this extreme early flowering advances the season of the red-cups about two weeks.

## Yellow Poppy

Six \$1.25, Doz. \$2.30, 100 \$15.00

Among all the fine Daffodils of recent introduction, few have more quickly made a name for themselves—a flower of good size, with wide flaring trumpet, 1 1/2 inches across, the whole flower being finely proportioned, and borne on a tall stem with a good neck; in color the perianth is pure yellow, and the cup of the same lovely shade deepening slightly at the frilled edge; conspicuous styles of the same shade as the perianth add to its beauty; outstanding and in every way a satisfactory, as well as a sensational flower, both in the garden and as a flower for cutting.

# Barri Narcissi

Division 3: Barri, cup and crown measuring less than one-third the length of the perianth segments.

## Alcida

Six \$1.25, Doz. \$2.30, 100 \$15.00

Giant flower, pure white perianth opening flat, star-shaped, with individual petals over 1 1/2 inches wide; broad, citron-yellow cup with blood-orange frill; strong grower, fine substance and wonderfully free flowering; very late.

## Anna Croft

Each 30c, Three 80c, Doz. \$2.75, 100 \$18.00

One of the leaders in every show and equally fine in the garden; perianth light primrose, supporting a large sized trumpet deeply crinkled and frilled; cup of darker yellow shading to orange at edge; very tall stem; medium early.

## Bath's Flame

Six \$1.10, Doz. \$1.85, 100 \$12.00

Yellow perianth, deep yellow cup with broad edge of orange-red. The petals are very long, giving the flower a distinct and outstanding character. A perfection in scarlet and gold. Long stems.

## Diana Kasner

Six \$1.10, Doz. \$1.85, 100 \$12.00

A pure white perianth and a large fluted yellow cup with blood-red frill, very free flowering and an excellent forcer. We consider this variety as one of our most valuable introductions and cannot recommend it too highly.

## Eclair

Each \$1.35, Three \$3.90, Doz. \$13.50, 100 \$100.00

Semi-Poeticus type with broad overlapping perianth of purest white; and shallow cup yellow at base shaded to deep blood-red; unique flower of unusual substance; very late.

## Firetail

Each 30c, Three 85c, Doz. \$3.00, 100 \$21.00

Popular the world over; broad petaled creamy white perianth and large cup with scarlet-orange frill.

## Fleur

Each 65c, Three \$1.80, Doz. \$6.50, 100 \$45.00

Broad petaled reflexing perianth of pure Poeticus-white, with a flat deeply frilled cup, citron-yellow edged orange-red; beautifully proportioned. This variety received an Award of Merit in 1927 and is unquestionably one of the loveliest Barri varieties.

## Mayflower

Each 70c, Three \$2.00, Doz. \$7.00, 100 \$47.50

One of the new Barri-Poeticus hybrids with perianth of pure glistening white, broad overlapping petals, and yellow eye with red picotee; extremely tall; very striking; late blooming.

## Mrs. Barclay

Each 30c, Three 80c, Doz. \$2.75, 100 \$18.00

Large flower with flat, reflexed, broad-petaled overlapping perianth of pale primrose, changing to pure white; deeply frilled flat cup of primrose-yellow, with dainty orange picotee; extremely showy and a great favorite in the garden.

## Mrs. Walter Brewster

Six \$1.10, Doz. \$1.85, 100 \$12.00

Fine reflexed perianth of pure white, flat cup, lemon-yellow edged with oxblood-red; fine lasting flower; one of the best.

## Peggy

Each \$2.00

Very large, flat opening perfectly formed perianth, pure Poeticus-white, and of exceptional texture; medium-sized cup of lemon-yellow with golden orange margin; tall, vigorous grower; very late.

## FOOD FOR THOUGHT

### As Well as for Your Flowers

Plants and bulbs, anything that grows in the soil, are exactly the same in their food needs as humans. There are plenty of what might be called the shot-in-the-arm kinds of ready mixed fertilizers, but they are mostly only stimulants.

What your plants and bulbs need is a balanced organic food. Not just a stimulant. They need one containing in right amounts, those things that make plenty of strong roots, produce sturdy stalks, thrifty foliage and an abundance of good sized blooms.

That's exactly the kind of Plant Food we use at Wayside. Much of our success in growing such unfailingly fine plants is due to it.

What it has done, and is doing for our 600 miles of plants, it will do for your garden.

Turn to page 23, and get the full facts about it.

# Leedsi Narcissi

**Division 4:** Perianth white, cup white, or pale citron, sometimes tinged with pink or apricot.

## Betsy Penn

A Giant Leedsi of most lovely form and perfect texture, broad overlapping pure white perianth of waxlike substance, crown light yellow, developing to ivory, shallow and fluted at margin. A fine tall garden plant of unusual merit.

## Daisy Schaeffer

One of the best of the remarkable new Giant Leedsi type; the flower 4 inches across, with cup nearly 2 inches, resembles a Giant Trumpet, but much more graceful in form; perianth pure white, with cup opening primrose and turning to light canary-yellow, deeper at the base; long, lemon-yellow stigma and styles add to the color harmony of this remarkable flower; undoubtedly a leader for years to come.

## Delaware

Somewhat similar to Daisy Schaeffer, but smaller throughout, and if possible even more gracefully formed; strong grower and very free-flowering; cup opens a golden quince color, changing to creamy lemon, exceptionally deeply crinkled; a splendid flower.

## Gertie Millar

Wonderful flower of the new Giant Leedsi type with pure white perianth similar to and as large as Van Waveren's Giant, with a beautifully proportioned pale primrose cup deeply fluted and frilled and of translucent texture; unusually long pistils and anthers match these colors perfectly; a most handsome flower.

## Hera

Broad-petaled creamy white perianth, star-shaped and deeply frilled cup of creamy white with a dainty edging of light primrose; one of the most beautiful of all Daffodils.

## Lord Kitchener

A particularly heavy bloomer, and it increases rapidly and is very hardy. Quite outstanding in this group. Broad, flat, pure white perianth, very pale primrose crown.

## Well - Balanced Combinations of Daffodils

## Nette O'Melveny

*Six \$1.10, Doz. \$1.85, 100 \$12.00*  
A dancing Daffodil with pure white perianth and cup of clear lemon-yellow, with orange picotee; splendid foliage; tall, graceful stem, and good neck; in every way a delightful flower and sure to become immensely popular.

## Silver Star

*Six \$1.35, Doz. \$2.50, 100 \$16.00*  
Perfect broad-petaled, star-shaped perianth of pure cream-white, with finely proportioned, wide-mouthed trumpet of primrose, changing to cream-white, just a shade deeper than the perianth, extra fine and free flowering.

## Suda

*Each \$2.00*  
A most beautiful flower of fine substance, pure white perianth and well formed bell-shaped trumpet of a pale amber-rose color, very refined. Height 18 inches. A superb variety for the collector.

## Tunis

*Each 95c, Three \$2.75, Doz. \$9.50, 100 \$70.00*  
Tall, robust growing variety of lasting substance. A broad wavy white perianth and large bold ivory crown with handsome flanged and serrated brim, retaining a remarkable flush of pale coppery gold at the edge.

# Cyclamineus Hybrids

**Division 6:** Cyclamineus blood, like that of Triandrus, imparts such a distinct form to Daffodils, that a separate division has been made of its hybrids, which have trumpets of rich yellow, straight and tube-like, and perianths reflexed as in a Cyclamen; very early flowering.

## February Gold

*Six \$1.25, Doz. \$2.30, 100 \$15.00*  
Perianth golden yellow, trumpet tinged orange, very early.

## March Sunshine

*Three \$1.80, Doz. \$6.50, 100 \$45.00*  
Smaller than February Gold and more adapted for rock garden planting.

# Jonquilla Hybrids

**Division 7:** Hybrid Jonquils with two or more small, very fragrant flowers on one stem. The flowers of the Jonquilla Hybrids are exceedingly long lasting and withstand heat and wind better than any other group of Daffodils. They are particularly good for cut flower use in the home.

## Campernelle, Single

*Six \$1.10, Doz. \$1.85, 100 \$12.00*  
A tiny golden Daffodil with tips of pointed grasslike foliage reaching above the flowers; the broad overlapping petals make a nicely rounded perianth; frequently three blooms on a stalk; a delightful little flower.

## Campernelle, Double

*Six \$1.10, Doz. \$1.85, 100 \$12.00*  
Two to three golden yellow, small, fragrant flowers on strong stems; lovely for cutting. Height 13 inches.

## Golden Perfection

*Each 95c, Three \$2.75, Doz. \$9.50, 100 \$70.00*  
A perfect perianth with wide overlapping segments, deep citron-yellow with mica sheen and cup of pure gold perfectly proportioned to balance of flower; calyx gray-green flecked with gold; unique in its class. Lovely for cutting.

## Golden Sceptre

*Six \$1.10, Doz. \$1.85, 100 \$12.00*  
A medium sized perfectly built flower of deep Jonquil-yellow, 3 inches or more in diameter. The whole flower, as with others in this class, is of the greatest substance, keeping in perfect condition exceptionally long both in the garden and when cut.

## Jonquilla Simplex (Queen Anne's Daffodil)

*Six \$1.15, Doz. \$2.00, 100 \$12.50*  
The true tiny single Jonquil. The bulbs as well as the flowers of this miniature Daffodil are not very much larger than the Snowdrop. The flowers are a pure golden yellow and delightfully fragrant; foliage is grasslike. Perfectly hardy and most satisfactory small Daffodil for the rock garden.

## Jonquilla flore-pleno

*Six \$1.15, Doz. \$2.00, 100 \$12.50*  
This is the charming double-flowered form of the above. Also splendid in the rockery. The double Queen Anne's Daffodil.

## Lady Hillingdon

*Six \$1.25, Doz. \$2.30, 100 \$15.00*  
A fine companion for Golden Sceptre, blooming earlier; cluster-flowering type but well worth growing even if all the flowers come singly; perianth a clear butter-yellow, with broad outer petals opening flat like those of a Trillium, with the narrow inner petals curving forward around the moderate sized shapely trumpet of deep Jonquil-yellow.

## Linanth

*Each \$2.00*  
A beautiful and unique hybrid, deep golden overlapping perianth, shallow, expanded cup, old gold flushed orange; a fine exhibition flower and garden plant and superb cut flower.

## Orange Queen

*Six \$1.25, Doz. \$2.30, 100 \$15.00*  
A very striking variety, 2 to 3 flowers on a stem; color intense golden orange, cup prettily fluted. Delightful Jonquil fragrance. The flowers are produced in the greatest profusion on wiry stems about level with the tops of the strong but not coarse foliage; truly a Daffodil for every garden and the gayest of the lot, large or small.

## Sierra Gold

*Each 80c, Three \$2.25, Doz. \$8.00, 100 \$57.50*  
Of the Jonquil-yellow trumpet type; strong growing flower of remarkable substance; lasting exceptionally long in the garden or when cut; an ideal Daffodil for informal use and for indoor decoration; will outlast most any Daffodil as a cut flower.

## White Wedgewood

*Each 45c, Three \$1.25, Doz. \$4.50, 100 \$30.00*  
A dainty and charming flower borne on a tall stem; starry perianth of cream-white with a trumpet of a pale primrose; beautiful for cutting and effective in front of the Daffodil border, among other varieties.

# Triandrus Hybrids

**Division 5:** These are the Cyclamen-flowered Daffodils with reflexing perianth. The flowers are more or less drooping, of elegant form and graceful habit.

## Moonshine

*Six \$1.35, Doz. \$2.50, 100 \$16.00*

A beautiful Triandrus Hybrid, star-shaped white flowers, often three to a stem, drooping gracefully, very beautiful and a great favorite, especially for the rock garden or for naturalizing in the shade. A fine exhibition variety.

## Silver Chimes

*Each \$1.35, Three \$3.90, Doz. \$13.50, 100 \$100.00*

One of the prettiest of the small-cupped Triandrus Hybrids, being a cross of *Triandrus calathinus* and *Polyanthus Grand Monarque*; frequently produces heads of six or more flowers with pure white perianth and delicate pale primrose cup; an ideal and most beautiful plant to grow in pots in a cool greenhouse. Not perfectly hardy in the North.

## Thalia

*Each 45c, Three \$1.25, Doz. \$4.50, 100 \$30.00*

In addition to a peculiar attraction at first sight, this flower leaves one with an impression that it is white, yet it is a whiteness that is not white. The recurring petals and the angle of the three trumpets are unlike the conventional short-cupped Daffodil. The stem is dark green, round and reedlike thin. Some call it the "Orchid-flowered" Narcissus which adds to the mystery. Thalia provides unusually good material for artistic arrangement.

# Poetaz Narcissi

**Division 8:** All Poetaz are hybrids from *Poeticus Ornatus* and *Polyanthus Narcissi*. The plants are tall and vigorous growers, bearing heads of large, well formed flowers, deliciously fragrant. There is no better group for indoor culture in flats, pots or bowls, while if planted in time, their hardiness outdoors leaves nothing to be desired.

## Admiration

*Each 35c, Three 90c, Doz. \$3.25, 100 \$22.00*

This beautiful cluster-flowered Daffodil is especially lovely in full sunlight, as it has a transparent character, but the flowers viewed in shade do not look poor or papery. The perianth, which is a sulphur-yellow, seems rather to be of the quality of the soft taffeta silk which, in the old days, was known as "sarsenet," and the petals are slightly ridged lengthwise. The corona is of rich orange-scarlet and there are usually about six flowers to a stalk.

## Cheerfulness

*Six \$1.25, Doz. \$2.30, 100 \$15.00*

The double Elvira, a very pleasing double white Poetaz, good stems, a fine garden and show flower.

## Glorious

*Each 45c, Three \$1.25, Doz. \$4.50, 100 \$30.00*

Tall, flower delightfully informal in habit, perianth Poeticus-white with eye orange, edged red; good for semi-shade; very early and an excellent variety for growing in the house.

## Klondyke

*Six 90c, Doz. \$1.65, 100 \$12.00*

One of the finest of the yellow Poetaz. Perianth is of rich yellow with a slightly darker cup.

## Laurens Koster

*Six \$1.10, Doz. \$1.85, 100 \$12.00*

Creamy white perianth, lemon-yellow cup, free flowering. Excellent for growing in the house.

## Scarlet Gem

*Each 35c, Three 90c, Doz. \$3.25, 100 \$22.00*

Here is a very artistic contrast in color. The attractive, finely formed flower has a perianth of primrose-yellow with a deep orange cup. A most interesting Poetaz.

# Poeticus Narcissi

**Division 9:** Poet's Narcissi, white petals with scarlet cup.

## Actaea

*Six \$1.25, Doz. \$2.30, 100 \$15.00*

One of the finest of the new Poeticus varieties, beautifully proportioned; small Pheasant's Eye, reddish cup. This variety was introduced by Englehart in 1927 and is still considered one of the best new varieties.

## Edwina

*Six \$1.10, Doz. \$1.85, 100 \$12.00*

Purest white perianth, broad and overlapping petals, very flat cup, yellow edged red. Fine form and substance, highly recommended.

## Glory of Lisse

*Six 90c, Doz. \$1.65, 100 \$10.75*

Extremely broad overlapping petals, recurring from typical Pheasant's Eye cup; a larger Ornatus, unsurpassed for naturalizing.

## Recurvus

*Six 90c, Doz. \$1.65, 100 \$10.75*

The old Pheasant's Eye. Perianth pure white, somewhat reflexing; cup marginally deep scarlet; sweet scented. Fine for massing in borders or in grass.

## Snow King

*Six \$1.10, Doz. \$1.85, 100 \$12.00*

Glistening white perianth with exceptionally broad petals; cup with broad red edge; outstanding among the newest Poeticus varieties; tall growing; good neck.

## Albus Plenus Odoratus (Double Poeticus)

*Six \$1.10, Doz. \$1.85, 100 \$12.00*

The old Gardenia-flowered Double Poet's Narcissus. Pure snowy white; wonderfully fragrant. Should be planted in the shade and kept well watered at flowering time to prevent the flower buds from drying off. Blooms extremely late, long after most of the Narcissus have gone. It is a rare old variety preserved jealously in a few old gardens and worth special care.

# Narcissi for Growing in Water

## PAPER-WHITE NARCISSI

### Paper-White Grandiflora

*Six 95c, Doz. \$1.50, 100 \$10.00*

The popular bunch-flowering, pure white Narcissus, frequently having 30 individual blooms and splendid decorative foliage from a single bulb. We offer top size bulbs best suited for growing indoors in pebbles and water.

## CHINESE SACRED NARCISSI

*Six \$1.25, Doz. \$2.30, 100 \$15.00*

Often referred to as "Chinese Sacred Lily." Similar to the above variety but having clusters of white flowers with yellow cups.

## GOLDEN YELLOW NARCISSI

### Soleil d'Or

*Six \$1.25, Doz. \$2.30, 100 \$15.00*

Soleil d'Or resembles the Paper-White Narcissus very much in habit but is of an exquisite deep yellow color, with an orange-yellow cup. The culture is the same as for the Paper-White Narcissus. We have some very fine stock of this variety to meet the steadily increased demand.

## NARCISSUS, FEBRUARY GOLD

This is a little known, extremely early blooming, small golden Daffodil. One of the parents of this Hybrid is the little "Cyclamen" Daffodil which is responsible for its extreme earliness and "perky" flowers which in March or sometimes in late February start off the Daffodil season. It is one of the easiest Daffodils to grow indoors. Start a few bulbs in pebbles and water in November. Keep bowls in dark, cool place for three weeks and then bring into light or put six bulbs into a shallow 5-inch flower pot with earth in October. Keep pot moist and in dark, cool place for six weeks. Then bring into light. You'll have dozens of small golden Daffodil blooms in no time. Several plantings will give you a continuation of blooms.

*Six \$1.25, Doz. \$2.30, 100 \$15.00*

# Little Daffodils (NARCISSUS SPECIES)

The following are charming little subjects for rock work, where their dainty flowers are seen to perfection. They should be left undisturbed for years, and if happy, will soon establish themselves and afford a lovely picture in early spring. All the Bulbocodiums (except Monophyllum) and the Cyclamineus like moisture, and should, therefore, be planted at the foot of the rockery. Bulbocodium Monophyllum flourishes in a warm, dry sheltered situation planted in almost pure sand. Triandrus Albus (Angel's Tears) and Juncifolius delight in partial shade and a light, gritty soil, and should be given a well drained position.

**Bulbocodium citrinum** *Each 30c, Three 85c, Doz. \$3.00, 100 \$20.00*  
Large sulphur Hoop-Petticoat, very beautiful pale citron-yellow. Height 6 to 8 inches.

**Bulbocodium, Conspicuum** *Six 90c, Doz. \$1.65, 100 \$10.75*  
Yellow Hoop-Petticoat, flowers rich golden yellow of hoop-petticoat form and rushlike foliage. Height 6 inches.

**Canaliculatus** *Six \$1.10, Doz. \$1.85, 100 \$12.00*  
A dainty little Polyanthus Narcissus from Mentone, suitable for sunny positions in the rock garden. It has narrow, erect bluish green foliage and bears heads of 3 to 4 flowers with white perianth and globular golden cup, sweetly scented. Height 6 inches.

**Cyclamineus** *Each 95c, Three \$2.75, Doz. \$9.50, 100 \$70.00*  
The yellow Cyclamen-flowered Daffodil. The trumpet is rich yellow, straight and tubelike, elegantly serrated at mouth, while the perianth is reflexed like a Cyclamen.

**Juncifolius** *Each 30c, Three 85c, Doz. \$3.00, 100 \$21.00*  
Small, graceful, rich yellow flowers, rather smaller than a Buttercup with a dainty little flat crown.

**Triandrus albus** *Each 40c, Three \$1.10, Doz. \$4.00, 100 \$25.00*  
An exquisitely beautiful little species, it is of slender growth and produces a cluster of elegant creamy white little flowers with globular cup and perianth reflexing as in the Cyclamen. Height 7 inches.

**Triandrus calathinus** *Each 60c, Three \$1.60, Doz. \$5.75, 100 \$40.00*  
The flowers are produced in clusters of two and three, are snowy white and more than twice the size of the *Triandrus Albus* with long, goblet-shaped crown prettily fluted; the foliage has a curious habit of curling over. Height 7 inches.

**Triandrus concolor** *Each 95c, Three \$2.75, Doz. \$9.50, 100 \$70.00*  
True, bearing clusters of dainty fragrant flowers of similar form to *Triandrus Albus*, but of a uniform soft yellow, a rare and beautiful little Daffodil. Height 7 inches.

# Flowering Bulbs for All Gardens

## ALLIUM GIGANTEUM

Alliums are very attractive bulbous plants, producing erect bare stems with globular heads of flowers, resembling the Blue Lace Flower or Bunch Primrose. Perfectly hardy, easily grown, and well adapted to rock gardens. Thrive in almost any soil in sunny situations.

### Giganteum

Each 45c, Three \$1.25, Doz. \$4.50, 100 \$30.00

Early in April broad and curving blue-green leaves of artistic shape and form make an attractive display. These later are followed by rigid, thin and perfectly bare 3 to 5 foot high flower stalks topped by a round ball-shaped cluster of small starlike flowers, 5 inches in diameter. The color is a deep lavender-purple. The effect of the tall bare stem with a ball-like bloom poking high above surrounding flowers is quite unique and interesting. This is a very scarce as well as rare bulb.

### Neapolitanum

Six 75c, Doz. \$1.20, 100 \$8.00

Producing in May to June numerous heads of graceful white flowers, prized for cutting; it is also a charming plant to naturalize in shady woods, assorted with the blue Wood Scilla. Height 15 inches.

## Amaryllis Hippeastrum Hybrids

There is nothing that will give the amateur greater pleasure for growing in the house as well as in the garden. These giant-flowering Amaryllis produce a magnificent blossom with the least possible care and trouble. Planted in a pot in the early winter they will bloom about 6 or 8 weeks after planting. Bulbs may be kept dormant and planted a week or ten days apart so that you will have succession of bloom throughout the entire winter. In the garden they may be planted during March, April and May, depending upon locality, and they will bloom during June and July as easily as Gladioli. The bulbs throw a vigorous stem with four to six gigantic blooms, ranging in color from pure white grounds with varied markings of rose, red and crimson to the richest self colors as scarlet, crimson and bright red. From November until April we can supply bulbs guaranteed to bloom.

## GIANT CALIFORNIA HYBRIDS

This is a fine strain of large-flowered California grown Amaryllis Hybrids. The bulbs when potted from January to May will flower freely indoors. They may also be grown in the garden where they do beautifully. (Color illustration, page 19.)

### California Dark Red Shades

Each 85c, Doz. \$8.50

### California Mixed Hybrids

Each 75c, Doz. \$7.50

## Regina Hybrid Amaryllis

### Amaryllis, Regina Hybrids

Each 80c, Doz. \$8.00

A cross between Amaryllis Equestris and Amaryllis Regina, and one of the easiest bulbs to grow and flower in the house. Produces an 18-inch stem with from 3 to 5 Amaryllis-like blooms of a pleasing shade of coral-pink. Plant in a 5-inch pot and place in sunny window where it will thrive. May also be grown outdoors. It multiplies quite readily even under unfavorable conditions. Easily grown in the garden.

## Hardy Amaryllis

### \*Halli (Lycoris squamigera)

Each \$1.25, Doz. \$12.50

Produces in early spring attractive green foliage which grows until July when it ripens and disappears. About a month later, as if by magic, the flower stalks spring from the ground to a height of 2 to 3 feet, developing an umbel of large, Lily-shaped flowers, 8 to 12 in number, of a delicate lilac-pink shade. The bulb is perfectly hardy. Cover crown about 4 inches.

## A CHOICE MIXTURE OF DARWIN, BREEDER AND COTTAGE TULIPS

So that you may be able to have plenty of Tulip flowers to cut from your own garden, we have arranged with our grower a selection of large-flowering Tulips with long stems suitable for cutting. Great care will be taken to see to it that each package contains the greatest variety possible in harmonious colors. There will be Darwin Tulips, Cottage Tulips, and Breeder Tulips in the mixture. All will be long-stemmed varieties excellently suited for cutting, anyone who simply wants a few Tulips for a bright spot in the garden could not possibly do better.

Doz. \$2.50, 100 \$16.00

## ANEMONE

These popular flowers of French origin are exceedingly brilliant when in flower and excellent for cutting. They like to be planted about 6 inches deep in a cool, moist but well drained soil. Will establish without any trouble and remain for years. For northern states we advocate early spring planting, for the southern section of the country, fall planting is best. Cover in winter with strawy manure.

### Blue Poppy

Six \$1.00, Doz. \$1.60, 100 \$10.50

### De Caen

Six 95c, Doz. \$1.50, 100 \$10.00

### His Excellency

Six \$1.00, Doz. \$1.60, 100 \$10.50

### St. Brigid

Six \$1.00, Doz. \$1.60, 100 \$10.50

### White Poppy

Six \$1.00, Doz. \$1.60, 100 \$10.50

## BABIANA - Balloon Flower

### Stricta, Mixed Shades

Six 60c, Doz. 95c, 100 \$6.25

The colors vary from gentian-blue to wine-purple. They reach a height of about 8 to 10 inches. For northern climates they should be grown like the Freesia for conservatory decorations, but in mild climates they may be used in the rockery or border, where they make magnificent brilliant masses of color.

## BRODIAEA

They are easily naturalized in almost any soil. Plant them about three inches deep and leave them alone. They are especially happy under deciduous trees, in the rock garden, or in rough, gritty soils.

### Coccinea (Floral Firecracker)

Six 95c, Doz. \$1.50, 100 \$10.00

Tall, slender stem capped with dazzling crimson flowers. Prefer a loose, gritty soil. Beautiful for the rockery. Height 1 to 2 feet.

### Grandiflora

Six 75c, Doz. \$1.20, 100 \$8.00

Its large, glossy purple flowers are very beautiful and have great lasting qualities. The bulbs can be naturalized in any clay soil, especially if moist.

### Ixioides splendens

Six 95c, Doz. \$1.50, 100 \$10.00

Called "Golden Star." Has an umbellate cluster with flowers of a fine golden yellow on stems 6 to 8 inches high.

### Mixed

Six 75c, Doz. \$1.20, 100 \$8.00

This mixture contains the following colors: blue, red, yellow, white, and is good for naturalizing. Bulbs self-sow and increase quite rapidly.

Brodiaea Ixioides Splendens

## CALLA - Zantedeschia

Plant Callas indoors in the late fall of the year. In April or May dormant bulbs may be planted near the pool in a sunny spot where they will flower beautifully in August or September.

### Elliottiana (Yellow Calla)

Each 55c, Three \$1.50, Doz. \$5.50, 100 \$37.50

One that should be planted extensively. The deep golden yellow flowers are truly magnificent and produced in abundance. The green foliage is spotted white, which adds to its beauty; lovely house plant as well as garden subject. (Color illustration, page 20.)

### Godfrey (White Calla)

Each 45c, Three \$1.25, Doz. \$4.50, 100 \$30.00

Most ornamental foliage if grown near pool where it will get plenty of water; an excellent, easily grown house plant. (Color illustration, page 19.)

### Melanoleuca

Each 65c, Three \$1.80, Doz. \$6.50, 100 \$45.00

Rare "Black-Throated" Calla. The flower spathe is large, yellow and widely flaring. Margin and tip recurve, revealing a sharply contrasting purplish black throat blotch. The handsome yellow flowers are larger than those of the Calla Elliottiana. The plant is also taller and the spotted foliage even more decorative. Does particularly well outside, making a fine show in the garden and is a superb pot plant, easily grown in the house.

### Rehmanni

Each 55c, Three \$1.50, Doz. \$5.50, 100 \$37.50

The pink or rose Calla. A rather uncommon species native of Natal. The flowers are small but pink and therefore most unusual. An uncommon plant for the greenhouse or indoor culture.

## CAMASSIA (Hardy)

There are few bulbous plants that meet climatic or soil conditions better or give a more attractive bloom. They are hardy without protection, and thrive either under ordinary garden conditions or when naturalized in open, moist woods or in not too dense a grassy growth. The flower stems are 2 to 4 feet high with as many as a hundred star-shaped flowers measuring 1 1/2 inches across and flowering in long succession.

### Esculenta

Each 75c, Doz. \$1.20, 100 \$8.00

Very showy in mass planting. Forms flower spikes 2 feet high, bearing a cluster of star-shaped flowers of a very fine, rich purple. Fine for wet and swampy places where other bulbs do not grow.

### Leichtlini

Each 90c, Doz. \$1.60, 100 \$10.50

Same as preceding but stronger grower, flowers are larger and come in various hues of blue and creamy white. Again does well where other bulbs fail.

### Colchicum Autumnale

## COLCHICUM - Meadow Saffron

(Giant Autumn-Flowering Crocus)

Colchicum are autumn-flowering bulbs with large Crocus-like blossoms which appear during the months of September and October, without foliage. The foliage, however, appears early in the spring about the same time the Tulips and Hyacinths are in bloom and disappears in June. They are especially recommended for planting between the taller growing rock plants such as Cerastium, Vinca, Pachysandra, and the various Sedums, where their bold, checkered Crocus-like blossoms are seen to the best advantage. Blooming in September and October when flowers in the rockery are scarce, they are especially valuable. They may also be planted in the open woods or in naturalistic plantings of any sort. The bulbs, if kept indoors, will bloom during September and October in the window without any earth or water and after blooming, the bulbs may be planted in early November outdoors, and will not suffer in the least.

### Autumnale

Each 45c, Three \$1.25, Doz. \$4.50, 100 \$30.00

Commonly called the Autumn Crocus; very free flowering; of easy culture.

### Autumnale alba

Each 50c, Three \$1.35, Doz. \$5.00, 100 \$35.00

Pure white, increasing fast; free flowering.

### Autumnale alba plena

Each \$1.30, Three \$3.80, Doz. \$13.00, 100 \$95.00

Large, double white flowers.

### Autumnale major

Each 50c, Three \$1.35, Doz. \$5.00, 100 \$35.00

A large variety with massive flowers of rosy purple.

### Bornmuelleri

Each 60c, Three \$1.60, Doz. \$5.75, 100 \$40.00

Fine cup-shaped, long-tuber flowers of rosy lilac coloring; one of the finest species; early flowering.

### Giganteum

Each 60c, Three \$1.60, Doz. \$5.75, 100 \$40.00

Large, soft violet, white center; late flowering.

### Speciosum

Each 45c, Three \$1.25, Doz. \$4.50, 100 \$30.00

Deep rose-purple; very large; stout and fine.

### Speciosum, Autumn Queen

Each 65c, Three \$1.80, Doz. \$6.50, 100 \$45.00

An outstanding large flowered hybrid, gives huge clusters of flowers of deepest rose-purple.

### Speciosum, The Giant

Each 60c, Three \$1.60, Doz. \$5.75, 100 \$40.00

Truly a giant, makes a fine show growing in a ground cover such as Vinca. The immense flowers are pure lilac.

## CROCUS VERNUS - Dutch Crocus

The finding of these Crocus in bloom is one of the genuine delights of life. Though we may eventually plant them by the thousands or may have been so long at gardening that little surprises us, yet that first Crocus is a great event.

Mixed Colors of Blue, Lavender, Purple, White, Golden, and Striped

Each \$1.10, Doz. \$1.80, 100 \$11.50

## SPRING-FLOWERING CROCUS SPECIES

### Susianus (Cloth of Gold)

Each \$1.10, Doz. \$1.85, 100 \$12.00

Flowers bright golden inside while outside deeper golden yellow with fine tan pencil markings. A prolific bloomer, producing large quantities of flowers which create a brilliant show.

### Versicolor (Cloth of Silver)

Each \$1.10, Doz. \$1.85, 100 \$12.00

Large white flowers colorfully feathered rich purple. They make a cheerful show early in spring and flowers are produced in large quantities.

## AUTUMN-FLOWERING CROCUS

### Zonatus

Each \$1.10, Doz. \$1.85, 100 \$12.00

Flowers rose-lilac with yellow throat, freely produced. One of the most satisfactory kinds, lovely in the rock garden or under tall shrubs. Does well planted under trees between Vinca, Pachysandra, or other ground covers. Easily grown indoors.

[14]

### Ixiol, Mixed

Fritillaria Thunbergii

## ERYTHRONIUM - Trout Lilies

These are charming woodland plants, producing in early April, small Lily-like flowers of which the colors run in delicate tints of white, pink, cream, bright yellow and rose. They thrive in wooded places under shrubs and in shaded corners or crevices of the rockery.

Their beauty is enhanced by their richly mottled leaves. All grow about 6 to 7 inches high.

### Californicum

*Six 95c, Doz. \$1.50, 100 \$10.00*  
Cream colored, often with 4 or 5 flowers on the stem. Leaves richly mottled. A large colony is a beautiful sight.

### Californicum bicolor

*Six 95c, Doz. \$1.50, 100 \$10.00*  
The flowers open upwards showing the inner half to be rich chrome-yellow, the outer half pure white, and are delicately fragrant. It grows easily and flowers freely.

### Hendersoni

*Six 95c, Doz. \$1.50, 100 \$10.00*  
Like Californicum but the flowers are a lovely light purple, with the centers a deep maroon, almost black.

### Revolutum Johnsoni

*Six \$1.25, Doz. \$2.30, 100 \$15.00*  
The most beautiful of all the Erythroniums. A stout plant producing exquisite rose-pink flowers.

### Tuolumnensis

*Six \$1.25, Doz. \$2.30, 100 \$15.00*  
Glacier Lily, Mountain Lily, or Golden Easter Lily. One of the most beautiful and rarest of Dog-Tooth Violets. Do best in shady woodland places, well drained soil. Not unusual to see stem with 10 to 12 golden flowers, the flowers often being 3 inches across. Excellent for cutting. Plant in colonies.

### Mixed

*Six 95c, Doz. \$1.50, 100 \$10.00*  
This mixture is made up of the above named varieties and many others. Splendid for naturalizing and for rock garden in light shade.

Fritillaria Pudica

## CALOCHORTUS - Mariposa Tulips

Until one has seen a good collection of these plants, he has no idea how much Nature can do in the variation of one flower. One to many on a stem, wonderfully marked with eyes and dots, and pencillings in rich colors, are characteristics. "Mariposa" is simply the Spanish word for butterfly, and is applied to these Tulips because the eyes and markings are so like those on a butterfly's wings.

### Clavatus

*Six \$1.25, Doz. \$2.25, 100 \$14.00*  
The largest flowered and the stoutest stemmed of all Mariposa Tulips. The blooms, which are shaped like a bowl, are often over 4 inches across, of a deep yellow, and the lower half covered by stiff yellow hairs.

### Venustus oculatus

*Six 95c, Doz. \$1.50, 100 \$10.00*  
Wonderfully varied in whites and cream, more or less tinted purple, and with very rich eyes. We have had the flowers 4 inches across. The plant is a good grower, and the flowers are most satisfactory.

### Mixed Colors and Varieties

*Six 95c, Doz. \$1.50, 100 \$10.00*

They grow from 1 to 2 feet high and branch. The flowers are simply marvelous in their variety of colors and markings. Scarcely two are alike; in a mixed lot they may vary through white, lilac to purple, and again through shades of pink to claret-red. In any mixture whites, more or less eyed, predominate. There is no better investment for the flower lover than a quantity of these bulbs. They thrive best in a rather porous soil, either sandy or gritty, and grow either in sun or light shade. Flowers are 2 to 4 inches in diameter. Mixed colors. (Color illustration, page 17.)

## FREESIAS

Without doubt the most sweetly scented flower grown; a single bloom permeates the living-room with its delicate perfume. Although they are quite popular and very easily raised, we suggest the following treatment: Procure the bulbs as early as possible and plant them in August, 6 to 25 bulbs for a single pan. The soil should be a mixture of good loam. The bulbs planted early, say August and September, must be placed outdoors until cold weather sets in; must be regularly watered and kept growing all the time. In November, before frosts appear, the pots should be placed in the window of a cool room.

### Celeste

*Six 75c, Doz. \$1.20, 100 \$8.00*  
Deep violet-blue. Large flowers and one of the best of its color. Wonderful for cutting; stems are quite long and rigid. (Color illustration, page 20.)

### Golden Daffodil

*Six 75c, Doz. \$1.20, 100 \$8.00*  
A yellow Freesia of unusually sturdy growth; tall, straight stems. Flowers large and wide open. Great lasting qualities. Very prolific producer with several laterals. (Color illustration, page 20.)

### Marie Louise Fischer

*Six 75c, Doz. \$1.20, 100 \$8.00*  
A very attractive lavender-blue. Large open flowers and good long stems. A strong grower with plenty of laterals. We believe the finest lavender to be put on the market.

### Pinkie

*Six 75c, Doz. \$1.20, 100 \$8.00*  
Immense flowers of a clear, bright rose-pink. Stems are tall and strong.

### Purity Superflora

*Six 75c, Doz. \$1.20, 100 \$8.00*  
A new giant white, stems average 18 to 20 inches long. Single flowers 2½ inches long; early bloomer.

### Mixed Colors

*Six 75c, Doz. \$1.20, 100 \$8.00*  
A lovely mixture made up out of many varieties. All the shades of the rainbow.

## FRITILLARIA - Mission Bells

The true Mission Bells do better in a clay soil in full sun. The woodland Fritillaries like woodland soils and conditions, and in cultivation some shade and a free soil. They are hardy as far north as Wisconsin.

### Lanceolata

*Six \$1.25, Doz. \$2.25, 100 \$14.00*  
Grows from 1½ to 3 feet high. The flowers are green and brown mottled prettily, produced on top of the stem, a most attractive variety.

### Curvata

*Six \$1.25, Doz. \$2.25, 100 \$14.00*  
Is as beautiful, and much resembles a Lily. In size and habit like Lanceolata with orange-scarlet flowers of a lovely clear brilliant coloring.

### Pudica

*Six \$1.25, Doz. \$2.25, 100 \$14.00*  
Of still a different habit. A low plant about 6 inches high with a single clear bright yellow bell. Likes sandy or loose soils and a warm spot in the rockery where you will enjoy it immensely.

### Thunbergii

*Six \$1.25, Doz. \$2.30, 100 \$15.00*  
Bronze-purple. These produce in early April dwarf, pendent, reddish brown and purple bell-shaped flowers in curiously checkered shades, on stems 12 inches high. They are very effective in colonies, requiring a somewhat dry situation. Invaluable for the rockery, for naturalizing and very lovely grown in pans indoors; use same culture as for Freesia.

## GLADIOLUS NANUS - Early Flowering

These Baby Gladiolus are extensively used for winter forcing, can be forced by the end of March, and come in very useful when most bulbs have gone. Noted for their lasting qualities, slender stems and dainty, Orchid-like flowers.

### Mixture of Gladiolus Nanus

*Six 90c, Doz. \$1.50, 100 \$10.00*  
Beautiful new strain, early flowering, with dainty flowers carrying the characteristic diamond-shaped markings on the lower petals. Long, strong stems. New pastel shades of lavender-blue, orchid, salmon, pink, rose, scarlet, orange, and many others.

## ROMAN HYACINTHS

The early Roman Hyacinth, with its graceful spike of fragrant bells, is one of the earliest of all winter-flowering bulbs.

Bulbs will be ready in September, when they may be planted in pots or pans. They may also be placed in the more artistic ornamental bowls, pebbles or fiber as a filler, which only needs to be kept continually moist. Bulbs planted in September bloom in December.

### White

*Extra large bulbs.*

*Three 90c, Doz. \$3.25, 100 \$22.00*

## IXIA - Corn Lilies

### Bloom Erf

*Six \$1.00, Doz. \$1.75, 100 \$11.25*  
Recently introduced hybrid from South Africa, quite different from other Ixias. Blooms in late spring. Wiry stems 4 to 5 feet tall with 20 to 40 open flowers in a raceme at the top with several smaller flowering branches below. Color varies from pure white through shades of pink overlaid with a bluish tinge. Excellent for cutting.

### Mixed

*Six 95c, Doz. \$1.50, 100 \$9.75*  
These beautiful bulbs from the Cape Colony (South Africa) are far too little known; they should be planted in late autumn and in cold districts they must be covered with a thick layer of straw or leaves. They are splendid for southern states. There are few bulbs so lovely and graceful and those fortunate enough to live where the climate is mild should plant them by the hundreds.

# Dutch Iris

In England the Dutch Iris is proudly called "the poor man's orchid." It deserves the name. The orchid-like blooms are rich in captivating colors, ranging from pure white through golden yellow to cornflower-blue, dark violet and deep purple. They're superb for cutting, stand a lot of handling and last a week or longer in water. Also, the bulbs multiply rapidly and when once established, the colony continues to increase, giving you more flowers each year. Few bulbs are as inexpensive and prolific. They repay you with generous beauty, asking little in return except a sunny spot, well drained, and a little winter protection in the colder parts of the country.

## David Haring

*Six 95c, Doz. \$1.50, 100 \$10.00*  
Standards old ivory; falls pure white. A unique and very desirable variety. Lovely for cutting.

## Golden Lion

*Six \$1.25, Doz. \$2.30, 100 \$15.00*

The perfectly beautiful ruffled yellow flowers are in a class all their own. Without a doubt it is the finest of the lot. Will last for a week or ten days in water when cut. In the garden, it makes a stunning group. Bulbs multiply freely and a carefully planted clump will bloom for years without attention. (Color illustration, page 17.)

## Imperator

*Six 95c, Doz. \$1.50, 100 \$10.00*

Uniform dark purple-lilac flowers of good substance. One of the easiest Dutch Iris to force, flowering shortly after Wedgewood.

## Wedgewood

*Six 95c, Doz. \$1.50, 100 \$10.00*  
Standards blue; falls lighter blue; excellent forcer and makes a bold show in the garden as well. (Color illustration, page 17.)

## Yellow Queen

*Six 95c, Doz. \$1.50, 100 \$10.00*

Standards and falls golden yellow. Thin wiry stems, excellent for forcing or outside, the best medium priced yellow. 28 inches.

## Mixed Colors

*25 \$2.50, 50 \$4.50, 100 \$8.00*

Here we offer a mixture of about 20 varieties at a very special price for cut flower use. The bulbs are all flowering size but are slightly smaller than those of the named varieties. Hundreds of blooms can be had from these for very little money.

# English Iris

These magnificent bulbous Irises thrive in any ordinary garden soil but prefer a good loam. The earlier the planting, after beginning of September, the greater the success; the bulbs should be planted 4 inches deep. The varieties contained in our mixture, we have especially selected as being the very finest and most distinct in cultivation, and they will be found as strikingly beautiful in color as many of the sumptuous Orchids. They flower from end of June to beginning of July, thus succeeding the Bearded Flag Irises, Early Xiphium and Spanish Irises. As cut flowers they take a first place.

## Mont Blanc

Pure white; blooms often two or three on one stem.

*Three 85c, Doz. \$3.00, 100 \$20.00*

## Othello

Rich dark blue flowers of excellent substance.

*Three 85c, Doz. \$3.00, 100 \$20.00*

## Queen of the Blue

Pure light blue flowers. A lovely sort for the garden as well as for cutting.

*Three 85c, Doz. \$3.00, 100 \$20.00*

## Sir William Mansfield

Clear purple-blue flowers; exceptionally good for cutting.

*Three 85c, Doz. \$3.00, 100 \$20.00*

## Choice Mixed Shades

A beautiful range of colors including the above as well as several other varieties.

*Six \$1.10, Doz. \$1.85, 100 \$12.00*

# Iris Species

## Reticulata (Fragrant Iris)

*Three 85c, Doz. \$3.00, 100 \$21.00*

This lovely species is one of the treasures of the garden or rock garden. It can be described as a small form of the Spanish or Dutch Iris. Its main value lies in the fact that it may be forced into bloom in the house with the greatest ease. Six or eight bulbs put into a 4- to 5-inch pot when received will bloom about Christmas time. The fragrant blossoms remind one of a bunch of fresh violets. Perfectly hardy with reasonable protection. It is one of the loveliest early flowering bulbs for the rockery. To show it off well, plant a number of bulbs under the white *Arabis Alpina*; you'll enjoy the results more than we can tell you. (Color illustration, page 17.)

New!

# WEEDONE

## The Wonder Weed Killer

New!

DOES NOT irritate the skin. DOES NOT corrode metals or spray equipment. DOES NOT damage or sterilize soil. DOES NOT explode. DOES NOT leave residue on plants or weeds that is hazardous to pets or livestock. IT KILLS the plant or weed underground as well as above ground—RIGHT DOWN TO THE ROOT TIPS.

### WHAT IS WEEDONE?

WEEDONE is a new kind of weed killer, which when sprayed onto the leaves of certain weeds, is absorbed by the plant and penetrates down to the end of the root system, and thereby kills the plant throughout. For complete kill, all the foliage must be sprayed as there is little cross-movement within the stem. WEEDONE is effective only when the leaves are green and actively growing, for the chemical does not move through dormant or dead tissue.

WEEDONE usually takes a week to ten days before showing its first effect, and the plant takes two or four weeks to die. This slow action gives the chemical a chance to move all through the plant.

### WHAT WEEDS DOES IT KILL?

WEEDONE is a selective weed killer; that is, it kills some weeds and damages others, while still others are not affected by it. WEEDONE is recommended for killing poison ivy, poison oak, bindweed or wild morning glory, Japanese honeysuckle, sassafras, black locust, and wild or choke cherry. It will also kill many other weeds under favorable conditions.

In late spring and early summer before the plant has matured or hardened, 90 to 95 per cent kill has been obtained with one spray application of WEEDONE to cocklebur, blackberry, Canada thistle, yarrow, dandelion, plantain, sumach, oxalis, chickweed, horse nettle, sheep sorrel, ragweed, white clover, French weed and sweet clover.

Most grasses, while damaged with WEEDONE, are not killed by it, particularly when the grasses are dormant or about to go to seed. Nimble Will, crab grass, and Bermuda grass have been killed with WEEDONE spray as seedlings, but these grasses are quite resistant when fully grown.

|                                    |       |         |
|------------------------------------|-------|---------|
| 6-fl. oz. bottle (for 300 sq. ft.) | ..... | \$ 1.50 |
| 1-qt. bottle (for 1500 sq. ft.)    | ..... | 4.00    |
| 1-gal. can (for 6000 sq. ft.)      | ..... | 12.00   |

Ask for prices on quantities of 10 gallons or more

### EFFECT OF RAIN

Rain before WEEDONE is applied makes the plant more sensitive to WEEDONE. Rain interferes with the absorption of WEEDONE only if the rain occurs in the first six hours after spraying.

### WHEN TO APPLY

WEEDONE gives the best results when applied on warm, sunny days above 70 degrees. Below 50 degrees, there is little movement within the plant so the response to WEEDONE is negligible below 50 degrees. In arid sections with low humidity, sprays should be applied in the morning, as the solution may evaporate too rapidly from the leaves if applied in the afternoon. In most localities, this means that weeds are in the best condition for WEEDONE application between May 15th and September 15th.

### DIRECTIONS

For application, WEEDONE is mixed with water to form a milky emulsion. For most weeds, use a 1 to 60 dilution, which is made by mixing one gallon of WEEDONE with 60 gallons of water. For smaller quantities use the mixing table below. Poison ivy in light or sandy soil, bindweed and black locust can also be killed, though more slowly, with a 1 to 100 dilution, that is, one gallon of WEEDONE in 100 gallons of water.

### 1 to 60 Dilution

#### WEEDONE to Water

|                             |

Outstanding New Dutch Iris, Golden Lion

Dutch Iris, Wedgewood

Iris Reticulata

Perfectly hardy. March blooming. As fragrant as Violets

Calochortus  
(See page 15)

Guaranteed Superior Quality

# Wayside Gardens

MENTOR, OHIO

## Eremurus - Foxtail Lilies

### The Beautiful Shelford Hybrid Eremurus

Hardy — easily grown — increasing in size and beauty from year to year. They are easily one of the finest plants for the garden and superb for bold bouquets.

A noble family of hardy bulbous plants, most spectacular and desirable for stately and colorful groups in hardy plant borders. They are perfectly hardy, and when well established, produce giant flower spikes, like huge Hyacinths, attaining a height of from 5 to 8 feet long. They thrive in any sunny, well-drained border, and should be planted in early fall. The plant disappears above ground after flowering and annuals may be planted close to them to fill the vacant space, or the vacant space may be satisfactorily covered with Gypsophila Flamingo. A light mulching is advised as a winter protection in the very coldest parts of the country.

### SHELFORD HYBRID EREMURUS IN PASTEL SHADES Stately Cut Flowers or Garden Plants

Beautiful, tall hardy hybrids, the inflorescence is 3 feet long, studded with myriads of coppery pink, orange, pale yellow and pink flowers. Rare and richly colored. They grow to an average height of 6 feet. For garden planting as well as for cutting these hybrids are superb. They make a stunning show in the garden as well as cut flowers indoors, lasting fully three weeks in water. For several years we have been increasing our stock so we could offer roots at a popular price. We suggest that they be planted in groups of not less than three, better effects are created if planted in masses of six or twelve. Our price is very low, enabling you to do this.

Shelford Hybrids. Strong flowering roots.

Each \$1.75, Three \$5.00, Doz. \$17.50

### SHELFORD HYBRIDS, NAMED VARIETIES

Isobel. Orange.

Each \$2.50

Rosalind. Bright pink.

Each \$2.50

Moonlight. Pale yellow.

Each \$2.50

White Beauty. Pure white.

Each \$2.50

### GIANT EREMURUS

#### Spectacular and Rare Garden Plants

*Elwesianus albus*

Each \$2.50, Three \$7.00, Doz. \$25.00

Pure white flowers similar in form and height to *Robustus*. A magnificent species growing easily 7 feet tall. This, as well as all other *Eremurus*, is produced from seed which results in slight variation of tints and shadings.

*Robustus*

Each \$2.50, Three \$7.00, Doz. \$25.00

Light rosy pink flowers grow on stems 6 to 8 feet tall. One-third to one-half of the stem is covered with sparkling, small cuplike flowers. This is one of the giants of the family, easily grown and lasts from year to year. Giant roots producing one or more spikes.

*Himalaicus*

Each \$1.50, Three \$4.25, Doz. \$15.00

A veritable giant. It is a simple matter to grow flower stalks 7 to 9 feet tall on this variety. The rigid spikes are covered with waxy white cuplike flowers with golden anthers and remain in bloom four weeks or more. We have withheld *Himalaicus* from sale for several years because we wanted to sell this plant in quantity and at a popular price. With reasonable care they will flower for you for ten years or more without the need of transplanting. We can now offer giant flowering roots at the above ridiculously low price.

*Him-Rob*

Each \$1.50, Three \$4.25, Doz. \$15.00

This tremendous flower is the result of a cross between *Himalaicus* and *Robustus*. Its 7- to 9-foot flower spikes are studded with shiny cuplike flowers which vary from pale to deep pink, the flowers lasting four weeks and longer. As in the case of *Himalaicus* we did not offer this variety for sale until a large stock was first available. Here really is something outstanding for your garden at a price never before possible. With little care they will flower easily for ten years or more. We offer giant-flowering roots.

A Planting of *Eremurus Robustus*, *Himalaicus* and *Him-Rob*

Grape Hyacinths—Muscari, Heavenly Blue (See page 21)

Mertensia Virginica (See page 21)

Freesias, Celeste and Golden Daffodil (See page 15)

## LACHENALIA

These bulbs are especially useful for forcing as they can be grown in flats or in pots. Do well out-of-doors in milder climates and are showy in beds, borders, and rock gardens. They have from one to two dozen generally pendulous, fire-cracker-like flowers, three-quarters to one inch in length on stems six to nine inches and bloom from late November to February, depending on the time of planting and the temperature in which they are grown.

**Cultural Directions:** Same as Freesias. May be had in bloom at Christmas. Bulbs multiply freely and may be used from year to year.

### Aurea

Three 80c, Doz. \$2.75, 100 \$19.00

A beautiful variety producing 8- to 10-inch spikes of golden yellow flowers; very easily grown in the house. Like Pendula, it can be had in bloom for Christmas by simply growing it on the windowsill in full sun.

### Pendula superba

Three 80c, Doz. \$2.75, 100 \$18.00

Flowers brilliant coral-red tipped green and purple. Two or three Tulip-like green leaves. One of the best and earliest. Excellent for indoor growing. Easily in bloom by Christmas.

## LEUCOCORYNE - Glory-of-the-Sun

### Ixioides odorata

Six \$1.25, Doz. \$2.25, 100 \$14.00

Flowers exquisite light blue on tall, wiry stems and of very long-lasting quality, with faint Heliotrope fragrance; for greenhouse culture or outdoors in warm states. March and April flowering. Unquestionably one of the loveliest new bulbs introduced. We predict it to be as much used as Freesias as soon as the price permits its free planting.

## LEUCOJUM - Snowflake

### Aestivum (Summer Snowflake)

Six \$1.00, Doz. \$1.60, 100 \$10.50

A very handsome, hardy, robust growing plant, producing spikes of elegant drooping white flowers in May. Greatly prized for cutting, on stems about 14 to 18 inches high. Same culture as for Narcissi.

### Gravetye

Six \$1.10, Doz. \$1.85, 100 \$12.00

This large-flowered Snowflake produces in April and May gracefully drooping white bell-like flowers. Does best when growing in a shady situation and should be left alone as much as possible because the flowers become larger when the bulbs are not disturbed. Particularly fine for cutting.

## MERTENSIA VIRGINICA - Virginia Blue Bells

This is indispensable in the garden for color effect; flowers are porcelain-blue; buds pink at opening. The plant grows from 1 to 2 feet high, bearing a panicle of flowers about 1 inch long in short pendent clusters. It is splendid for the open border or for naturalizing along the woodland path. We know of no other spring flower which does so well in deepest shade. It flowers from the time Daffodils are in bloom, continuing while the May-flowering Tulips are at their best. Use this delightful plant in quantities, as it is permanent and so helpful to create beautiful pictures, especially in shady places. (Color illustration, page 20.)

### Choice Selected Roots

Three \$1.15, Doz. \$3.75, 100 \$18.00, 1000 \$165.00

Lachenalia Pendula Superba

## LYCORIS

### Radiata

Six \$1.25, Doz. \$2.30, 100 \$15.00

From 10 to 20 flowers are borne on slender scapes 1 to 1 1/2 feet high in early autumn. They are bright crimson in color, about 1 1/2 inches across; the sickle-shaped segments being scarcely crisped; filaments are bright red. The leaves appear after the flowers. They are easily grown indoors, in the North, but in the South may be grown outdoors in ordinary good garden soil.

P.S.—Lycoris Radiata is generally misnamed Nerine Sarniensis.

## MORAEA

An interesting group most of which are natives of South Africa, many being new to cultivation. Some are useful for cutting, others for the perennial garden and others still for pot culture and rock gardens. All listed below flower in spring. They show a wide range of colors and vary in height from 6 inches to 3 feet. On most of them the foliage is not important. Same culture as for Freesias.

### Glaucopis (Iris pavonia)

Six \$1.25, Doz. \$2.30, 100 \$15.00

Often called Peacock Iris. Flowers white or light blue with peacock eye at base of outer segments. Stems 10 to 15 inches high. Excellent for cutting, forcing, rock gardens and pots.

### Polystachya

Six \$1.25, Doz. \$2.30, 100 \$15.00

Slender plant 18 to 24 inches high with many wiry branches. Well covered with flowers looking at a distance like a close group of butterflies. The outer segments of the flowers are light mauve, penciled with parma violet, with a bright yellow spot at the base, inner segments light mauve with little penciling. Starts flowering six weeks after planting and keeps on three to four months. Corms can be had in cold place at 40 degrees to make successive plantings over a long period.

## MUSCARI - Grape Hyacinths

Muscari are charming spring flowering subjects. They can grow under trees and shrubs and also do well in full sun in the border or at a sunny spot of the rockery, without any special attention. They are best planted immediately on receipt and can remain undisturbed for years. They are absolutely hardy and some varieties are delicately fragrant. Botryoides, Azureum and Armeniacum are beautiful when forced in the house, same culture as Freesias; while Plumosum is always a source of great interest. All are about five inches high. Owing to war, Botryoides and Azureum not available this year.

### Armeniacum (Heavenly Blue)

Doz. \$1.20, 100 \$8.00

Deep cobalt-blue flowers, producing many spikes with large flowers. Wonderfully fragrant. While there are several kinds of Muscari, we consider this variety the best for mass planting. Their flowers open just about the time that the Crocuses are going. They do well in the wild garden and also in grass not too rank. They are nice under trees and along borders where they may be left undisturbed. (Color illustration, page 20.)

## NERINES

For autumn flowering particularly in a cool greenhouse or living room window, few plants can compare with Nerines for their brilliant and attractive colors. The flowers are produced on umbels of 6 to 24 blooms on stiff stems about 1 foot high. They remain in bloom for many weeks and the bulbs may be used over and over again. In southern gardens they are easily grown outdoors with little or no protection or much care.

### Bowdeni

Each 85c, Three \$2.50, Doz. \$8.50, 100 \$60.00

Large umbels of pink flowers 3 to 4 inches across. This is one of the best and easiest to grow. Is quite hardy in the South and does well outside as well as making a fine flower indoors.

**Note:** Do not confuse the true Nerine Bowdeni with what are generally called Nerine (Sarniensis) in America. What is grown here mostly under the name Nerine Sarniensis is Lycoris Radiata.

### Leucojum Gravetye

[21]

## ORNITHOGALUM

### Arabicum (Star of Bethlehem)

*Six 95c, Doz. \$1.50, 100 \$10.00*  
Makes a large umbel of small white flowers with black base, produced on a tall spike. Hardy and very prolific in the extreme South but must be protected or forced in the North.

### Aureum

*Six \$1.00, Doz. \$1.60, 100 \$10.50*  
It is a splendid pot plant for growing indoors during the winter months, carrying its large, cupped, brilliant gold flowers in clusters supported on stems 12 inches high. Requires a cool, well lighted position and a pot or pan of it gives a magnificent long-lasting effect. Flowers last three to four weeks.

### Thysoides flore-pleno

*Six 95c, Doz. \$1.50, 100 \$10.00*  
The double form we now offer is much more desirable than the single-flowered variety. The fine double white flowers remind one of the Pearl Tuberose, lasting weeks on end. Fine cut flower, 24 to 36 inches.

## OXALIS

Suitable for pots or hanging baskets for winter flowering. Very easily grown in the house. Their clover-shaped leaves are most attractive as well as the small cuplike blooms. They are excellent inexpensive small plants for decorating the home and growing on window sills.

### Grand Duchess. Lavender.

*Doz. 75c, 100 \$4.75*

### Bermuda Buttercup. Yellow.

*Doz. 75c, 100 \$4.75*

### Hirta. Lovely pink variety.

*Doz. 75c, 100 \$4.75*

## RANUNCULUS

Their brilliant lovely globular-shaped flowers are splendid cut flowers and lovely at all times. May be left undisturbed for many years. In the North, bulbs may be planted in April and May outdoors and will bloom in July and should be taken up for winter and stored dry until the following season.

### New Giant Claremont Hybrids

*Six 95c, Doz. \$1.50, 100 \$10.00*

This new giant Ranunculus is far ahead of the common types. The perfectly double flowers are produced on tall, stout stems and appear in every conceivable shade of color. The blooms are many times larger. The color range is exquisite and the long stems make them superb for cutting. (Color illustration, page 19.)

## SCILLA HISPANICA (Campanulata)

### (Wood Hyacinths)

English Blue Bells are very effective in flower and shrubbery borders, and most valuable for wild gardens and woodlands, where they should be largely naturalized. Wood Hyacinths may be planted in bare shady places and odd corners which often have a desert-like appearance and can thus be rendered bright and cheerful. They will also thrive under Fir and Pine trees, where few other plants will grow.

### Mixed Varieties and Shades

*Six \$1.25, Doz. \$2.30, 100 \$15.00*

This mixture is made from a dozen of the best named varieties. It is blended so that the various blue shades predominate. Pink and white has been added in just the right proportions to provide a pleasant contrast. You will like this mixture for planting in woods, under shrubs, or other shady places where it is difficult to grow flowers. These Scillas are also very nice for cutting, lasting well in water. (Color illustration, page 19.)

Veltheimia Viridifolia

Lycoris Radiata

Sternbergia Lutea Major

## SPARAXIS

### Finest Mixed

*Six 60c, Doz. 95c, 100 \$6.25*  
Delightful spring blooming Cape bulbs of the Ixia group, their beautiful flowers being borne on graceful spikes about 6 to 8 inches high and the colors of the brightest and all shades. They are tigereed, blotched, spotted, streaked and flushed, a complete riot of color. They are also excellent for conservatory and indoor treatment. For the southern rock garden they are indispensable. Protect in cold climates.

## STERNBERGIA

### Lutea major

*Three \$1.35, Doz. \$5.00, 100 \$35.00*  
A very effective autumn-flowering bulbous plant producing Crocus-like flowers of a rich golden yellow. The bulbs make a charming decoration if planted in bowls or pots and flower a few weeks after planting. Out-of-doors the Sternbergia likes a warm, well drained situation on banks or borders, where it should be left undisturbed. The bulbs should be planted 9 inches deep, and in cold districts a covering of dry litter should be given in winter. Fine for the rock garden.

## TRILLIUM - American Wood-lily or Wake Robin

Spring-flowering perennials with three leaves borne in a whorl, and flowers with three petal-like segments.

**Culture:** The Trilliums require to be grown in peat and leaf mold in shade or partial shade. Plant in autumn or very early spring, 3 inches apart, in large colonies to produce the best effect.

### Grandiflorum

*Six \$1.25, Doz. \$2.30, 100 \$15.00*

Excellent plants for shady positions in the hardy border, or in a sub-aquatic position. Large, pure white flowers in early spring. 12 to 18 inches high.

## TRITELEIA - Milla

### Uniflora violacea

*Six 60c, Doz. 95c, 100 \$6.25*

A rootlike bulb which produces in early spring a pale violet-blue flower with white center. Somewhat resembles the Chionodoxa, is delightfully fragrant. They spread and multiply with amazing rapidity and are excellent in the rockery or under shrubs or trees where nothing else will grow. They are hardy, but like a little protection. About 3 inches high. (Color illustration, page 20.)

## TRITONIA

### Crocata

*Six 60c, Doz. 95c, 100 \$6.25*

This interesting bulbous plant is commonly known as the Orange Ixia, which it resembles. It is very floriferous; forces easily and produces lovely orange flowers. Give it the same treatment as Freesias and you will enjoy it very much. Height about 10 inches. Lovely in the rockery in southern gardens.

## VELTHEIMIA

### Viridifolia

*Each 75c, Three \$2.15, Doz. \$7.50, 100 \$55.00*

Handsome Cape bulb. Forty to sixty reddish, tubular flowers 1 1/2 inches long, hanging closely from the tip of a stem 15 to 18 inches tall, rising from the center of a rosette of showy bright green, shiny leaves 9 to 12 inches long with wavy edges. Its bold habit and beautiful foliage make it especially useful as a pot plant. Excellent in garden in mild climates and easy to grow under glass. Blooms in midwinter.

## ZEPHYRANTHES

### Robustus

*Six 95c, Doz. \$1.50, 100 \$10.00*

Large, bright pink flowers appearing in late summer on 6- to 8-inch stems. Foliage during winter and spring. The flowers are large enough and stems long enough to be very useful for cutting. Its adaptability to culture in pots, rock gardens and borders makes it a very useful member of a well known group.

# Wayside Plant Food Produces Strength and Color

## Food for Thought as Well as for Your Flowers

Why treat your flowers in a way you would openly resent if done to you? You wouldn't put up with any old food that comes along, so to speak. For your children, you are no end fussy about being sure of their having enough, and the right vitamins. You are particular about a balanced diet.

Plants, anything that grows in the soil, are exactly the same in their food needs as humans.

There are plenty of the "shot-in-the-arm" kinds of ready mixed fertilizers. But, they are mostly only stimulants.

What your plants need is a balanced organic food. Not just a stimulant.

They need one containing in right amounts, those things that make plenty of strong roots; produce good, sturdy stalks, thrifty foliage and an abundance of good sized blooms.

That's exactly the kind of Plant Food we use at Wayside. Much of our success in growing such unfailingly fine plants is due to it.

### The World's Finest Plant Food

*So declared by experts. For Bulbs, Lawns, Flower Gardens. Used exclusively at WAYSIDE in the production of millions of fine plants. It is whole-heartedly endorsed for our customers.*

#### Beauty — Strong Roots

Thousands of customers and strangers alike have visited WAYSIDE GARDENS. They have marvelled at our 600 miles of plants. They have been known to actually gasp for breath at the sheer beauty of 400 acres of flowers brought to such a high degree of perfection. Invariably, they ask us the same question.

"To what do you attribute the superior qualities of your flowers?"

And invariably our answer is the same: "The chief reason for the high quality of WAYSIDE products is due to the fact that we use only the very finest Plant Food that skill and money can produce."

You will agree that we have entirely too much at stake to afford to use any other kind. In addition to the enormous investment represented by our nurseries, we have a reputation to maintain among thousands of the most critical floral customers in the land. We prize and guard very jealously such possession . . . Contented only with the best we advise our customers to adopt the same attitude, in order that the fine specimens grown at WAYSIDE may be duplicated in your own gardens. We recommend only that which we ourselves use.

#### We Learn from an English Gardener

We are indebted to a noted English gardener for the Exclusive Plant Food we use in growing millions of plants of superior quality. Among other things, he said:

*"A lawn should not be treated like a hayfield, but like a permanent garden. Therefore, I object to chemical fertilizers for lawns. It is not the QUANTITY of grass cut from the lawn each week, but the DENSITY AND LUXURIANCE OF THE GRASS which produces the effect of walking over a thick velvet carpet that counts. If you want a thick lawn in which there is no room for weeds, it is essential that you use a properly balanced ORGANIC Plant Food—one that sinks deeply into the soil for the grass or plant roots to go after. That is where the moisture is, and you will find it unnecessary to water so much in summer."*

#### How to Use Wayside Plant Food

Nor do we need to use much of it to obtain the lasting magical results it produces. Furthermore, it is easy to use and apply it. If your garden is an established one, apply twice a year, March first and October first. **Use 15 to 25 pounds for top dressing a space 500 square feet for Hardy Plants, Rock Plants, Roses, Annuals, and other Flowering Plants, Shrubs, and**

**Bulbs.** In making a new garden, double the amount and mix with the soil. Planting may be done at once. No burning is possible. For old lawns, use 10 to 25 pounds for top dressing 500 square feet. For potted plants, a 3-inch potful mixed with a bushel of soil will give you splendid results.

#### Wayside Gardens Plant Food Contains No Useless Weight, or Bulk Producing Fillers

A 100-lb. bag for \$7.00; 500 lbs. for \$25.00; 2000 lbs. for \$90.00

The above prices include free delivery by freight east of the Mississippi. Detailed instructions with every shipment.

*This Plant Food may only be obtained direct from WAYSIDE GARDENS. The best proof of its superior qualities is that it is used in enormous quantities right here at WAYSIDE. Knowing its value and importance in your garden, we feel no hesitancy in urging you to include some of it in your order for plants.*

#### USE WAYSIDE PLANT FOOD in the Autumn

Although many garden lovers do their fertilizing in the spring, the fertilizers are of a quality that obtain quick results but not lasting ones . . . WAYSIDE GARDENS Plant Food enables you to apply it to your ground in the late autumn, just before the beginning of snow and cold weather.

Its high quality is such that it disintegrates very slowly. It remains highly fertile, penetrating into the soil through the winter months, reaching the root level of the plants when spring breaks through again.

#### Ideal for Rose Beds and Bulb Plantings

Also it is excellent for spading into the Rose bed when you are preparing the Rose bed for winter . . . Use it generously in your bulb plantings and in any hardy flower border.

In late summer and autumn your soil is in better condition than in early spring. By working and preparing it prior to the approach of winter, you will have more leisure to enjoy its greater beauty—the satisfying rewards of your efforts—when Nature reanimates your bulbs and Roses next spring.

# Hardy Lilies for General Garden Use

Lilies, unlike *Narcissus* bulbs, are not all grown in one locality under one and the same conditions, but are gathered together from many foreign countries. All ripen at different times of the year; therefore, orders for Lilies cannot always be filled at one time. The requirements of Lilies vary with each variety. We have a booklet on their culture, which will be sent to you upon receipt of 25c. Because of the lack of knowledge and the carelessness of many planters, we do not guarantee Lilies to grow. We do, however, guarantee to supply you bulbs in good condition and will replace without charge any damaged bulbs, immediately upon hearing from you.

## Canadense

Each 30c, Three 85c, Doz. \$3.00, 100 \$20.00

Broad, funnel-shaped, drooping flowers, varying from yellow to orange; spotted inside; graceful and pretty. Fine among Azaleas, in damp peat beds, or leaf mold. Excellent for naturalizing. June-July flowering.

## Canadense flavidum

Each 35c, Three 95c, Doz. \$3.50, 100 \$24.00

Broad, funnel-shaped, drooping flowers on longish stalks about 3 feet high. Almost bell-shaped with ends of the petals only very slightly turned back. Golden yellow, handsomely spotted inside. June-July flowering.

## Davidi

Each 60c, Three \$1.60, Doz. \$5.75, 100 \$40.00

A fine Lily from Western China, very graceful, with a tall, slender stem, strong and erect, and bearing up to twenty or more bright cinnabar-red tiger-like flowers, copiously spotted with glossy black. It combines a very refined and elegant appearance with a splendid constitution and is one of the best summer-flowering Lilies we have. Height 5 to 7 feet. Plant in either a sunny or partially shaded position.

## Kelloggi

Each \$1.20, Three \$3.50, Doz. \$12.00, 100 \$85.00

A rare and beautiful Lily, growing 2 to 3 feet high, bearing closely recurved "pink" flowers like those of the "Turk's Cap" Lily. Very graceful and fragrant. It succeeds best where the roots are shaded.

Lilium, Maxwill Hybrid

## Maxwill (Hybrid)

Each 60c, Three \$1.60, Doz. \$5.75, 100 \$40.00

A new hybrid, being a cross between *Lilium Leichtlini* var. *Maximowiczi* X *Lilium Willmottiae*. In its general habit and pyramidal inflorescence this hybrid is similar to *Lilium Willmottiae*, but the blooms are lighter in color, the stamens are longer and the anthers are orange-red. The spike is tall and very strong, but gracefully slender, bearing as many as 30 or more large recurving flowers. Height 6 to 7 feet. Comes into flower in late July. A splendid Lily acclaimed by Lily specialists the world over. Free flowering and remarkably free from the ordinary Lily diseases. Of easy culture.

## Philadelphicum

Each 50c, Three \$1.35, Doz. \$5.00, 100 \$35.00

A handsome native Lily with yellow, cup-shaped flowers, spotted maroon and shaded orange at ends of petals. Good for naturalizing. July. Height 3 feet.

## Superbum

Each 45c, Three \$1.25, Doz. \$4.50, 100 \$30.00

The color in this desirable Lily varies from pale yellow to deep crimson, more or less spotted on the inner surface of the petals. Fine established specimens often reach a height of 10 feet and more, bearing from 20 to 30 elegantly reflexed flowers, arranged in large, conelike clusters. Does well in ordinary garden soil. July flowering.

## Tigrinum splendens

Each 50c, Three \$1.35, Doz. \$5.00, 100 \$35.00

The finest form of Tiger Lily with the richest color. The large, shapely flowers are of a rich dark salmon-orange spotted with glossy black. Very robust in habit and of easy culture. August-September flowering.

## Tigrinum flore-pleno

Each 60c, Three \$1.60, Doz. \$5.75, 100 \$40.00

The double form. The best example of a double Lily we have.

## Umbellatum grandiflorum

Each 55c, Three \$1.50, Doz. \$5.50, 100 \$37.50

A very free flowering Lily of easy culture. Carries large umbellate heads of light orange-red flowers.

## Willmottiae

Each 55c, Three \$1.50, Doz. \$5.50, 100 \$37.50

A tall, graceful Lily with slender foliage. Produces 15 to 20 flowers of a vivid orange-red, with recurved petals and numerous small brown spots. A very lovely variety adapted for the garden but will need staking. July and August. 4 to 5 feet. Largest bulbs.

## MISS PRESTON'S HYBRID LILIES FROM CANADA

We are indebted to Miss Isabelle Preston, expert in Ornamental Horticulture at the Central Experimental Farm, Ottawa, Ontario, for several of the finest hybrid Lilies in cultivation. Exceptionally outstanding are those resulting from crossing *Lilium Willmottiae* with a *Lilium Dauricum* Seedling. They are vigorous and hardy, with strong, upright stems, luxuriant foliage and large brilliantly colored flowers, reflexed and facing outwards.

### Brenda Watts

Each 90c, Doz. \$9.00

A very vigorous and handsome plant, growing to a height of 4 to 5 feet. Large, firm textured flowers of fire-red, dotted purple-black towards the center. Very showy and attractive. June to July flowering. Plant 6 to 8 inches deep. All of this group prefer low growing shrubs or perennials as ground cover, with their heads in full sun.

### Grace Marshall

Each 90c, Doz. \$9.00

The result of crossing *Lilium Willmottiae*, and a seedling of *Lilium Dauricum*. Height up to 5 feet. A strong and vigorous grower, very floriferous, with as many as 30 large blooms carried on one plant when established. The color is between a grenadine-red and scarlet with brown spots which extend to within an inch of the tips of the broader segments and becoming more numerous towards the center. The outside of the petals is brownish in appearance. The crimson shadings in the center of the flower with grayish "fuzz" give this flower a very unusual appearance. June flowering.

## FOOD FOR THOUGHT

### As Well as for Your Flowers

Plants and bulbs, anything that grows in the soil, are exactly the same in their food needs as humans. There are plenty of what might be called the shot-in-the-arm kinds of ready mixed fertilizers, but they are mostly only stimulants.

What your plants and bulbs need is a balanced organic food. Not just a stimulant. They need one containing in right amounts, those things that make plenty of strong roots, produce sturdy stalks, thrifty foliage and an abundance of good sized blooms.

That's exactly the kind of Plant Food we use at Wayside. Much of our success in growing such unfailingly fine plants is due to it.

What it has done, and is doing for our 600 miles of plants, it will do for your garden.

Turn to page 23, and get the full facts about it.

Havemeyer Hybrid Lilies

## Hybrid Auratum Lilies

One of the outstanding introductions for the autumn of 1945 is the Hybrid Lily Auratum. Blooms of Auratum Lily bulbs formerly imported from Japan showed considerable variation.

Seed saved from these varying forms and grown in this country, produced bulbs which are not only free from Lily disease but produce flowers of astounding beauty and great variations. In fact, many are so different and beautiful as to defy comparison to the Auratum Lily we are familiar with. If you have grown and known the Auratum Lily you will be astounded to see the great beauty of the Hybrid Auratum. The bulbs offered are healthy and have already bloomed in the nursery. These require no more care than any other Lily and will give you many years of enjoyment.

Each \$2.00, Three \$5.50, Six \$10.00, Twelve \$18.00

### HYBRID AURATUM LILY SEED

If you want to try your own hand at growing Auratum Lily bulbs from seed, we suggest you buy one or more packets of Hybrid Auratum Lily seed. Complete growing instructions in each packet. The seed offered is hand pollinated and will grow the most beautiful of Lilies.

Per packet containing about 105 seeds, \$3.00

## Lilium Havemeyer Hybrids

These beautiful Hybrids are raised from seed taken from Lilium Theodore Havemeyer. They closely resemble the parent variety but vary slightly in color and form. We therefore offer them as Havemeyer Hybrids. A group of six or more of them in the border will provide many lovely flowers in unusual shades of cadmium, burnt orange, pale yellow, and light buff. They grow freely and can be easily increased by seeding. Only a limited number of these magnificent Lilies are offered, and we predict they will be as important as the Regal Lilies in the very near future. We offer for this spring a limited number of flowering bulbs about 6 inches in circumference at—

Each \$1.10, Three \$3.20, Doz. \$11.00

### Healthy, American-Grown

## Auratum Lilies

(Gold-Banded Lily)

We take pleasure in offering a fine healthy lot of American-grown bulbs from seed. The bulbs we offer have bloomed in the nursery and are definitely superior to the imported stock. While the bulbs are not as large, they produce an unusual amount of giant flowers and the plants are healthy and vigorous. We supply them with their roots intact. They continue making roots immediately after planting. The bulbs are sent to you in November, and cannot be furnished at any other time.

### Auratum (Gold-Banded Lily)

Undoubtedly one of the finest. Its large, graceful, fragrant flowers are composed of six petals of a delicate ivory-white color, thickly studded with chocolate-crimson spots and striped through the center a golden yellow. 3 to 5 feet. July to September.

Clean bulbs, 5 to 6 inches

Clean bulbs, 6 to 7 inches

Each 60c, Three \$1.60, Doz. \$5.75

Each 75c, Three \$2.15, Doz. \$7.50

Lilium Auratum

## *Lilium Candidum*

The Madonna Lily is one of the loveliest of white Lilies, popular throughout the world, loved and admired by all. Its delightful fragrance and lovely white flowers have made it a universal symbol of purity. Plant it in groups of three or more bulbs, close to the pale blue Delphinium Belladonna. It will be the loveliest spot in your garden during late June and early July. Madonna Lilies are simple to grow if you will plant in full sun and perfectly drained soil.

Madonna Lilies will be very scarce because importation from France is impossible. Therefore, order your supply **at once** and mix through the planting of Madonna Lilies a few of the magnificent *Centifolium* Lily, offered on page 28.

First size bulbs.

Top size bulbs.

Each 60c, Three \$1.60, Doz. \$5.75, 100 \$40.00

Each 75c, Three \$2.15, Doz. \$7.50, 100 \$55.00

*Lilium Candidum*

### *Tenuifolium*

Each 40c, Three \$1.10, Doz. \$4.00, 100 \$25.00

A charming little early flowering Lily with strongly recurved petals of waxy texture; deep scarlet. A gem in the rock garden as in the border. Likes a cool, damp, loamy soil and partial shade, but does well anywhere in well drained soil.

### *Tenuifolium, Golden Gleam*

Each 45c, Three \$1.25,  
Doz. \$4.50, 100 \$30.00

A beautiful, robust and floriferous hybrid of this type, bearing numerous flowers of a pure apricot-yellow. June flowering.

"Western Sunset"  
Lily

*Lilium  
Tenuifolium*

## "Western Sunset" Lily

This brilliant Lily is of easiest culture; in fact, it's "fool-proof." It is vigorous, dependable, very hardy, and multiplies rapidly. It does equally well in full sun or shade. They reach a height of five to six feet. Stems are stout and require no staking. A clump of six or a dozen when in bloom makes a brilliant picture in any garden. Each stem is topped with a dozen or more beautiful flowers in July. The petals are somewhat recurving and a brilliant sunset-red, while the base of the bloom is yellow, beautifully marked with amber-brown dots.

Each 40c, Three \$1.10, Doz. \$4.00, 100 \$25.00

## *Lilium Umbellatum Hybrids*

These Hybrids are very interesting as they provide a new and wide range of color in one of the stoutest and strongest of Lilies. Hybrid Umbellatums establish readily and multiply freely, have great clusters of upright growing flowers which vary in color from pale yellow to deep yellow, amber, copper to flaming Indian red. They grow about 24 to 30 inches tall on stiff stems. They are particularly effective planted between clumps of Iris, do well in light shade and full sun. You certainly will not be disappointed in the way they grow and bloom.

Three \$2.15, Doz. \$7.50, 100 \$55.00

*Lilium Umbellatum*

*Lilium Philippinense*

## *Lilium Philippinense*

Each 60c, Three \$1.60,  
Doz. \$5.75, 100 \$40.00

The substantial blooms are trumpet-like; in fact, they are long, lovely white flowers with a beautiful pale emerald-green throat which gives the flower a distinct and delicate appearance. They commence blooming in early August, and flower until stopped by frost. Bulbs, when established, will produce 3 to 4 spikes each with 4 or 5 blooms. It is a most liberal flowering Lily, to all of which may be added that they are among the easiest grown. Height 4 to 6 feet.

*Lilium Shuksan*

## *Lilium Shuksan*

A new Hybrid Lily with a great future. Also a fine bill of health. Through careful cultivation a very high state of health has been maintained and we have never seen any bulbs infected with mosaic; that fatal disease some Lilies are subject to. Shuksan is a very vigorous grower, 5 to 6 feet tall and produces its flowers in open heads, 15 to 25 flowers on one plant is not unusual. The color is a soft buff-yellow broken by large, quite widely spaced, soft brown spots. At opening, the flowers are starlike. The petals reflex and roll back when in full bloom. Flowers last a week when cut.

Each 80c, Three \$2.25, Doz. \$8.00

# *Lilium Centifolium* Wayside Hybrids

These magnificent hybrids are the result of crossing *Lilium Leucanthum* variety *Chloraster* with *Lilium Sargentae* and again with *Lilium Regale*. The flowers are immense white trumpets borne on stems rising 6 to 8 feet in height, resembling greatly enlarged and improved Regale Lilies. Delightfully fragrant and superbly showy. While all are white inside the external coloring varies from emerald-green through tints of pink to brownish purple, each and every one with growing and adding interest. The name (Centi-folium, hundred leaved) is suggestive of its abundant foliage. We are very pleased to be finally able to offer these gorgeous hybrid Lilies and believe them to be an exceptional addition to any Lily collection. Fortunately, they are hardy and of simplest culture, growing even more luxuriantly than the Regale Lily. Plant in light shade 5 inches deep in soil perfectly drained. Give slight protection in coldest part of the country. They flower in July and August after the Regales have passed. Delivery in October.

No. 1 strong flowering bulbs, 5 to 6 inch circum.  
Each 50c, Three \$1.35, Doz. \$5.00, 100 \$35.00

Top size strong flowering bulbs, 6 to 7 inch circum.  
Each 60c, Three \$1.60, Doz. \$5.75, 100 \$40.00

Mammoth size strong flowering bulbs, 7 to 8 inch circum.  
Each 75c, Three \$2.15, Doz. \$7.50, 100 \$55.00

Order promptly. Supply decidedly limited.

## Bellingham Hybrid Lilies

## Bellingham Hybrid Lilies

The first Bellingham Hybrid Lilies were raised and improved by the late Dr. Griffiths, expert on bulbs at the United States Department of Agriculture Bulb Station at Bellingham, Washington. As long ago as 1919 a beginning was made by Dr. Griffiths to improve these fine hybrids and since that time they have been steadily improved by re-selection.

It is now our pleasure to introduce them and we feel certain that the Bellingham Hybrid Lilies will from now on be a permanent and important feature in American gardens.

They are robust plants, growing about 4 to 5 feet high; stems are stiff and require no staking. The foliage is good and flowers grow in pyramidal clusters of 20 to 30 blooms. The blooms are Turk's-cap-shaped, sharply reflexing petals in some, others not. The colors range from soft yellow, buff-terra cotta, through shades of copper and orange to red, distinctly spotted with dark red or soft brown spots. Some flowers resemble orchids in their markings.

As usual, nice things come in small packages; the supply is yet limited; therefore, order promptly. A-No. 1 flowering bulbs are offered as follows:

Three \$2.25, Six \$4.25, Twelve \$8.00, 100 \$57.50

**Lilium Testaceum**

## *Lilium Testaceum*

Also known as "Excelsum" and as the "Nankeen Lily." One of the choicest garden Lilies. The warm apricot tone, almost a cafe au lait, set off by brilliant orange anthers, puts it in a color class by itself; in fact, many people consider it the most graceful and lovely of all Lilies. It is beautiful for every kind of garden use but because of its tender coloring, must be planted in a mixed border with brighter flowers. In combination with light shaded Delphiniums or with the Madonna Lily, which it resembles, it is most effective. It has the texture of *Lilium Candidum*, with reflexed petals, and does well under the same conditions as *Candidum*. Four to five feet high. June-July flowering.

Top size bulbs  
Fine first size bulbs

Each \$1.85, Three \$5.25, Doz. \$20.00  
Each \$1.60, Three \$4.50, Doz. \$17.00

## *Lilium Regale*

(The Regal Lily)

One of the most beautiful and one of the hardiest Lilies in cultivation—"Lilium Regale" is truly a Royal Lily; worthy of a place in every garden; it is a lover of loam and sunshine. A vigorous grower with sturdy stems, 4 to 6 feet high, densely covered with fine foliage. Center of flower flushed with yellow shading to white at outer edges; externally the flowers are streaked with brown on the "ribs," shaded through the almost translucent petals with a delightful pearly tint; the contrast between the color of the reverse of the petals and the gold shading of the throat is extraordinarily beautiful. The Regal Lily is very floriferous and when thoroughly established, bears as high as 18 to 20 flowers.

Flowering bulbs, 6-7 inches. Each 45c, Three \$1.25, Doz. \$4.50, 100 \$30.00  
Flowering bulbs, 7-8 inches. Each 50c, Three \$1.35, Doz. \$5.00, 100 \$35.00  
Flowering bulbs, 8-9 inches. Each 60c, Three \$1.60, Doz. \$5.75, 100 \$40.00  
Flowering bulbs, 9 inches up. Each 75c, Three \$2.15, Doz. \$7.50, 100 \$55.00

**Lilium Regale—The Queen of Lilies**

## *Lilies for Indoor Growing*

These are usually grown for specimens in pots for exhibition and decoration.

The short time required to bring these peerless Lilies into flower renders them invaluable. The flowers are delightfully fragrant, pure waxy white, and if cut when partially open can be kept for two weeks, if desired. A succession of bloom can be kept throughout the winter by bringing a few pots of bulbs from cold frames at intervals. Blooming plants in pots are suitable for Easter offerings and presents. Bulbs ready for shipment—August to December.

**Longiflorum, Crofti** (Oregon-Grown Easter Lily) (Croft Lily)

This is the most popular kind to grow as pot plants for decoration and equally as valuable for cutting.

No. 1 bulbs, 6 to 7 inch circum.

Each 60c, Three \$1.60, Doz. \$5.75, 100 \$40.00

Mammoth bulbs, 8 to 9 inch circum.

Each 75c, Three \$2.15, Doz. \$7.50, 100 \$55.00

**Longiflorum Harrisii** (Bermuda Easter Lily)

This is the common Easter Lily for decoration and equally as valuable for cutting. Bulbs should produce from 8 to 12 flowers.

Extra bulbs, 7 to 9 inch circum.

Each 75c, Three \$2.15, Doz. \$7.50, 100 \$55.00

Mammoth bulbs, 8 to 10 inch circum.

Each \$1.10, Three \$3.20, Doz. \$11.00, 100 \$75.00

Planting times of Lilies differ so we ship your bulbs to reach you at the right moment for immediate planting. Like all Wayside Gardens bulbs, they are imported only from preferred growers—and are the professional choice of their stocks, at that. This fact, plus the careful instructions with each shipment, assures you of success with them. But while we guarantee arrival of your bulbs in good condition and will replace damaged bulbs if notified promptly, we do not guarantee they'll bloom because results do depend on a gardener's following instructions exactly.

**Ami Quinard**

Blackish crimson buds; semi-double flowers of maroon-red. Tall, vigorous grower. 15 petals.

**Angels Mateu** (Plant Patent No. 174)

Each \$1.25, Doz. \$12.50  
Orange-rose. The involuntary expression of one visitor, "This is a heavenly Rose!" is true indeed, for it is a ravishingly beautiful flower. Reports coming to us from trials of this Rose are increasingly enthusiastic. Its color is exceptionally attractive; it reminds one of deep coral, or deep old rose flushed with orange. The fragrance is like ripe blackberries. Growth is erect. Foliage is dark green and leathery.

**Apricot Queen** (Patented)

(Award All-America Rose Selection, 1940.) Each \$1.50, Doz. \$15.00  
(Award All-America Rose Selection, 1940.) A lovely combination of colors is to be noted in this glorious new Rose. Orange and apricot at the base of the petals, merging to salmony rose and Phlox-pink in the fully developed bloom is descriptive. The bud is long-pointed. The fully developed flower shows a regular, well placed petal arrangement. A good strong grower, with handsome, leathery foliage which serves as a splendid foil to the perfectly formed buds and open bloom. (Color illustration, page 35.)

**Each \$1.50, Doz. \$15.00**

# Everblooming

Here we list only the very choicest and most popular varieties of Tea Roses, with the majority of which every lover of the Rose is familiar. Duplicates as well as inferior varieties have been discontinued. All are good growers and free flowering and will provide you

**Anzac** (Patented)

Each \$1.50, Doz. \$15.00  
Has all the qualifications of a winner: vigor, ruggedness and dependability. When the season for action arrives, Anzac will go over the top, and wherever established, will hold its ground with the best of Roses in your garden. Anzac, like the Douglas MacArthur, needs no coddling. Give Anzac the ordinary requisites that Roses require: water, nourishing food and a clean soil—and you will be more than gratified with the successful results. Anzac, "The Soldier's Rose," will always do its duty in your garden. The vigorous growth of Anzac foretells the advent of many shapely buds and beautiful flowers. Buds of fifty waxen petals steeped in coral and washed with gold unfold into perfectly formed Camellia-like flowers. As these flowers expand, the original colors lighten, the golden flush at the base of the petals passes to yellow and the coral changes to rosy lake. The merging of these colors might well be compared with the "rose" in the sky at dawn, just before the sun climbs over the eastern horizon.

**Betty Uprichard**

Each \$1.25, Doz. \$12.50  
One of those delightfully contrastive types; the outside a blend of deep toned carmine with coppery orange, the interior being mostly a delicate salmon-pink.

**Caledonia**

Each \$1.25, Doz. \$12.50  
The most desirable white; exceptionally long-pointed bud opening to a very double, high-centered, long-lasting, very large, moderately fragrant flower. Continuous free bloomer.

**The New All-America Rose**

## Peace

(U. S. Plant Patent No. 591)

This Rose is almost unbelievable. One marvel of it is the dawn-like range of colors through which it passes, from opening yellow buds, with edges picoteed cerise, to the glorious 5-inch, alabaster blooms, each petal edged with pink that seems to deepen as the flower slowly opens. The shades of color vary, too, from flower to flower and through the changing seasons. Though the bloom is unusually large, long lasting and constantly fresh looking, its effect is always delicate and lovely.

The individual petals are large and of great substance, gradually opening, a few at a time, around a high-pointed center, to a great, golden hearted, very double, fully open flower. It has well been called "the most beautiful Rose in the world" by the Duke of Windsor.

The plant is as superior as the bloom, and in the same large-scale way. The flowers are borne singly on heavy stems so strong and straight they are a joy to see, lifting the blooms proudly above vigorous, shining foliage. It needs no disbudding to produce exhibition blooms which hold their form and freshness longer than other Hybrid Teas. The flowers last a long time and they are produced all season in endless succession, through various stages of opening and changing colors: canary-yellow, pale gold, cream, ivory and alabaster; edged cerise, rose or apple-blossom-pink.

M. Meilland, the hybridizer, has given the world many beautiful Roses, yet of this he says: "This is a rare discovery and only takes place once in the career of an originator."

Each \$2.50

# Hybrid Tea Roses

with an ample supply of blooms throughout the summer. There is not one individual sort which we cannot endorse as possessing superior merit. All are two-year-old, XX No. 1 grade. The finest stock obtainable.

## California (Patented)

Each \$1.50, Doz. \$15.00

(Award All-America Rose Selection, 1940.) We regard this sensational novelty as outstanding among the numerous varieties we have contributed to the Rose world through our efforts in plant breeding. The color is a glorious shade of ruddy orange toned with saffron-yellow, with the exterior of the broad petals overlaid with saturn-rose—a dual tone effect of indescribable richness and beauty. Buds long and pointed, flowers of enormous size, reaching a diameter of five to six inches. Growth vigorous, with healthy, glossy green foliage.

## Charlotte Armstrong (Patented)

Each \$1.50, Doz. \$15.00

(Award All-America Rose Selection, 1940.) A Rose of a most unusual color, blood-red in the bud, opening to cerise in hot weather and to spectrum-red in cool weather, while the beautiful shape and extreme length of the buds, with its long clasping sepals and the extreme floriferousness and vigor of growth and large, luxurious foliage, make it a most satisfactory Rose in all respects. The bud is long and pointed; the flower is 3 or 4 inches in diameter, high-centered, never showing the center. The foliage is leathery, semi-glossy, deep green and highly resistant to mildew.

## Christopher Stone

Each \$1.25, Doz. \$12.50

Large, semi-double, vivid scarlet flowers overlaid with velvety crimson. Has a delicious old rose scent. Of vigorous, upright growth with bright green foliage.

## Condesa de Sastago

Each \$1.25, Doz. \$12.50

A splendid double Rose with the vivid colors of the sparkling species Austrian Copper. The buds are golden yellow, beautifully striped with brilliant capucine-red. The open, spicy scented blooms are of similar color. Strong grower and a perfect beauty.

## Countess Vandal (Plant Patent No. 38)

Each \$1.50, Doz. \$15.00

Long, pointed, orange-copper buds. The flowers are large, double, high-centered, and have a rich fragrance. Their color is brilliant pink lightened with salmon. The blooms are borne on long stems.

## Crimson Glory (Plant Patent No. 150)

Each \$1.50, Doz. \$15.00

The plants branch freely, producing a well spread yet compact bush of good symmetry. Following the large, urn-shaped buds are the well formed flowers of an intense deep vivid crimson shaded oxblood-red and mellowed by a soft velvety nap.

## Dame Edith Helen

Sold out for this season

Shapeless buds and substantial, high-centered blooms of clear pink, sweetly scented and freely produced on long, strong stems. Vigorous. Most remarkable for the number and beautiful arrangement of its petals.

Crimson Glory

## Douglas MacArthur

"The Commander's Rose" (Patented)

A grand new Rose has come into being—a very vigorous, hardy, free blooming Rose. The name was not chosen at random. The new variety "Douglas MacArthur" was chosen among many new Roses as an outstanding leader. Henceforth, this fine new variety shall be known as the "Douglas MacArthur Rose," in honor of our leading American soldier.

This vigorous American Rose requires no coddling, asks no favors. It has grown well and proven its value and worth in all sections of our country.

The strong bushes send up numerous shoots clothed with dark green, healthy foliage. As a flag unfurls, the long, graceful, Tulip-shaped buds open slowly into glorious flowers of fine proportion.

To specify the color of this Rose in definite terms taken from color charts is impossible. Rose, gold and salmon are all exquisitely blended into a flower of regal beauty.

When you pass in review of the Douglas MacArthur Roses in bloom in your garden and catch the beauty of their unfurling buds, you will surely snap to attention and give Douglas MacArthur a most merited salute.

Each \$2.00, Doz. \$20.00

**Duquesa de Penaranda**

Each \$1.25, Doz. \$12.50  
This glorious Rose produces two distinct types of flowers. During the summer the pointed buds are a blend of apricot-orange and dark pink, opening to splendid blooms of coppery apricot. In the autumn great brownish buds open slowly to finely formed flowers of a luscious cinnamon-peach color, truly enchanting to visitors to our gardens who delight in the new art shades. It is sweetly perfumed and one of the loveliest Roses for cutting.

**Edel**

*Sold out for this season*  
An enormous bold, stately, well built flower of great quality and finish. Color white with faintest ivory shading towards the base, passing to a pure white. A fine grower with uniform, stout habit.

**Eclipse (Plant Patent No. 172)**

Each \$1.50, Doz. \$15.00  
Golden yellow. An entirely new type, with "stream-lined" buds which often exceed 2 inches in length, ornamented with narrow, branching sepals which contrast harmoniously with the gold of the petals. You can depend on "Eclipse" for almost continuous bloom on strong, upright plants with healthy, dark green foliage. The flowers are produced on long, erect stems, suitable for cutting.

**Edith Nellie Perkins**

Each \$1.25, Doz. \$12.50  
A Rose of outstanding merit, vigorous growth and free flowering. Long, pointed bud; flower of good size, long lasting and fragrant, double; outside of petals Orient-red shaded cerise-orange; inside salmon-pink.

**E. G. Hill**

*Sold out for this season*  
Beautiful long bud of perfect form and full double, high-centered flower of dazzling scarlet, shading to a deeper red as it develops. Strong, vigorous, free-flowering habit.

**Eternal Youth (Plant Patent Applied For)**

*Sold out for this season*  
Its graceful, pointed buds are a clear warm pink, retaining their color in all stages. There is a livening touch of yellow at the base of each petal which suffuses softly throughout, eliminating the less attractive tones so common in pink Roses. The foliage is disease-resistant. It has an interesting fragrance reminiscent of the sweetness of the old-fashioned Roses. Instantly appreciated by all who see it. Prolific bloomer.

**Etiole de Hollande**

Each \$1.25, Doz. \$12.50  
Brilliant red blooms of magnificent size, perfect in half-open state, showing clean, attractive centers when fully open; petals enormous; very fragrant. Free flowering.

**Faience**

Each \$1.25, Doz. \$12.50  
Two-tone soft peach and cadmium-yellow. Faience is the name of a famous pottery, noted for its iridescent colors. Exquisite form, from the long, tapering bud to full-petaled, opening bloom. Buds are cadmium-yellow at the base which gradually shades to shrimp-pink at the edges of the petals. As the blooms unfold, the inside of the outer petals is an artistic China-pink, which deepens toward the center of the flower to shining coppery rose. The reverse of the petals is cadmium-yellow lightly veined with pink.

**Gloaming (Plant Patent No. 137)**

Each \$1.50, Doz. \$15.00  
A cut-flower variety which has proved a "winner" wherever grown. Its large buds, carried on long, rigid stems, are amply clothed with handsome foliage. Bloom is of unusual coloring, fawn-orange in the bud, and the large, full blooms are of a peculiar pink overlaid with salmon. The plant is vigorous and branching, fairly tall growing.

**Golden Dawn**

Each \$1.25, Doz. \$12.50  
The ideal yellow garden Rose. The ovoid, lemon-yellow bud, heavily splashed with crimson, develops into a well formed, sweetly scented, large, double sunflower-yellow flower that reminds of the old favorite Marechal Niel. Vigorous, free flowering.

**California (See page 31)****Golden Sastago**

Each \$1.25, Doz. \$12.50  
Like Condesa de Sastago, this is recognized as one of the finest Roses for bedding. Its healthy foliage adds materially to its appearance, the flowers are rich golden yellow and do not fade. Fine in bud and free blooming.

**Golden State (Plant Patent Applied For)**

*Sold out for this season*  
Superior to most other yellow Roses in vigor, erectness of growth, and abundance of bloom. An excellent, continuous blooming garden Rose with a rich clove scent. Its long buds open to glowing hearts of yellow-orange. The flowers are borne singly, sometimes in small clusters on erect stems. Each flower has from 40 to 50 petals which, when they unfold, change to a deep unfading buff veined with salmon. Awarded in 1937 the Gold Medal, Bagatelle, Paris, and chosen the official Rose for the Golden Gate International Exposition, 1939. Has disease-resistant foliage and is fine for cutting.

**Grand Duchess Charlotte (Patented)**

Each \$1.50, Doz. \$15.00  
(Award All-America Rose Selection, 1942.) This Rose aristocrat provides a color unknown in any other Rose. The beautiful, long, streamlined buds are glowing morocco-red and open to 25 firm-petaled blooms of dusky coral-red which do not fade, and gradually merge to a soft coral-pink. When unfolding, the petals recurve and make a delightfully informal, artistic flower with a hint of Carnation fragrance.

**Gruss an Teplitz**

Each \$1.25, Doz. \$12.50  
This is a Rose for everybody, succeeding under the most ordinary conditions. In color it is of the richest scarlet, shading to a velvety crimson; very fragrant, a free, strong grower and in bloom all the time.

**Heart's Desire (Patented)**

Each \$2.00, Doz. \$20.00  
(Award All-America Rose Selection, 1941.) In this new gold medal variety your Heart's Desire for a red Rose bordering on perfection will be attained. Your Heart's Desire for a Rose with that haunting perfume will be fulfilled. Your Heart's Desire for the beautiful in form and texture will be gratified. One day soon after planting the rugged bushes and you are gathering the many long-stemmed buds of perfect form and color from your garden you will exclaim: "Ah! yes this beautiful Rose with its long unfurling petals, deep red heart and exquisite fragrance satisfies my longing for a perfect Rose and fulfills my every HEART'S DESIRE."

**Heinrich Wendland**

*Sold out for this season*  
Reddish copper. Large, very double flowers of reddish copper with an orange flush over all; backs of the petals are rich orange. This brilliant attractive color blends well with the red and yellow Roses. It has a rich, syrupy fragrance. Blooms come singly on strong, upright plants with shiny, leathery foliage.

**Hinrich Gaede**

*Sold out for this season*  
Long, pointed, shapely bud of Nasturtium-red color, large, double, high centered flowers of ideal shape, of a color unusual and unlike any Rose in commerce—a rich luminous vermillion shaded golden yellow such as is found in high colored modern Zinnias. Rich, fruity fragrance. A free and continuous bloomer.

**Poinsettia (See page 34)**

**Horace McFarland***Each \$1.25, Doz. \$12.50*

One of the clearest of pinks. A Rose of sparkle and beauty whose delightful fragrance and cheerful color make it outstanding among all pink Roses. It is perfect in form, admirable for cutting, free blooming, easy to grow. The plants are symmetrical, well proportioned and disease-resistant.

**Joanna Hill***Each \$1.25, Doz. \$12.50*

Invaluable for the garden. The buds are large, long pointed and open to large, full, semi-double, attractive, long-lasting, moderately fragrant flowers of a clear yellow with orange-yellow heart. They are borne singly on long, strong stems; growth vigorous, upright, a profuse bloomer.

**Kaiserin Augusta Victoria***Each \$1.25, Doz. \$12.50*

Soft pearly white, tinted with just enough lemon in the center to relieve the white; remarkably fragrant, beautifully formed flowers on long, graceful stems; a strong, free, healthy grower.

**Katherine T. Marshall***Each \$2.00, Doz. \$20.00*

Appropriately named to honor Mrs. Marshall, wife of America's great General Marshall. A Rose of rare beauty and delicacy of form, growing vigorously with large, open, upright blooms of warm glowing pink. Very hardy. The growth and foliage is equal to the Radiance family. Fruity fragrance, perfect form, and long stems. Color is clean, sparkling, warm pink. Buds are long, pointed, firm, slow opening, deep coral-pink with suffusion of yellow. Blooms are fine, generously full cupped, 5 inches across. Heavy petals resist summer sun. Resistant to heat, rain and disease.

**Lady Alice Stanley***Sold out for this season*

A gem that everyone admires; it is absolutely perfect in every way; form, color, size, freedom of bloom and fragrance are fully developed; in color it is a beautiful shade of coral-rose, the inside of the petals shading to flesh-pink with deeper flushes.

**Lowell Thomas** (Patent No. 595)*Each \$2.00, Doz. \$20.00*

(Award All-America Rose Selection, 1944.) The vibrant chrome-yellow blooms open from beautifully shaped buds. They have high-cupped centers with outward rolling petals, making magnificent glowing flowers over 4 inches across when fully open. The color is penetrating, clear and deep, having a vibrant quality not seen in other Roses of this color. It is a strong grower with good foliage and stiff stems. The finest to date of the deep yellow Roses.

**Margaret McGredy***Each \$1.25, Doz. \$12.50*

Large, ovoid buds and double, cupped flowers of solid orange-vermilion. Very prolific. This extraordinary Rose has been widely discussed and tested in this country and found good.

**Mary Margaret McBride** (Patented)*Each \$1.50, Doz. \$15.00*

(Award All-America Rose Selection, 1942.) A tall, healthy growing plant which blooms quite freely and has all the qualifications of a fine Rose. The attractive, shapely salmon-pink buds open to 5-inch, loose flowers of a delightful shade of salmon-pink. They have about 35 petals. The blooms are mildly fragrant. Award of "All-America Rose Selections" for 1942.

**McGredy's Ivory***Each \$1.25, Doz. \$12.50*

Lovely large flowers of beautiful double form and moderately fragrant. The color is soft delicate creamy white merging into yellow at the base. Vigorous, disease resistant, and a prolific bloomer.

**McGredy's Scarlet***Each \$1.25, Doz. \$12.50*

The fragrant, full double flowers are of a good size. They are brilliant scarlet, orange-yellow at base of petals, the upper portions being lightly touched with crimson, varying some in color under changing weather conditions but always beautiful.

**McGredy's Sunset** (Plant Patent Applied For)*Each \$1.50, Doz. \$15.00*

As glorious as a summer sunset. The petals are a clear Buttercup-yellow, tipped orange on the outside, and chrome-yellow, flushed with scarlet on the inside. As the bloom expands the color is intensified and it is at its best when fully opened. Flowers are of medium size, full and shapely, and for a while the petals remain symmetrically curled like a Camellia. They are freely borne on a magnificent bush with dark green foliage. When cut, its fragrance soon diffuses throughout the room and leaves an unmistakable impression of its freshness. Very sun-resistant. Excellent in hot weather. An outstanding Rose and one much commented on. Certain to please garden lovers everywhere.

**McGredy's Yellow***Each \$1.25, Doz. \$12.50*

Well formed big flowers of bright Buttercup-yellow. The buds are exquisitely formed and leave nothing to be desired. Good strong rugged grower producing flowers freely. One of McGredy's best.

**Mirandy***Each \$2.50, Doz. \$25.00*

(Award All-America Selections, 1945.) The first place winner of the All-America Rose Competition for 1945. A gorgeous fragrant red Rose that takes its place with the finest red Roses of the world. The big, ovoid buds, often long-pointed, are deep, rich, dark red with black shadings, opening to a gorgeous Chrysanthemum-red. The flower displays new beauties of form as the petals unfold and eventually become a large full bloom (50 petals), with excellent lasting qualities. Mirandy has a wonderful, penetrating, damask fragrance which many will say is the finest Rose fragrance they have ever inhaled. The plant is strong, free branching, with heavy stout stems, and keeps producing its glorious flowers freely all season against a background of dark green, heavy-textured foliage. Color illustration, page 34.)

**Miss Rowena Thom***Each \$1.25, Doz. \$12.50*

Enormous buds and blooms of fiery rose and mauve, shaded with old gold at the center, borne on long, strong stems. A profuse continuous bloomer and a very vigorous plant.

**Christopher Stone***(See page 31)*

**Mme. Chiang Kai-shek***We offer fine 2-year-old plants at, Each \$2.00, Doz. \$20.00*

(Awarded All-America Rose Selection, 1943) (Patented)

Competent judges awarded, in the 1943 trials, the highest number of merits to this superb new yellow Rose. This Rose we have named "Mme. Chiang Kai-shek," in honor of the First Lady of China, whose outstanding achievements and lovely character embody humanity's highest ideals. Perfectly chiseled petals clasped in long, spiral buds unfurl slowly, culminating in limpid, light clear canary-yellow flowers of perfect proportions. The rich Rose perfume of this premier yellow Rose is a fragrance retrieved from the past, a haunting scent, recalling the fragrance that hung over China Tea Roses in old and forgotten gardens of long, long ago. The perfect form, delightful perfume, sheer elegance and vigorous growth, combined with those indefinable qualities that breeding alone can convey, truly depict the patrician in "Mme. Chiang Kai-shek," the loveliest of all light yellow Roses.

**Mme. Cochet-Cochet***Each \$1.25, Doz. \$12.50*

Long-pointed buds of coppery pink, flushed orange, open to 4½-inch flowers of splendid form of the same color as the bud, except that the orange softens to gold. When open they disclose a mass of golden stamens. As the flower ages the color changes to a soft satiny pink, with an attractive tinge, but does not lose any of its loveliness and is usually clear and fresh at all times.

**Mme. Henri Guillot** (Patent No. 337)*Each \$1.50, Doz. \$15.00*

This Rose is lovely in both form and color; the large, artistic, urn-shaped buds open to Camellia-like, 20-petaled blooms about 5 inches across, watermelon to raspberry-pink in color. Its popularity is growing from year to year, and justly so, because it is an outstanding variety of great beauty as well as vigor. A gold medal was awarded this variety at Bagatelle, France.

**Mme. Joseph Perraud***Each \$1.25, Doz. \$12.50*

Winner of the Bagatelle Gold Medal, 1934, and awarded the honor at Lyons, France, of being "the most beautiful Rose in France for the year 1934." The long, slender and pointed Nasturtium-orange buds open to sweetly fragrant flowers of a charming Nasturtium-buff straying to a lovely shade of shell-pink at the petal edges—the nearest approach to a pure buff, lightened with pink at the petal margins.

**Mme. Jules Bouche***Each \$1.25, Doz. \$12.50*

While not a pure white, it is to all intents white and without question the best white everblooming bedding Rose yet introduced. The flowers are large, quite double and of splendid form. It is fragrant, a vigorous grower and very free flowering.

**Mrs. Erskine Pembroke Thom***Each \$1.25, Doz. \$12.50*

Slender yellow buds and large, well shaped blooms of bright canary-yellow, deepest in center. Blooms very freely.

**Mrs. M. H. Horvath***Each \$1.25, Doz. \$12.50*

Habit of growth and color of flower is very much the same as that of Joanna Hill. The flowers are somewhat fuller but better lasting. Clear yellow with orange-yellow heart. Very profuse bloomer.

**Mrs. Pierre S. du Pont***Each \$1.25, Doz. \$12.50*

Medium sized long, pointed bud of a reddish gold opening to a semi-double, cupped, very lasting fragrant flower of a deep golden yellow. The plant is of strong, vigorous, compact growth. A profuse and continuous bloomer.

**Mrs. Sam McGredy***Each \$1.25, Doz. \$12.50*

Scarlet coppery orange heavily flushed with Lincoln-red on the outside of the petals, and these colors together give a rich and almost dazzling effect. The flowers are of large size and beautiful form. They are very freely produced and delicately perfumed. The plant has a vigorous and exceptionally free habit.

COPRIGHT 1935

Eclipse (See page 32)

**Pearl Harbor** (Patented)*Each \$1.50, Doz. \$15.00*

The flowers are borne on vigorous canes without thorns, they are long, pointed buds, the kind you have to hunt for in other varieties. The upper surface of the petals is a delicate shade of shell-pink with golden bronze shading at base. The outer or reverse side of the petals is vivid Tyrian-rose. The plant is vigorous and healthy, and an excellent grower asking no favors.

**Pink Dawn***Each \$1.25, Doz. \$12.50*

A beautiful new Hybrid Tea Rose with glorious deep rose buds opening to lovely pink blooms tinted with orange at the base of the petals. Sweetly fragrant, fully double, and of vigorous, upright habit.

© Mirandy  
(See page 33)**Poinsettia***Each \$1.25, Doz. \$12.50*

We have no hesitancy in stating that this Rose is the most brilliant red Rose ever produced. "Crimson Glory" is admittedly a magnificent piece of color, but the color is dull by comparison. The name of this Rose is a descriptive one, and was suggested by Dr. J. Horace McFarland of the American Rose Society. It is close to a Poinsettia-scarlet. The buds are ideal in form, long and pointed; fairly full petalage, a good grower, and fine as a cut flower. This Rose was awarded a Certificate of Merit by American Rose Society, 1938. (Color illustration, page 32.)

**President Herbert Hoover***Each \$1.25, Doz. \$12.50*

Large flowers of a very charming combination of cerise-pink, flame, scarlet, and yellow, with broad, thick petals; very fragrant. The clean, handsome foliage is an added attraction. The brilliancy of the color is somewhat dimmed by hot weather, but the cool autumn nights develop tones and tints of almost unbelievable richness.

**President Macia***Each \$1.25, Doz. \$12.50*

Very long bud, longer than any other Rose. Clear pink with slightly darker veining. When open, the face of the petals is pale flesh-pink warmed with a yellow flush toward the base. The reverse is the rich pink of the buds. Deliciously fragrant and extra fine long stems for cutting.

**Radiance***Each \$1.25, Doz. \$12.50*

An ideal bedding Rose that continues to produce its large flowers throughout the most unfavorable hot weather when frequently many other varieties fail. A brilliant carmine-pink, with salmon-pink and yellow shadings at base of the petals.

**Red Radiance***Each \$1.25, Doz. \$12.50*

A counterpart of Radiance from which it is a "sport," possessing all the good traits of that valuable variety but differing in color, which is a bright cerise-red.

**Apricot Queen** (See page 30)

**Rex Anderson** (Plant Patent No. 325)

**Each \$1.50, Doz. \$15.00**

This variety can be described as white with an overcast of ivory, slightly deeper in the center. The large blooms are carried, several together, on strong stems and may be grown to enormous size by disbudding. It has a pleasant perfume. The habit of growth is exceptionally free and vigorous, and the abundant gray-green foliage sets off the flowers to perfection.

**Rouge Mallerin**

**Sold out for this season**

Scarlet. Pointed buds of brilliant red open to 3½-inch blooms of glowing scarlet, the deep pile on the petals making them look for all the world like pieces of rich scarlet velvet. Rich old damask perfume.

**Santa Anita**

**Each \$1.25, Doz. \$12.50**

Santa Anita is an outstanding Rose. The perfectly formed, long, pointed buds unfold into beautifully shaped flowers of pure peach-blossom-pink. No matter how hot or how brilliant the sun may be, the color of Santa Anita remains pure. There is no bleaching or discoloration from bud to faded flower. The color is "sunfast." Santa Anita is the first Rose to bloom and it flowers bountifully from beginning to the end of the season. The plants are rugged and not too tall. A lovely pink variety which, because of its merits, belongs among the best of the pink Roses.

**Signora** (Plant Patent No. 201)

**Each \$1.50, Doz. \$15.00**

This Rose, from the land of sunshine and Chianti wine, is a real masterpiece of both plant and bloom. Long bud of a warm burnt sienna, opening to a lighter hue toward mandarin. The plant is tall-growing with every bloom on a long stem. Foliage is handsome. Indispensable to those who grow Roses mainly for cutting.

**Soeur Therese (Sister Therese)**

**Each \$1.25, Doz. \$12.50**

Long, pointed buds are chrome-yellow, heavily marked with carmine; the open flower is rich Daffodil-yellow and holds its color well. Sweet-brier fragrance. The blooms come freely on splendid cutting stems. You can always recognize this Rose from its habit of forming sturdy 3-foot, upright canes which are topped by a "lighted" candelabra of five or more burning yellow blooms.

**Sterling** (U. S. Plant Patent No. 21)

**Each \$1.50, Doz. \$15.00**

A magnificent flaming pink flower of superb form in bud as well as open. The base of the bloom is yellow, giving it a richness as well as clarity of color seldom observed. It has excellent foliage, grows strongly and blooms very freely in summer as well as in autumn. A sterling novelty. Winner of the Hubbard medal.

**Talisman**

**Each \$1.25, Doz. \$12.50**

Brilliant red and gold buds, opening to well shaped blooms of scarlet-orange and rich yellow. Constantly in bloom; the most vivid color yet produced in Roses.

**Texas Centennial** (Plant Patent No. 162)

**Each \$1.25, Doz. \$12.50**

A sport of President Herbert Hoover, having the same wonderful qualities. The color is blood-red, toning to cerise-red in the center.

**The Doctor**

This magnificent Howard & Smith Rose is internationally recognized as one of the outstanding new Roses. We regard this Rose as one of the best; a variety which will be greatly sought after when better known. The buds are long and pointed, expand to a simply enormous bloom in their fully developed state. The color is an exquisite silvery pink, uniform in color both in bud and open flower, with a fragrance so intense that it can be detected many yards away.

**Warrawee** (Plant Patent No. 140)

**Each \$1.25, Doz. \$12.50**

Shell-pink. Long, pointed, salmon-pink buds open to 4-inch or larger flowers of exquisite shell-pink with a slightly darker reverse. The bloom, when fully open, looks like a glorified Mme. Butterfly. It has the delightful spicy fragrance of the old Clove Pinks. The plant has all the health, vigor and freedom of bloom of Radiance. The blooms come singly on erect, firm stems with few thorns.

**Will Rogers** (Patented)

**Sold out for this season**

The color is black velvety crimson-maroon, which holds its color till the last petal falls. Its fragrance is so intense that a few will scent a room with "Attar of Roses" fragrance. Strong and vigorous grower with dark green foliage retained throughout the season. The blooms are quite double, with a beautifully ruffled petal arrangement in the open flower. Marvelously free in bloom qualities, bearing lavish quantities of flowers from April to the advent of following winter frosts. This Rose, cut in early morning and placed in water, will keep in fine condition for five or six days, and during this period dispels its most delightful fragrance.

**White Briarcliff** (Plant Patent No. 108)

**Each \$1.50, Doz. \$15.00**

A supreme white Rose, with the finest form since Bride's Roses have been grown. Vigorous, bushy plant of unusual arctiness. Tremendous producer and ideal for cutting. Keeps a long while in water. It cannot be recommended too highly.

**STERLING**

Winner of  
Hubbard Medal.

# Perpetual Flowering Single Hybrid Tea Roses

Single Roses have an appeal which enthralls many by their artistic beauty. More and more gardeners include Single Roses for their simple beauty in the garden. Single Roses also lend themselves exceptionally well to cutting and when properly arranged in a suitable container they present a picture, the like of which is not easily obtained with most other flowers. We have selected the most outstanding from every angle.

## Cecil      *Sold out for this season*

A very free-flowering Single Rose and the only good yellow in existence. The blooms are a glorious Buttercup-yellow, well displayed by the fine, large, broad petals. Robust growing plants of excellent foliage. When in full bloom are completely covered with flowers.

## Dainty Bess

Each \$1.25, Doz. \$12.50

An exceedingly charming and dainty colored Single Rose of perfect form. The broad petals are delicate shell-pink which form a beautiful contrast to the conspicuous bunch of crimson stamens. It is always greatly admired for its charm and loveliness, and the blooms last exceptionally long.

## Innocence

Each \$1.25, Doz. \$12.50

Out of tapering buds come enormous pure white blooms with 12 petals arranged around the center composed of wine-red stamens tipped with golden yellow anthers.

Single Hybrid Tea Rose, Dainty Bess

## HARDY HYBRID PERPETUAL ROSES

The varieties listed below are unquestionably the best that can be selected in the Hybrid Perpetual class, which, before the development of the Hybrid Teas, was the most popular type for garden planting, and even now they dare not be overlooked, but should be used extensively in conjunction with the other sorts, and especially so in localities where the hardiness of the Hybrid Tea varieties has not been established.

### Arrillaga

This is an introduction of Father Schoener. It is the largest pink Rose we have ever seen. The big, glowing pink buds develop into gigantic flowers of vivid pink with golden glow at base of petals. Very fragrant and lasting. Stems are stout and long. Flowers in great profusion. A superb hardy Rose.

### Frau Karl Druschi

This is the ideal hardy white Rose; pure in color, perfect in form, strong grower and remarkably free flowering; superb in every way.

### George Arends or Pink Frau Karl Druschi

This is a pink form of the popular white Frau Karl Druschi, possessing not only the exquisite form, large size, and remarkable free-flowering habits of its parent, but in addition to this, it is also highly perfumed.

### Henry Nevard

Brilliant scarlet-crimson; an old favorite and one of the best known Roses in cultivation; does well everywhere.

### Mme. Albert Barbier

Full, cupped flower of soft fawn-yellow, paling to white, with pinkish shades in the center, blooming throughout the season. A remarkable color for a Hybrid Perpetual, a class in which yellow tints are rare. This Rose has showed up unusually well in color, shape of flower and its habit of constant blooming.

### Mrs. John Laing

Soft pink, of beautiful form; exceedingly fragrant and remarkably free flowering; always does well and stands very close to the top among Roses.

### Paul Neyron

Dark pink of enormous size; perhaps the largest of all.

## Mabelle Stearns

(U. S. Plant Patent No. 297)

### PERPETUAL FLOWERING DOORYARD ROSE A ROSA SETIGERA HYBRID by HORVATH

**Color of Flower:** Peach-blossom-pink with silvery reflexed, sharply recurving imbricated petals, center showing a lovely orange undertone. Flowers in panicles. Persistent grower and bloomer. Flowering period starting in June, lasting until frost; starts blooming about two weeks later than Hybrid Tea Roses, but is never without flowers the entire summer and fall. Flowers excellent for cutting and decorative work, are fully double, having from 50 to 60 petals, and are delightfully fragrant, lasting a week to ten days in water when cut.

**Foliage:** Bottle-green, rich and clean. Not troubled with black spot, mildew or other Rose maladies.

**Hardiness:** Hardy without protection in the Temperate Zone. Can be successfully grown with little protection in the colder regions where growing Roses here-to-for has not been possible or exceedingly difficult.

**Use and Size of Plant:** Ultimate height about 2 feet, spreading from 5 to 6 feet or more if permitted. It is a decumbent, spreading, matlike plant, making it pre-eminently fit for ground covering, hiding rocky and ugly spots, or as edging to rose beds as well as planting in solid beds or covering slopes. Single specimens are very effective in the flower border or low shrub plantings.

Each \$2.00, Doz. \$20.00

Hybrid Perpetual Rose, Frau Karl Druschi

New Horvath Dooryard Rose, Mabelle Stearns

# Small-Flowered Cluster Roses

## (Polyantha Roses) Growing about 12 to 18 inches high.

The Polyantha or Baby Roses are very popular for edging and for bedding purposes. The plants grow into shapely, compact bushes about 12 to 18 inches high and they are covered with a great mass of flowers from early in the season until severe frost destroys their beauty. The blooms, though small, are very effective, as they are arranged in showy trusses that accentuate their rich and beautiful coloring.

### Cameo Each \$1.25, Doz. \$12.50

A new and distinct color. Shell-pink with salmon suffusion, over which lies a glow of gold. Flowers in large sprays constantly in bloom from June until frost.

### Chatillon Rose Each \$1.25, Doz. \$12.50

Bright pink semi-double blooms with an illuminating touch of orange. The color lasts well. The trusses are of gigantic size, and the plant is both healthy and hardy.

Ranunculus-Flowered Cluster Rose,  
Carroll Ann

### Gloria Mundi

Each \$1.25, Doz. \$12.50  
The most brilliant orange-scarlet imaginable. Never fades. Showy, well formed, double flowers produced with the greatest freedom.

### Orange Triumph

Each \$1.25, Doz. \$12.50  
Magnificent scarlet-orange blooms arranged in enormous clusters which cover the shiny green foliage throughout the whole season.

### Sparkler

Each \$1.25, Doz. \$12.50  
Deep crimson. Grows about 1½ feet. Very dark red with blackish shadings.

### Summer Snow

Each \$1.25, Doz. \$12.50  
(Plant Patent No. 416.) Beautiful heavy clusters of pure white flowers. Most prolific of the white Floribunda Roses, blooms without let-up until frost. The flowers are delightfully fragrant.

## RANUNCULUS-FLOWERED CLUSTER ROSES

### Growing 12 to 18 inches high.

This type is noted for its charming clusters of globe-shaped flowers. They resemble bunches of Ranunculus blooms or are not unlike clusters of apple blossoms, but fully double. They look very well mixed in with hardy plants in the border, in front of shrubs, or as an edging to Rose beds.

### Carroll Ann

Each \$1.25, Doz. \$12.50  
This is one of the best of this new form, and is greatly admired by visitors. The flowers are shaped like Ranunculus blooms, an entirely new form in Roses. The incurving petals produce perfectly charming globe-shaped flowers which grow in large clusters. The color is salmon-orange and does not discolor or fade in the hottest sun. Plants of medium height and excellent for edgings.

### Margo Koster

Each \$1.25, Doz. \$12.50  
Dominant color of this lovely Ranunculus-shaped flower is salmon with rich shadings of orange and pink. The small globe-shaped blooms occur in large clusters and are semi-double. The plant grows not over 18 inches high and therefore is a very fine variety to be used as an edging around Hybrid Tea Rose beds.

Cameo

## PERPETUAL-FLOWERING BEDDING ROSES

### For Semi-Shade or Full Sun.

These Roses deserve to be grown far more widely as they flower profusely over an exceptionally long period of time. They are splendid for bedding on account of their compact growth, and they bloom continuously and profusely throughout the spring, summer, and way late into the fall.

### Gruss an Aachen

Each \$1.25, Doz. \$12.50  
A very distinct Polyantha Bedding Rose with showy blooms of light pink enhanced by a shading of pure salmon.

### Pink Gruss an Aachen

Each \$1.25, Doz. \$12.50  
This fits well into this splendid class, and provides a richer shade of pink than found in Gruss an Aachen.

### White Aachen

Each \$1.25, Doz. \$12.50  
(Patent Pending.) As a sport of Gruss an Aachen this resembles its parent in every way except that the flowers are pure white when fully opened. The buds show a creamy cast.

## Miniature Alpine Roses

Rosa Rouletti

### Rouletti

Each 60c, Three \$1.50,  
Doz. \$5.00, 100 \$30.00

After being lost to cultivation for many years, a plant was found growing in an Alpine window garden by M. Correvon, the Swiss rock garden authority. It is rapidly attaining popularity as a rock garden "gem" and as an edging plant in front of Rose beds. The plant grows about 6 inches tall in bushy form, is healthy and hardy, and blooms from early summer until frost. The tiny, rose-pink, quite double flowers are less than an inch diameter.

### Oakington Ruby

Each 90c, Three \$2.60,  
Doz. \$7.25, 100 \$50.00

Received an Award of Merit from the English Royal Horticultural Society in 1934. It is a real dwarf Rose, will not attain a height of more than 12 inches. The flowers are fully double, deep crimson in the bud, opening to rich ruby-carmine, often 1½ inches in diameter. It is very free-flowering, commencing in May and continuing until late autumn.

### Pumila

Each 90c, Three \$2.60,  
Doz. \$7.25, 100 \$50.00

Double rose-pink flowers about twice as large as Rouletti. Noted for its freedom of bloom.

# Large-Flowered Cluster Roses

## ALSO CALLED FLORIBUNDA ROSES

### Baby Chateau

This large-flowered cluster Rose produces semi-double flowers of deepest dark velvety red. It is a strong grower and makes a magnificent display when planted in solid beds or if used in combination with a white cluster Rose.

### Betty Prior (U. S. Plant Patent No. 340)

Each \$1.50, Doz. \$15.00

An outstanding addition to this new class of Roses, distinctive in its appealing color, its extremely healthy foliage and growth, and its positive continuity of bloom. In early spring the single blooms resemble the flowers of a red Dogwood. They are produced in clusters which are followed continuously by other clusters throughout the entire season.

### Cheerio

Each \$1.25, Doz. \$12.50

Superb in every respect—a Rose of outstanding merit whether used for mass planting in beds or borders or to give an individual accent here or there in the garden. You will be most pleasantly surprised by the super-abundance of the brilliant double flowers borne in massive yet gracefully arranged flower clusters. The flower petals are clear mallow-pink shading to Tyrian rose at the base with the reverse or outside a luminous rose-madder that creates an effective color balance.

### Dagmar Spath

Each \$1.25, Doz. \$12.50

Same height and habit of growth as Mrs. R. M. Finch. The fine clusters of flowers are pure white. They are especially valuable for contrasts such as in combination with Baby Chateau or Cheerio. Very free flowering and good grower.

### Donald Prior (Patent No. 377)

Each \$1.25, Doz. \$12.50

An eight-petaled, rich cherry-red Floribunda Rose with flowers about four inches across. The dark green foliage is a splendid foil to the crimson flushed scarlet flowers and when the full trusses come into bloom the effect is very striking and decidedly pleasing. A bright red which won't clash in the garden.

### Else Poulsen

Each \$1.25, Doz. \$12.50

Flowers medium size, semi-double, lasting, bright rose-pink. Continues blooming from summer to late fall. Produced by erect growing, very thrifty plants.

### Improved Lafayette

Each \$1.25, Doz. \$12.50

Medium sized, deep glowing red flowers suffused with vivid crimson. Blooms very profusely.

Rosenelfe

Improved Lafayette

Cheerio

### Mrs. R. M. Finch

Each \$1.25, Doz. \$12.50  
Double, soft rosy pink blooms fully 2 inches in diameter. Has showy large flower clusters.

### Pink Jewel

Each \$1.25, Doz. \$12.50  
Not quite so double and somewhat lighter pink than Cheerio. Many people prefer Pink Jewel because of its gracefully formed semi-double rose-pink flowers which are abundantly produced in fine clusters. An excellent Rose for beds or in the foreground of a shrub border where it will always make a cheerful and colorful effect.

### Rosenelfe

Each \$1.50, Doz. \$15.00  
Graceful clusters of dainty La-France-pink flowers superbly suited for cutting and table decoration. The handsomely shaped small buds or open blooms lend themselves perfectly to any kind of decoration. In the garden they never fail to draw attention. Color holds up well in hottest sun. Rosenelfe is a fine grower, has excellent foliage. One of the best in this group.

### World's Fair (U. S. Plant Patent No. 362)

Each \$1.25, Doz. \$12.50  
It will furnish a continuous display of color from late spring until frosts stop the performance. Ideal, bushy plants just about hide themselves under clusters of large velvety blooms of blackish scarlet, the fragrant petals surrounding a glowing mass of golden stamens. A very large-flowered Floribunda. A solid bed of World's Fair will give the gardener something to boast about all next winter.

# Shrub Roses

## ROSA RUGOSA HYBRIDS

Rugosa Roses are particularly valuable for hardiness, healthiness, and ability to thrive under most adverse conditions of soil and climate, withstanding almost anything.

They are distinguished by erect, very spiny stems, and by their tough, curiously wrinkled or rugose foliage. Particularly valuable for hedges or shrubberies in seashore gardens and regions where the winters are very severe. Many are everbloomers.

Some of the Hybrids do not have the true Rugosa foliage, but this does not mean that they are not as hardy. Nothing could be harder than the Grootendorst types, yet their foliage does not appear to have much Rugosa in it.

Planting Distance: Hedges—1½ to 2 feet. Shrubs—3 to 4 feet.

Pruning: Shrub types—cut out old canes and shorten new canes to 4 feet.

Height: 4 to 5 feet, except where noted.

### Agnes

Coppery yellow buds; flowers become pale amber-gold upon opening; sweetly fragrant. Freely produced. Six feet.

Each \$1.50, Doz. \$15.00

### Blanc Double de Coubert

It is one of the earliest Roses to bloom, starting to open its semi-double, pure white blossoms in late May and continuing freely until late fall. The exceptionally fine fragrance alone qualifies it as a garden Rose. For hardiness, tolerance and usefulness, Blanc Double de Coubert has no equals. Maximum height 4 to 5 feet. Morton Arboretum, Lisle, Illinois Test Garden Bulletin of July, 1940.

Each \$1.50, Doz. \$15.00

### Dr. Eckener

Large, fragrant, semi-double flowers of coppery rose and golden yellow; very fragrant. Really a Hybrid Tea flower on a Rugosa plant. Remontant. Five to six feet.

Each \$1.50, Doz. \$15.00

### Grootendorst Supreme

An improved variety having large, fringed, cherry-red flowers borne on a fine, large, well foliaged bush. Excellent as a hedge.

Each \$1.50, Doz. \$15.00

### Mrs. Anthony Waterer

(Waterer, 1898.) Very bright, semi-double crimson flowers, fragrant and free. Remontant.

Each \$1.50, Doz. \$15.00

### Pink Grootendorst

Double flowers of a clear pink. Everblooming Baby Rugosa type blooms.

Each \$1.50, Doz. \$15.00

### Rugosa

Large, single flowers in shades of pink, magenta, and rosy crimson. Repeats during the season. Attractive large red berries.

Each \$1.50, Doz. \$15.00

### Rugosa alba

Large single white flowers throughout the entire summer followed by large red fruits.

Each \$1.50, Doz. \$15.00

## NEW SHRUB ROSES

### Eos

*Sold out for this season*

The flowers are warm, glowing sunset-red in early stages, becoming a lively red paling to white in the center. This charming sparkling range of tints reminds one of the colors displayed in the sky at dawn. Named for the Greek goddess. The dull dark green foliage forms a perfect foil for the semi-double flowers which are produced in masses. Ultimate height about 5 feet.

Each \$1.50, Doz. \$15.00

### Lipstick

A "shrub" Rose which will reach a height of 5 to 6 feet. It blooms continuously during the summer, forming large clusters of semi-double flowers. The color is a clear cerise with salmon shadings. This European variety certainly is a most interesting addition. There are so few tall growing Roses; it will be most welcome.

Each \$1.50, Doz. \$15.00

### Nevada

A superb new shrub Rose which grows about 3 to 4 feet tall. In spring it is covered with enormous nearly single flowers 5 inches across. The buds are soft pink gradually fading to snow-white. The superb beauty of the flower is enhanced by a large bunch of golden yellow anthers. The plant is well covered with a healthy trouble-free pale green foliage. Here is a superb novelty for the shrubbery border.

*Sold out for this season*

### Skyrocket

A real everblooming Shrub Rose producing enormous flower clusters throughout the entire season. Makes a magnificent display with its large clusters composed of medium sized brilliant red blooms. Of sturdy, upright habit which makes it most desirable planted either by itself or in combination with various kinds of shrubs. A forerunner of a distinct new rose.

*Sold out for this season*

Rosa  
Hugonis

Rugosa Rose, Pink Grootendorst

## AUSTRIAN BRIER ROSES

A very hardy type which will give the best results with very little pruning, since the flowers are produced from the upper end of the old wood. This class is noted for its excellent rich tones of yellow and copper.

### Austrian Copper

Bright coppery red; reverse golden yellow.

Each \$1.50, Doz. \$15.00

### Harrison's Yellow

Fine double golden yellow flowers.

Each \$1.50, Doz. \$15.00

## ROSA DAMASCENA

The Damask Roses are very hardy and make robust growth, clothed with large, rough, light green leaves. Their flowers are very freely produced and are generally borne in trusses of three or more. The fame of their powerful fragrance is second only to that of the Cabbage and the Moss Roses.

### York and Lancaster

This historical Rose is said to have appeared in an English garden soon after the War of the Roses and the historical description said that "It has irregularly shaped flowers which may be pale red or pure white, or part red and part white. Flowers of these different colorings may, and often do, appear on the bush at the same time." The blooms are richly fragrant with the true Damask scent.

## Golden Rose of China

### ROSA HUGONIS

A splendid Rose for the shrubbery border with delicate yellow single flowers produced on long arching sprays early in May; after it has finished flowering it remains an attractive decorative bush for the balance of the season; perfectly hardy.

Each \$1.50, Doz. \$15.00

# Horvath Setigera Hybrid Climbing Roses

## Meda (U. S. Plant Patent No. 518)

### LARGE-FLOWERED SHRIMP-PINK CLIMBER ROSA SETIGERA HYBRID by HORVATH

**Color of Flower:** The outer petals are a beautiful pale buff-shrimp-pink, increasing in intensity to a deeper and richer shading towards the center, until a beautiful tone of rose-pink has been reached. The petals are imbricated and artistically formed, resembling dozens of shining seashells, shaping the flower into the perfect form of a Hybrid Tea Rose. The flowers occur singly or in clusters of three on side laterals which are 10 to 12 inches long, a perfect length for cutting. The buds are perfectly formed and open into flowers with high centers. The size of the flowers when fully open measures 3 1/2 to 4 inches across. The substance of the flower petals is astounding, it seems impossible to crush them. They withstand adverse weather, high winds without damage, unlike anything yet produced in Roses. Last, but not least, the fragrance of this variety is delightful, almost spicy and very intense.

**Foliage:** Leaves are of leathery texture, deep bottle-green and practically immune to black spot, mildew, or other Rose maladies.

**Hardiness:** Can be successfully grown with protection in the colder regions.

**Size of Plant:** Ultimate height about 10 to 12 feet. Stems are heavy and canelike, requiring little support. Can be grown to resemble a huge Rose bush, by cutting back branches to three, four or five feet, or whatever size bush is desired. Try growing it flat against the wall of your house or other building. It will resemble closely the trained trees of the old world.

Each \$2.50, Doz. \$25.00

Giant Horvath  
Climbing Rose, **Thor** Hercules

An Organization Composed of Selected Representatives of the Commercial, Civic Groups of Chattanooga, Dedicated Their Efforts to the Improvement and Beautification of the City.

## COMMITTEE OF 100

Chattanooga, Tenn.  
July 9, 1942

The Wayside Gardens Co.  
Mentor, Ohio

Gentlemen:

In making a report on the planting of 50 Thor Horvath Roses, the Riverview Garden Club wishes me to express their appreciation of its excellent behavior. The Roses have been satisfactory in every respect. The plants are sturdy and are vigorous growers with long stems, having clusters of from three to seven flowers on each stem, making a gorgeous display of vivid color. Thor meets all the requirements for roadside and parkway planting and we are happy to recommend their use and your splendid service in supplying them.

*Mrs. Oscar Lee Mitchell*  
Mrs. Oscar Lee Mitchell, President  
THE COMMITTEE OF 100

New Horvath Climbing Rose, Meda

## Hercules (U. S. Plant Patent No. 296)

### GIANT DEEP PINK CLIMBER ROSA SETIGERA HYBRID by HORVATH

**Color of Flower:** Clear, deep rose-pink of same shade as Dame Edith Helen. The flowers are huge, fully 5 to 6 inches across when fully open. Slow in opening, lasting a long time. The flowers, though large, are refined and equal the finest Hybrid Tea Rose. Flowers are produced abundantly on spur branches both on main stalk and laterals 1 to 2 feet long. They are stiff and bear their heavy load without bending. Flowers do not droop, having a very stiff neck, and have from 50 to 60 petals. The appearance of the plant is one of noble ruggedness. Without a doubt the finest pink large-flowered climber to date.

**Foliage:** The rich, shining, bronzy green leaves are larger than those of the Mahonia or Oregon Grape and are ornamental in themselves.

**Hardiness:** Can be successfully grown with protection in the colder regions where growing Roses heretofore has not been possible or exceedingly difficult.

**Size of Plant:** Ultimate height 14 to 15 feet.

Each \$2.50, Doz. \$25.00

Giant Scarlet Climbing Rose, Thor

## Chor (U. S. Plant Patent No. 387)

### GIANT SCARLET CLIMBER ROSA XANTHINA HYBRID by HORVATH

**Color of Flower:** Brilliant scarlet-red of the same shade as Crimson Glory. The flowers are perfectly formed, very slow in opening and when fully open, 4 to 5 inches across. The flowers, although large, are perfectly shaped and just as handsome as those of a Hybrid Tea Rose. Flowers are produced abundantly on spur branches 12 to 18 inches long, which are stiff, holding the flowers in perfect position. Flowers have from 55 to 60 petals, do not discolor when fully open. Without any question of doubt, the finest scarlet Climbing Rose yet introduced. Horvath claims this to be the finest creation to date.

**Foliage:** Rich bottle-green, quite abundant. No mildew or black spot in our test garden for three years.

**Hardiness:** Can be successfully grown with protection in colder regions.

**Size of Plant:** Ultimate height about 8 to 10 feet. Canes are very plentiful, not overly thorny.

Each \$2.50, Doz. \$25.00

Chor is the  
Largest and Finest  
of  
Red Climbers

FURMAN SMITH  
1026 KENILWORTH AVENUE  
CHARLOTTE, NORTH CAROLINA  
Wayside Gardens Co., April 28, 1942  
Mentor, Ohio.  
Dear Sirs:  
Horvath's "Giant Scarlet Climber Rose Thor" is truly a wonderful creation—all you have claimed for it.  
"Thor" is a healthy, vigorous grower, beautiful foliage, and with me, no mildew or black spot has ever shown.  
Plant a dozen or more if you have the space.  
Yours very truly,  
*Furman Smith*

## Golden Lion (Propagating Rights Reserved)

### LARGE-FLOWERED CLEAR YELLOW CLIMBER ROSA SETIGERA HYBRID by HORVATH

**Color of Flower:** Clear sparkling golden yellow flowers in clusters on spur branches. Flowers are open and cup-shaped. Buds are ovoid and slightly deeper tinted. Flowers not unlike Doubloons in form when fully open but of much better, clearer yellow.

**Foliage:** Light green and shiny. No mildew or black spot in test for three years.

**Hardiness:** Can be successfully grown with protection in colder regions.

**Size of Plant:** Ultimate height about 8 to 10 feet. Canes are very plentiful and not overly thorny. Exceptionally fine variety for tying flat against fence or wall.

Each \$2.50, Doz. \$25.00

New Horvath Climbing Rose, Golden Lion

# Climbing Roses

Climbing Roses require no pruning in the spring beyond cutting out of very old or dead wood, and the shortening of the laterals and long canes to make the growth conform to the space to be covered; but a severe pruning in July, directly after they have finished flowering, is beneficial. Cutting away at that time all old flowering wood will encourage a vigorous growth, which will give an abundance of flowers the following season.

We offer on this page a selection of the most modern Hardy Climbing and Rambler Roses.

## American Pillar

A single-flowering variety of great beauty. The flowers are of large size, 3 to 4 inches across, of a lovely shade of pink, with a clear white eye and clusters of yellow stamens, and are borne in immense bunches, and a large plant in full bloom is a sight not easily forgotten.

## Blaze (Plant Patent No. 101)

Hardy everblooming climbing Rose which inherits the blazing color of Paul's Scarlet Climber and the everblooming habit of Gruss an Teplitz, thus combining the most attractive features of both its parents. It is a very vigorous climbing variety which will grow to considerable height.

## Cecil Brunner

This is the climbing form of the "Sweetheart Rose." Covered in season with hundreds of graceful little buds and flowers, exceptionally fine for covering small fences or trellises. Needs protection in the North but well worth the extra trouble.

## Doublons (U. S. Plant Patent No. 152)

A vigorous climber with heavy wood and handsome, glossy foliage. When in bloom the whole plant is literally covered with clusters of large, golden blooms. Buds ovoid, deep saffron-yellow; flower large, double, cupped, rich gold, fading but little; fragrant. Gives two liberal crops six weeks apart if the first spring blooms have not been cut. We consider this the best hardy yellow climber.

## Paul's Scarlet Climber

Each \$1.25, Doz. \$12.50

Each \$1.50, Doz. \$15.00

Each \$1.25, Doz. \$12.50

Each \$1.50, Doz. \$15.00

Each \$1.50, Doz. \$15.00

New Dawn

## Dr. W. Van Fleet

Each \$1.25, Doz. \$12.50

A Rose which, on account of its dainty color and exquisitely shaped buds and flowers, appeals to everyone. The long, pointed buds are of a rich flesh-pink on stems 12 to 18 inches long. Splendid for cutting.

## Easlea's Golden Rambler (U. S. Plant Patent No. 114)

Sold out for the season

A new outstanding climbing Rose from England, producing its comparatively large double rich golden flowers in large trusses. An additional quality is a delicious fragrance. Gold Medal, Royal Horticultural Society, July, 1932. Awarded the Cory Cup as the best new seedling climber or rambler Rose of British origin introduced in 1932.

## Mary Wallace

Each \$1.25, Doz. \$12.50

A pillar Rose, making a fine, strong, self-supporting plant 6 to 8 feet high, with large, glossy foliage, blooming with great freedom in spring and bearing a large number of fine buds in summer and fall. Flowers very large, generally exceeding 4 inches across; well formed, semi-double, of a bright, clear rose-pink with salmon base.

## Mme. Gregoire Staechelin (Spanish Beauty) Each \$1.25, Doz. \$12.50

The plant is of strong climbing habit, growing 12 feet or more high and has large, disease-resistant foliage. At the tips, the long pointed buds are crimson at first as the petals divide, then the firm outer petals show splashes of carmine as the flower opens with an iridescent pearl-pink inside. Very fragrant.

## New Dawn (U. S. Plant Patent No. 1)

Each \$1.50, Doz. \$15.00

(Everblooming Dr. W. Van Fleet.) Identical in every way with its parent in size and formation of its flowers, color, etc., but blooms continuously throughout the summer and fall.

## Paul's Scarlet Climber

Each \$1.25, Doz. \$12.50

Flowers are semi-double, very freely produced in clusters of from 3 to 20 flowers each on much branched canes. It is of strong climbing habit and perfectly hardy. One of the most popular of climbing Roses.

## Silver Moon

Each \$1.25, Doz. \$12.50

Beautiful semi-double flowers, 4 1/2 inches and over in diameter, pure white in color; petals of great substance, beautifully cupped, forming a Clematis-like flower. The large bunch of yellow stamens in the center adds to its attractiveness.

## TRAILING ROSES

### Wichuraiana (Memorial Rose)

Each \$1.25, Doz. \$12.50

Fragrant, single, pure white flowers with yellow stamens followed in the fall by bright red hips or berries. It has dense evergreen foliage.

# Hardy Phlox

## Africa

Three \$1.45, Doz. \$4.75, 100 \$25.00

Brilliant carmine-red with blood-red eye. Well shaped flower heads composed of large florets. Good strong stem and not subject to mildew.

## Antonin Mercier

Three \$1.45, Doz. \$4.75, 100 \$25.00

A delicate lilac-blue; free-flowering variety of medium height and fairly free from red spider. During prolonged hot weather the color fades to a very pale lilac; in light shade, however, the coloring is constant.

## Atlanta

Three \$1.50, Doz. \$5.00, 100 \$30.00

The individual florets are white, beautifully shaded pale blue. The eye is a deep blue. Flower heads are immense in size and carried on stiff 2 1/2- to 3-foot stems. Foliage is clean, and the entire plant impresses one with its vigor. It is difficult to describe Atlanta, but we are sure you will like this lovely Phlox among your most prized flowers.

## Augusta (Plant Patent No. 252)

Three \$1.50, Doz. \$5.00, 100 \$30.00

A strong growing plant of medium height, about 2 1/2 feet when fully grown. Color is best described as a brilliant cherry-red, not quite as deep as Beacon and much more intense and sparkling. The young florets at opening show a decided amount of orange. The color remains perfect under all weather conditions. Augusta is a beautiful vivid colored variety of exceptional growth and qualities, and will eventually replace all other varieties of similar shade.

## Blue Boy

Three \$1.45, Doz. \$4.75, 100 \$25.00

Blue Phlox just do not exist. In semi-shade, however, certain varieties develop good blue tints. So far Blue Boy is the nearest to dark blue we have been able to come. Planted with Mary Louise a stunning contrast is made. Blue Boy is a good grower and of medium height.

## Caroline Vandenburg

Three \$1.45, Doz. \$4.75, 100 \$25.00

This Phlox is the most attractive of the lavender shades; it is a true lavender-blue without the magenta shades peculiar to this section. Large, individual flowers.

## Charles Curtis

Three \$1.50, Doz. \$5.00, 100 \$30.00

The most brilliant Phlox in cultivation. The color is outstanding and difficult to describe. Sunset-red probably comes nearest to it. It is a fine strong grower about 2 1/2 to 3 feet tall, has good clean foliage. The flower head is large and unusually clear and sparkling due to the fact that the flowers do not discolor in the sun or fade with age. A brilliant and colorful companion for Mary Louise.

## Cheerfulness

Three \$1.45, Doz. \$4.75, 100 \$25.00

Very vigorous grower with much branched panicles of sparkling salmon-orange flowers. Of importance is the fact that the color keeps perfectly in bright sunlight, also it is a late flowering variety prolonging the season several weeks. Height about 3 feet. One of our favorites. A "must" for every garden.

## Columbia (Plant Patent No. 118)

Three \$1.50, Doz. \$5.00, 100 \$30.00

The finest light pink Phlox ever introduced. The color suggests a delicate cameo-pink with faint blue shading at center. The clearness of tone is remarkable, the brilliancy is so pronounced that immediate attention is given to this wonderful plant. As the flower ages, the blooms always retain their delicate pink shade; there never are any magenta tones visible. Out of each leaf joint grows a lateral or secondary flower spike continuing the display of blooms long after the main flower head has disappeared. Columbia is, therefore, well called the "perpetual flowering" Phlox.

## Count Zeppelin

Three \$1.45, Doz. \$4.75, 100 \$25.00

(Graf Zeppelin). Pure white flowers with vermillion-red eye. A striking clean looking Phlox. There is no fading or suffusing of color. Considered the best of the so-called calico types. Very free flowering.

## Daily Sketch

Three \$1.45, Doz. \$4.75, 100 \$25.00

Extra large trusses—large and individual florets. Color is light salmon-pink with crimson-rose eye. Viewed from a short distance, the effect is a magnificent rose Phlox. Daily Sketch is an outstanding variety. Although introduced several years ago, it is practically unknown. It is robust and rugged in growth and about 3 1/2 feet high.

## Mary Louise

Three \$1.50, Doz. \$5.00, 100 \$30.00

Pure white heads of unusually large size, reminding one of Carrara marble, the individual flowers are twice as big as other white Phlox. A perfectly beautiful variety; unquestionably the best white to date. The favorite in English gardens. It is a good grower with clean foliage and an unusually prolific bloomer. Of medium height.

## Rheinlander

Three \$1.45, Doz. \$4.75, 100 \$25.00

A splendid old-time variety of good growing quality, and excellent habit. Flower heads large; good strong stems; color beautiful salmon-pink.

## Van Beuningen

Three \$1.50, Doz. \$5.00, 100 \$30.00

Medium height but robust in growth, with healthy appearing foliage. Large, rich salmon-red flowers—a bright, effective self color without eye. Very free and persistent in flowering. Compact growth.

## Von Lassburg

Three \$1.45, Doz. \$4.75, 100 \$25.00

A splendid midseason, tall, white variety. Trusses large and stems good, very free flowering. Rather tall, fine for the back of the border.

## Widar

Three \$1.45, Doz. \$4.75, 100 \$25.00

The violet florets have a clear white eye which create a most unusual effect. Of medium height and good habit.

Hardy Phlox, Columbia

Hardy Phlox, Augusta

# Delphinium - Larkspur

Try as you will, one can hardly say enough for these regal midsummer favorites. None quite equal them in the commanding stateliness of their profusely bloom-laden stalks. Their gamut of colors ranging from exquisitely delicate pastel blues, whites and lavenders to those of the deep solid colors, in violet and indigo-blue, is but one of their charms.

The giant varieties make an admirable background for any planting. They are the English varieties that are so intriguing as over there, they peep atop garden walls and hedges.

**CULTURE:** Delphiniums require a rich, generous and well-drained soil. On soils of a light or medium nature dig in plenty of well-decayed manure. In those of a heavy nature it is desirable to fork up the subsoil and compost of two parts loam and one of equal proportions of decayed manure and sand. The plants are best grown in groups of three or six. Allow a distance of at least 18 inches to 2 feet between the plants. Plantings may be done in autumn or early spring. Remove that part of the stem containing the faded flowers, leaving the lower part of the stem containing the foliage and on no account allow seeds to develop, then a second crop of flowers may be expected later on.

## DELPHINIUM BELLADONNA

The Belladonna Delphinium does not grow quite as tall as the popular English Hybrids but they produce more spikes and are more graceful, therefore, more useful for cutting. In fact, they are our loveliest early blue flowers for that purpose. They require the same care and treatment as suggested for the English Hybrids, but may be planted a little closer together, 12 inches apart is sufficient space for them. Their lovely blue spikes are about 3 or 4 feet high and produced in June and again in September.

**Belladonna.** Light sky-blue. A great favorite for cutting.

1-year-old plants. Three \$1.25, Doz. \$4.00, 100 \$20.00  
2-year-old plants. Three \$1.45, Doz. \$4.75, 100 \$25.00

**Bellamosa.** A dark blue form of Belladonna.

1-year-old plants. Three \$1.25, Doz. \$4.00, 100 \$20.00  
2-year-old plants. Three \$1.45, Doz. \$4.75, 100 \$25.00

**Belladonna, Cliveden Beauty**

This is a fine English improvement over the common Belladonna, growing much taller, many more flowers to each spike and of a brighter color. A fine form for garden as well as for cutting.

**Belladonna, Lamartine**

The rich indigo-blue flowers are freely produced on branching stems. Excellently suited for cutting as well as for colorful effects in the garden.

## GIANT PACIFIC HYBRID DELPHINIUMS

Here offered are the newest, the best, and the finest colors and forms to be secured anywhere. The range of colors varies from the palest shade of blue to the deepest indigo-blue and royal purple with many intermediary pastel tones of mauve, pink and lavender blendings. Among these new hybrids are flowers of huge size and fully double. They are particularly fine for cutting but not as long lived as the Wayside Gardens Hybrids which are particularly fine for garden planting. Many experts prefer to set out Hybrid Delphiniums in early fall. These young plants were started by us last summer and have developed into nice vigorous plants that will flower next summer for you with magnificent spikes of blooms. Space them 18 inches apart and plant in groups of three or more for stunning effects.

### Pure White Shades

Each 75c, Three \$2.00, Doz. \$6.00

Giant pure white glistening flowers with white bees often reach three inches in diameter, and are of beautiful heavy texture on 5- to 6-foot stems.

### Dark Blue Shades

Each 75c, Three \$2.00, Doz. \$6.00

The color of this series is a rich purple with velvety texture and large white bee. The flowers are beautifully formed and carried on stiff, thin, woody stems. We consider these the most brilliant of Delphiniums.

### Light Blue Shades

Each 75c, Three \$2.00, Doz. \$6.00

As the name indicates, this is the blue of a summer sky, with white bees representing fleecy clouds; a color long sought in the Hybrid Delphiniums.

### All Colors Mixed

Each 75c, Three \$2.00, Doz. \$6.00

This is a superb mixture comprising all available shades in Delphiniums. Nothing yet has been created that equals them for sheer beauty, vigor, and quality.

## ENGLISH DELPHINIUMS

**Wayside Gardens Hybrids** Three \$1.50, Doz. \$5.00, 100 \$30.00

### For Permanent Plantings in the Garden

This is one of the most permanent and at present the most popular strains of the garden Delphinium. It is distinct because of its broad, conical spike and enormous individual flowers, 1½ to 2 inches in diameter, in all shades of blue blended with mauve and violet. Also contains some fine clear white types. For permanent groups in the garden this mixture has no equal.

### Gold Medal Hybrids

Three \$1.45, Doz. \$4.75, 100 \$25.00

This English strain belongs among the finest developments in the Delphinium family. The flowers are enormous, produced on solid, erect spikes of great height and rigidity. The colors lie in delicate shades of blue, mauve, and pink. Combines landscape value with a grace and elegance for cutting unsurpassed in this family of plants.

# Dicentra - Bleeding Heart

Old-fashioned perennials; also known under the name of *Dielytra*. The species named below have fleshy, brittle stems and finely cut, fernlike foliage.

**Culture:** Spectabilis should be grown in a partially shady border. Eximia will do well in a similar position, or in the woodland garden, or in a shady nook of the rockery. Plant in fall or very early spring, 8 to 12 inches apart.

### \*Eximia

Three \$1.45, Doz. \$4.75, 100 \$25.00

(Plumy Bleeding Heart.) A dwarf growing sort, with beautiful, finely cut foliage and showy racemes of pretty pink flowers throughout the season. Too much cannot be said for this fine border plant as it is equally at home in full shade or sun and perfectly hardy anywhere.

### Spectabilis

Each 90c, Three \$2.60, Doz. \$7.25

(Bleeding Heart or Seal Flower.) An old-fashioned favorite; its long racemes of graceful heart-shaped pink flowers are always attractive; it is used also for forcing in the house, and is perfectly at home in any part of the hardy border, and especially valuable for planting in clumps.

# "Blue Ribbon" Iris

Here are ten new Iris; rare, choice kinds. The limited quantity of each variety available prevents us, with one exception, from offering them individually. This exception is China Maid.

We cannot sell any of the other kinds individually and they are offered only in two selections of five each, or as a unit of one each of ten varieties. These are the choice Iris of the future. Order promptly because stocks are decidedly limited.

## BLUE CRYSTAL

A translucent flower of weather-resisting substance, which is tinted a very light blue. Iris experts refer to this as a choice jewel.

## CHINA MAID

Words fail to convey an adequate impression of the beauty of this flower with its intriguing blend of pink, golden bronze and soft lilac. The large, well proportioned flowers of smooth, even texture are carried on tall, graceful stems. China Maid, planted among some of the light blue Iris, make a not soon forgotten picture. We believe it to be the best pink at reasonable price.

Each 75c, Three \$2.00, Doz. \$6.00

## DAY'S FAREWELL

The large standards are a deeper rose-lavender overlaid at the center with brown. An excellent and beautiful new Iris.

### China Maid

Each 75c,  
Three \$2.00,  
Doz. \$6.00

## GOLDEN MAJESTY

One of the finest deep yellows. It is a large, well formed flower of soft gleaming gold that does not fade. Grows well and blooms freely. Correctly named—it is majestic!

## MOUNTAIN SKY

This is certainly one of the bluest. A uniform soft blue with a suffusion of yellow in the center of the flower that adds a warm glow. Both standards and falls wavy. A competent English collector wrote: "I like this better than any Iris I have ever seen. I think most people would. I would term the flowers exquisite and your catalog description of it is most modest. Apart from its beauty, it is delightfully perfumed."

## RANCHO

A sister of the famous China Maid but having an entirely different color. Rancho is a bold Iris of rich red-mulberry. Fine large flowers on tall, strong stems and an excellent bloomer.

## SLEEPY HOLLOW

The rich velvety deep violet flowers of this vigorous variety make a stunning color note in the garden, the color carrying well despite its dark shade. We expect this variety to become more and more popular as soon as its beauty becomes generally known.

## SPANISH CAVALIER

Gay Spanish colors of golden bronze for the standards, rich velvety wine-red for the falls, and a bright orange for the beard, make this striking Iris a standout in the garden.

## SPRING SECRETARY

A smooth blending of buff and old gold with an overlay of mahogany produces a soft color which is not commonly seen. Flowers of good form, which are carried on well branched stalks. Combines beautifully with soft yellows or pale blues.

## TREASURE ISLAND

A splendid fine large yellow Iris. A flush of white at the center of the falls adds life and a clean-cut appearance to the flower. Greatly sought after by Iris experts.

# Bearded Iris

It is from the California, Oregon, and French hybridizers' hands that a wealth of lovely new Bearded Iris has come the past few years. So worth-while and insistent have these improvements been that there is very little left of what was considered "tops" a few years ago.

Astonishing new colors and combinations of colors have been created until we now have Iris that rival the extravagant loveliness of the wings of a butterfly. There are richer blues, purer reds, better pinks, finer and larger yellows, other shades remind one of smooth ivory or fine porcelain. So delicate and almost ethereal are some as

California Gold

## Angelus

In color a bright light pink, with slight lavender iridescence just below the lemon beard. Throughout the center there is a delicate infusion of lemon-yellow. Large, beautifully shaped flower, 3 feet tall, and very late.

Each 65c, Three \$1.75, Doz. \$5.50

## Beowulf

Rich velvety maroon unmarred by any haft venation. The coppery brown of the standards is repeated in a soft margining on the unusually broad falls. The rich orange beard completes the glowing ensemble. Beowulf is the nearest true maroon.

Each 50c, Three \$1.25, Doz. \$4.00

## Black Wings

A "black" Iris that is gorgeously deep in tone. S. deep fluorite violet; F. deeper fluorite violet, with black veins, and so very velvety that at some angles they are absolutely black. Blooms of good size, form, and substance, and a hardy plant. Very fragrant, and a great achievement in breeding, as it is very nearly black.

Each 55c, Three \$1.45, Doz. \$4.50

## Blue Peter

A very deep prune-purple Iris with a velvety finish. Late blooming. One of the finest of the deep purple-blue Iris. A prolific bloomer and outstanding in the garden because of its vivid color.

Each 60c, Three \$1.50, Doz. \$5.00

## Blue Velvet

One of the most beautiful and appropriately named, as the entire flower seems to be cut out of velvet and the color is a deep intense blue.

Each 50c, Three \$1.25, Doz. \$4.00

## Buechley's Giant

A truly large flower of silky lavender-blue which because of its superior size, texture, and plant habits has displaced the older "Lord of June." One of the largest of all Irises. Should be in every collection.

Each 55c, Three \$1.45, Doz. \$4.75

## California Gold

We consider this one of the finest deep yellow Iris introduced to date and think this is the consensus of opinion of others. It is simply superb, having a brilliance and purity of color and perfection of form and finish not approached by any other deep yellow Iris we have seen. The flowers are large and very freely produced.

Each 65c, Three \$1.75, Doz. \$5.50

## Christabel

Red—and it will not disappoint the most exacting critic. For sheer brilliance we rank it second only to the new Red Gleam of which there are only a few plants available. Glorious as a garden clump, almost a self, of large size, over 3 feet tall.

Each 75c, Three \$2.00, Doz. \$6.00

## Crystal Beauty

Very early and very tall. A gorgeous, pure, clear snow-white of huge size on stalks that are shoulder high, being the tallest of all white Iris. Flowers of perfect shape and freely produced.

Each 50c, Three \$1.25, Doz. \$4.00

## Dauntless

Winner of highest international honors, the Dykes Memorial Medal. One of the finest and purest red-toned Iris introduced to date.

Each 50c, Three \$1.25, Doz. \$4.00

## Depute Nombot

Another Dykes Medal Winner. Of gigantic size and perfect form and texture, on fall, nicely branched stems. S. coppery red, flushed golden bronze; F. rich claret-crimson. The entire flower seems to be lightly dusted with fine golden powder, which sparkles in the sunlight, giving it an unusual richness.

Each 50c, Three \$1.25, Doz. \$4.00

## Dore

Huge flowers of fine form, with lemon-yellow standards and ivory falls, the falls having gold veining at the throat and orange beards. Height 40 inches.

Each 50c, Three \$1.25, Doz. \$4.00

## E. B. Williamson

A glowing coppery red shade, with a metallic finish, nearly a self and a distinct color effect, whether one flower is seen or a group. Perfect in form with a wonderful lustrous silk texture. In every respect a glorious Iris.

Each 65c, Three \$1.75, Doz. \$5.50

## Eros

Very fragrant. Award of Merit, American Iris Society, 1936. A delightful new salmon or Hydrangea-pink, with as many as twelve flowers to a stem, now offered for the first time at a modest price. Entirely different from all other pinks. The large shapely flowers have a delightful silky texture.

Each 65c, Three \$1.75, Doz. \$5.50

## Golden Light

Early. The best of the new golden brown blerds. Standards delightfully ruffled gold, edged soft lilac. Falls gold, flushed soft lilac at the center and veined brown; flaring, deep orange beard.

Each 55c, Three \$1.45, Doz. \$4.50

## Golden Treasure

An exquisite new creamy yellow Iris with an elusive charm. Its loveliness seems to lie principally in its shimmering silkiness of texture and in the subtle infusion of golden light throughout the center of the flower. The beard is bright orange. Whites, creams and yellows are always valuable for "lighting up" an Iris garden, and none more so than this brilliant new Iris. Truly a "golden treasure."

Each 65c, Three \$1.75, Doz. \$5.50

## Gudrun

Winner of the Dykes Memorial Medal. A top notch white Iris among so many fine new white ones and by many judges considered the finest of all. It is a massive flower of purest snow-white, undoubtedly the largest and most massive.

Each 55c, Three \$1.45, Doz. \$4.50

## Jean Cayeux

Certainly one of the most beautiful Iris we have ever grown. It has been awarded all honors and justly so. The full-petaled flower with its slight suggestion of a frill has stately grace and opulence of form. Its novel superb coloring of light Havana-brown with a luster of golden biscuit-tan shows up magnificently anywhere in the garden. It flowers freely over a long period. Height 34 inches.

Each 65c, Three \$1.75, Doz. \$5.50

## Los Angeles

Great white flowers of fine shape and substance, the standards faintly edged blue with the blue style arms adding a note of clear blue in the center. Tall and widely branched. Most outstanding. Early. 40 inches.

Each 50c, Three \$1.25, Doz. \$4.00

## Marquita

This Iris is so unusual and so beautiful that it is always wanted by everyone who sees it in bloom. It is a magnificent French introduction that has given us something entirely new in color. The huge flowers are of brilliant smooth ivory, with an eggshell finish, with ruby lines running almost evenly from base to apex of the falls. As the flower ages, the center of the falls turns red, leaving a cream colored border.

Sold out for this season

# Knows No Equal

to have a true kinship with Orchids. Many are delightfully fragrant. Hundreds of varieties were selected by us from long lists of ardent hybridizers and specialists; were put through the exacting Wayside test and the best only we offer now to you.

Give away some of your old ones and make room for these lovely new kinds. You will marvel at their beauty.

(In our description "S" denotes the standards or upper petals; "F" the falls or lower petals.)

## Mary Geddes

Each 60c, Three \$1.50, Doz. \$5.00

Had the distinction of being an American introduction that received an Award of Merit in England, where so many fine Irises are produced. The color is hard to describe, but it is one of the finest. An attempt at a description would be, a lovely blending of soft pink tones, overlaid Pomeranian red. This gives but a faint idea of its great beauty. There are 8 to 10 flowers to a stem.

## Missouri

Sold out for this season  
Very fragrant. Awarded the Dykes Memorial Medal, highest international honors for 1937, as the outstanding Iris of the year. A large flower of true deep blue coloring and perfect form, with flaring velvety falls and excellent substance. Has every good quality. Height 44 inches.

## Mme. Louis Aureau

Each 60c, Three \$1.50, Doz. \$5.00

This heavily dotted and sanded Plicata from Cayeux is a rival of the series now so popular from the Sasses. It has a ground color of silvery white, closely netted with rosy heliotrope. A very large blossom.

## Mrs. J. L. Gibson

Each 55c, Three \$1.45, Doz. \$4.75

Very nearly a self, with inky black, crepy standards, lustrous and silky, and glossy, slightly flaring falls of fine breadth. Your collection will not be complete without this notable new Iris.

## Ozone

Each 55c, Three \$1.45, Doz. \$4.75

A peculiar and subtle shade of rosy lavender, the same in standards and falls, with a pronounced copper area throughout the center. Large and of ideal shape; a fine grower.

## Pallida Dalmatica, Princess Beatrice

Each 50c, Three \$1.25, Doz. \$4.00

This is the true type of Pallida Dalmatica and still one of the most attractive and satisfactory all around varieties. Standards and falls of clear lavender-blue shading to a pale silvery blue at the base and sweetly scented. Heavy glaucous foliage.

## Persia

Each 50c, Three \$1.25, Doz. \$4.00

Its refined and subdued colorings rank it as one of the most pleasing of all. Very large blooms with falls that are a blend of bluish lavender and standards of iridescent steel-blue. Brown haft and yellow beard.

## Pink Opal

Each 60c, Three \$1.50, Doz. \$5.00

A fine, tall, large, uniform pink-toned Iris.

## President Pilkington

Each 50c, Three \$1.25, Doz. \$4.00

Large, of bold form, well branched, many buds to stalk, and medium tall. Standards vinaceous buff underlaid old gold, with falls of soft violet faintly edged silvery brown. The elegant dignity of this gives it a charm that is difficult to describe. Midseason. 40 inches.

## Rameses

Each 50c, Three \$1.25, Doz. \$4.00

Winner of the Dykes Medal for 1932. A lovely blend of soft yellow and tourmaline-pink, the flower being suffused with a yellow glow at the center. A perfect flower in every way.

## Rosy Wings

Each 50c, Three \$1.25, Doz. \$4.00

Winner of the Dykes Medal in 1939. A blending of soft amber-brown, red and pink with a conspicuous orange beard, makes this one of the fine Iris of today. The flowers are handsome, and when lighted by the sun, sparkle with life. Very conspicuous in any collection.

## San Diego

Each 55c, Three \$1.45, Doz. \$4.75

One of the finest medium-dark blues. A gigantic Iris of heavy substance and fine flaring form and compelling appearance. Tall and vigorous. Early midseason. 40 inches.

## Shah Jehan

Each 60c, Three \$1.50, Doz. \$5.00

A multi-colored Iris with seven distinct colors, but a flower of the greatest refinement notwithstanding its lavish colors. It is considered by many as one of the greatest achievements of Iris development. Standards soft creamy buff, flushed soft lavender and suffused gray, fading to almost pure white as the flower ages. Falls deep, rich ruby-red, with a one-eighth inch white border. This is but an inadequate description of this very fine Iris.

## Shining Waters

Each 50c, Three \$1.25, Doz. \$4.00

Four to five feet. Early. Very sweet fragrance. On close inspection the surface seems to be studded with tiny jewels, giving an unusual sparkle. A uniform, clear sky-blue, of a most delightful shade.

## Siegfried

Each 55c, Three \$1.45, Doz. \$4.75

An Iris they are all talking about, and one which every grower will want to own. A flower of really huge size, pale sulphur-yellow overlaid with a stippling and dotting of purple. A slightly buffy overtone blends the colors together.

## Sierra Blue

Each 60c, Three \$1.50, Doz. \$5.00

Winner of the Dykes Memorial Medal in 1935, highest international honors as the best of the year. An exceptionally smooth, refined flower of clear blue with heavy substance, immense size, perfect form, and towering over 4 feet high.

## Snowking

Each 65c, Three \$1.75, Doz. \$5.50

Regal in bearing with broadly flaring great white blossoms lit with gold at the throat. Heavy of substance, bold and strong in growing habit. 3 feet tall. A wonderful and thoroughly hardy white form from the Sasses.

## Venus de Milo

Each 50c, Three \$1.25, Doz. \$4.00

Pure white. Honorable Mention American Iris Society. An outstanding good white. A perfect flower in every way.

## William Mohr

Each 50c, Three \$1.25, Doz. \$4.00

The foliage and leaves of William Mohr are always small but the blooms are simply immense. The ground color is pale lilac, standards flushed darker, the whole flower beautifully veined manganese-violet. Substance and shape of the very best a very large flower, actual measurements showing standards 3 1/4 inches by 2 3/4 inches and falls 3 inches by 2 inches. Stems strong and rigid. Rhizomes naturally small. Early.

## Winneshiek

Each 50c, Three \$1.25, Doz. \$4.00

We like this best of all the new black Irises; the actual color being the deepest midnight-blue-violet. It is certainly one of the best of this type, if not the best. The flower is large, of lustrous silky texture, of perfect form and freely produced.

President Pilkington

# *Iris Kaempferi*

The ancient poets called their Iris, Ground Rainbows; also Children of the Gods. A promise from them that beauty on earth would ever be. The finest of all their varieties is the Kaempferi which we offer you in a wide choice of colors. Not the least of their fine points is the graceful foliage. A thing of beauty after the blooms are past.

Planted in a mass, or as a border, they are ideal. A few edging a reflecting pool or stream, is something to remember. No matter how fine your Iris collection may be, not to have these is to deprive yourself of something that will make it complete.

**CULTURE:** Late plantings should be protected by a light covering of straw or leaves after the ground is permanently frozen to prevent roots from being heaved out of the ground by frost. Plant in spring or September and October. Avoid all lime.

**Blue Bird** *Each 60c, Three \$1.50, Doz. \$5.00*  
Beautifully formed flower; rich uniform blue.

**Catherine Perry** *Each 60c, Three \$1.50, Doz. \$5.00*  
Double. Blue, overlaid with rich purple glow; high tufts in center.

**Columbia** *Each 75c, Three \$2.00, Doz. \$6.00*  
Double. Blue with pure white veins, yellow center; a striking variety.

**Dominator** *Each 60c, Three \$1.50, Doz. \$5.00*  
Single. Rich indigo-blue with narrow white stripes and lighter center.  
One of the finest and richest colors.

**Doris Childs** *Each 75c, Three \$2.00, Doz. \$6.00*  
Double flowers pearly white, deeply veined rosy plum. Center petals deep plum with white edges. Very striking variety.

**Eleanor Parry** *Each 75c, Three \$2.00, Doz. \$6.00*  
Double. Claret-purple, flaming and blue as flower ages.

**Fascination** *Each 75c, Three \$2.00, Doz. \$6.00*  
Double. Mauve-pink, lightly veined white. Beautiful variety.

**Gold Bound** *Each 60c, Three \$1.50, Doz. \$5.00*  
A fine double, pure white; cream glow at the gold-banded center.

**Koko-No-Iro** *Each 60c, Three \$1.50, Doz. \$5.00*  
Six large, royal purple petals, with a yellow center, radiating into lines.

**La Favorite** *Each 60c, Three \$1.50, Doz. \$5.00*  
Large, fine; white freely veined blue, and a rich purple center.

**La Tosca** *Each 75c, Three \$2.00, Doz. \$6.00*  
Immense, double white flowers with pale shadings. A very beautiful, strong growing variety. One of the choicest in this collection.

Iris Ochroleuca Gigantea (See Iris Spuria)

The best of all perennial Iris for cutting. Lasts for a week in water.

A Planting of Iris Kaempferi, Rainbow Collection

[48]

# — Rainbow Iris

## Lavender Giant

Each 75c, Three \$2.00, Doz. \$6.00  
Huge single flowers of glistening lavender-blue. Extremely free flowering; stems strong and tall.

## Mahogany

Each 60c, Three \$1.50, Doz. \$5.00  
Large, double flowers; the latest to bloom. Purple-mahogany-red.

## Mount Hood

Each 60c, Three \$1.50, Doz. \$5.00  
Double. Light blue shaded darker, bright orange center.

## Purple and Gold

Each 60c, Three \$1.50, Doz. \$5.00  
Double. Rich violet-purple with white petaloids, tipped violet. Conspicuous golden throat with bluish white rays.

## Queen of the Blues

Each 75c, Three \$2.00, Doz. \$6.00  
Pale Delft-blue veined white. Six petals, handsome flower.

## Rose Anna

Each 60c, Three \$1.50, Doz. \$5.00  
Huge double flowers; light mauve, deeply and heavily veined with purple. Stigmas short, yellow center, quite brilliant and clearly defined.

## Red Riding Hood

Each 60c, Three \$1.50, Doz. \$5.00  
A fine single amaranth, veined and suffused white. A color combination hard to find.

## Shadow

Each 60c, Three \$1.50, Doz. \$5.00  
Single. Self color, reddish purple. Very large fine blossoms that are brilliant and outstanding.

## Templeton

Each 60c, Three \$1.50, Doz. \$5.00  
Double. Reddish violet mottled and marbled with white; of exceedingly fine form.

## T. S. Ware

Each 60c, Three \$1.50, Doz. \$5.00  
Double. Reddish violet flowers of large size, beautiful white center.

## Toro-Odori

Each 60c, Three \$1.50, Doz. \$5.00  
(Dancing Tiger.) Double. Vinous purple, speckled and splashed gray. Unique kind giving excellent contrast if planted with the self-colored varieties.

## White Swan

Each 75c, Three \$2.00, Doz. \$6.00  
Pure white, single, very free and tall.

## IRIS KAEMPFERI RAINBOW COLLECTION of Beautiful Colors

Few plants are as easily grown or provide as beautiful a display of flowers early in summer. Both form of flower as well as the coloring is charming, while the foliage is always graceful and ornamental. The collection offered is made up from some of the choicest varieties grown.

Collection of 12 plants, each one labeled, for \$6.00

## IRIS SPURIA

(Finest Iris for cut flowers.) These are so different from all other Beardless Species and Hybrids as to deserve a separate sub-division. The flowers are quite unlike all other Irises, and are very artistic, making exquisite cut flowers for which purposes they are used extensively by florists. They are hardy anywhere. While not indispensable to their success, they prefer a moist spot and make a most imposing effect in the garden.

### Ochroleuca gigantea

Each 55c, Three \$1.45, Doz. \$4.75  
A stately garden plant and a beautiful long lasting cut flower. In good rich moist soil it will grow 5 feet or more. The flowers have pure white standards while the falls are yellow with a quarter-inch margin of white. An A-1 plant for garden or cutting.

### Ochroleuca gigantea, Golden Standard

Each 60c, Three \$1.50, Doz. \$5.00  
This is a fine golden yellow selection from the type. Grows same height and size except its flowers are rich golden yellow. A beautiful plant for the garden and superb for cutting.

## FOOD FOR THOUGHT

### As Well as for Your Flowers

Plants and bulbs, anything that grows in the soil, are exactly the same in their food needs as humans. There are plenty of what might be called the shot-in-the-arm kinds of ready mixed fertilizers, but they are mostly only stimulants.

What your plants and bulbs need is a balanced organic food. Not just a stimulant. They need one containing in right amounts, those things that make plenty of strong roots, produce sturdy stalks, thrifty foliage and an abundance of good sized blooms.

That's exactly the kind of Plant Food we use at Wayside. Much of our success in growing such unfailingly fine plants is due to it.

What it has done, and is doing for our 600 miles of plants, it will do for your garden.

Turn to page 23, and get the full facts about it.

Iris Pumila, Excelsa

## IRIS SIBIRICA

### Caesar's Brother

Each 60c, Three \$1.50, Doz. \$5.00  
A stately plant not too tall, 30 inches high. It is the best of the entire lot of dark blue Siberian Iris and was given Honorable Mention by the American Iris Society. The flowers are an unusually rich black Pansy-violet of a beautiful depth of color. A superb plant for any flower garden.

### Perry's Blue

Each 55c, Three \$1.45, Doz. \$4.75  
A beautiful sky-blue variety. It is one of the most popular in this class. Grows 48 inches tall and blooms freely.

### Snow Queen

Each 55c, Three \$1.45, Doz. \$4.75  
An exquisite hardy Iris; the flowers are of a snowy whiteness, large and well formed, produced in great abundance; foliage light and graceful. A gem for flower border or waterside. 3 feet high.

## Early Flowering Miniature Iris

These beautiful little Irises do not grow over 4 inches high and bloom in April and May. They are fine for bordering flower beds or planting in the rock garden.

### Atroviolacea

Wine colored; very dwarf, free blooming.

Three \$1.25, Doz. \$4.00

### Excelsa

A splendid pale lemon-yellow; very free.

Three \$1.15, Doz. \$3.75

### Sambo

Dark violet-blue; very distinct and showy.

Three \$1.15, Doz. \$3.75

### Schneecuppe

A large, showy, pure white; very floriferous.

Three \$1.15, Doz. \$3.75

## Autumn Flowering Iris Pumila

Flowering Two or More Times Each Season

We Furnish Substantial Clumps With Several Crowns

These autumn-flowering Irises have two or more normal flowering seasons each year. They blossom in the spring along with other early flowering varieties and again in the autumn, beginning in September and continuing until killed by heavy frosts. Some of them also flower intermittently throughout the year.

### Autumn Queen

Three \$1.45, Doz. \$4.75  
This is a reliable spring and fall bloomer. A pure snow-white. It belongs in almost the same class as Jean Siret and Lieut. Chavagnac so far as size and height are concerned, but is a little larger and a little taller.

### Jean Siret

Three \$1.45, Doz. \$4.75  
This variety and Lieut. Chavagnac are the most persistent bloomers of the Iris family. They begin to flower quite early in the spring with the earliest miniatures and have a long spring-flowering season. They also have an equally long autumn-flowering season. Clear chrome-yellow.

### Lieut. Chavagnac

Three \$1.45, Doz. \$4.75  
A new everblooming, fragrant, violet colored variety, with the same qualities as Jean Siret. The two go well together.

### Olive White

Three \$1.45, Doz. \$4.75  
This is a good cream colored spring and fall bloomer.

# Paeonias - Peonies

## VOTED THE FINEST

The numbers or RATINGS given immediately below the name are the averages tabulated from the votes of the members of the American Peony Society throughout America and Canada. Ten is highest possible score; none under seven are offered. This list contains the best only.

|   |                                     |   |                                     |
|---|-------------------------------------|---|-------------------------------------|
| <b>Albert Crousse</b>   | 3-5 Eyes, Each \$1.00, Doz. \$10.00 | <b>Lady Alexandra Duff</b>  | 3-5 Eyes, Each \$1.25, Doz. \$12.50 |
| (8.6) Very fresh salmon-pink, delicate color. Large, compact bomb shape; fragrant; erect; medium height. Late.  |                                     | (9.1) An immense, loosely built flower with great broad, rounded petals. A pale blush-pink, fading to white, with yellow stamens. When not disbudded, the central flower is loosely double, of a rather flattened, circular form; central petals touched with carmine. A beautifully formed flower; sweet scented. Very floriferous. Very showy. Opening after the central flower, the side flowers come semi-double. |                                     |
| <b>Auguste Dessert</b>  | 3-5 Eyes, Each \$1.50, Doz. \$15.00 | <b>Le Cygne</b>   | 3-5 Eyes, Each \$2.50, Doz. \$25.00 |
| (8.7) A large midseason rose-red, with large round petals, each edged with a distinct narrow silver border. Plant of medium height and a prolific bloomer. A brilliant light rose-red that is very distinct in color and form, and a most desirable sort.                 |                                     | (9.9) Very large, perfectly formed flower, freely produced; cream-white with a touch of green at the heart. The finest white. Received the highest rating of any Peony.   |                                     |
| <b>Baroness Schroeder</b>   | 3-5 Eyes, Each \$1.25, Doz. \$12.50 | <b>Longfellow</b>   | 3-5 Eyes, Each \$1.25, Doz. \$12.50 |
| (9.0) Rose type; late. White with shadings of flesh. This is one of the finest Peonies. Its immense flowers of great substance with high chalice-shaped center are freely produced, lasting a long time. Very fragrant.   |                                     | (9.0) Everyone concedes Longfellow one of the most popular red Peonies because of its distinct, fadeless color and general dependability, both for cutting and garden decoration. It is as striking in the field as in the show room. It comes into bloom early midseason. The plant has excellent foliage and strong, stiff stems. The flower is a bright crimson and is always found among the winning classes.     |                                     |
| <b>Edulis Superba</b>   | 3-5 Eyes, Each 90c, Doz. \$9.00     | <b>Marie Crousse</b>  | 3-5 Eyes, Each \$1.50, Doz. \$15.00 |
| (7.6) Dark pink, even color; large, loose, flat crown when fully open. Very fragrant; upright growth; early bloomer. One of the best commercial Peonies. There is much confusion over this variety being sold under twenty or more different names.                       |                                     | (8.9) The nearest to salmon-pink in Peonies. A most lovely variety. Tall stem and beautifully formed flowers of a charming shade of salmon-pink. Blooms midseason.  |                                     |
| <b>Felix Crousse</b>  | 3-5 Eyes, Each \$1.25, Doz. \$12.50 | <b>Mary Brand</b>   | 3-5 Eyes, Each \$1.25, Doz. \$12.50 |
| (8.4) A deep rose-red showing no stamens. Consists of a central bomb of incurved petals surrounded by broad, prominent guard petals. A good all-purpose late red, the same type as the early red, Richard Carvel.   |                                     | (8.7) No red Peony ever won favor so quickly as Mary Brand. Always found among the winning reds in every show room. Comes into bloom with Frances Willard. Color so distinct it is easily recognized by amateurs, no matter how often they find it in our fields. A red in which there is little trace of purple. One of the most satisfactory reds as a cut flower as it will last a week if cut in the bud.         |                                     |
| <b>Frances Willard</b>  | 3-5 Eyes, Each \$1.50, Doz. \$15.00 | <b>Mons. Martin Cahuzac</b>   | 3-5 Eyes, Each \$1.75, Doz. \$17.50 |
| (9.1) Rose type; opens an exquisite blush-white, with an occasional carmine touch, changing to pure white. Listed among the world's twenty most beautiful Peonies.  |                                     | (8.8) Medium size, globular, semi-rose type. Dark purple-garnet with black reflex. The darkest Peony known. Strong, vigorous grower, free bloomer; midseason.   |                                     |
| <b>Festiva Maxima</b>   | 3-5 Eyes, Each \$1.25, Doz. \$12.50 | <b>Mons. Jules Elie</b>   | 3-5 Eyes, Each \$1.50, Doz. \$15.00 |
| (9.3) Paper-white, crimson markings in center. Very large and full rose type; very tall, strong growth. Early.  |                                     | (9.2) A beautiful silvery pink. Broad reflexing guards with a high pyramidal body of semi-quilled petals converging to an apex. One of the largest, handsomest and most lasting cutting sorts in existence.   |                                     |
| <b>Karl Rosenfield</b>  | 3-5 Eyes, Each \$1.00, Doz. \$10.00 | <b>Martha Bulloch</b>   | 3-5 Eyes, Each \$1.50, Doz. \$15.00 |
| (8.8) Very large flower; globular, semi-rose type. Extremely vigorous grower, tall, and free flowering. As an early red it has no equal.  |                                     | (9.0) Mammoth cup-shaped blossoms often 9 to 12 inches across. The largest of the good Peonies. Deep rose-pink in the center, shading to silvery shell-pink in the outer petals. Stalks strong and erect.   |                                     |
| <b>Kelway's Glorious</b>  | 3-5 Eyes, Each \$2.50, Doz. \$25.00 | <b>Philippe Rivoire</b>   | 3-5 Eyes, Each \$2.50, Doz. \$25.00 |
| (Kelway, 1909) (9.8) Buds slightly tinted pink, opening into large blossoms of iridescent white. Fragrant. Late midseason. This is undoubtedly one of the finest Peonies.   |                                     | (9.2) A very bright rich crimson coming into bloom late midseason. The beautiful form of this flower and its uniform soft rich color make it a flower loved by all who see it. This is a fine show flower and is absolutely void of stamens. It has a pleasing fragrance and is the highest rated of any red Peony.   |                                     |
| <b>Kelway's Queen</b>   | Sold out for this season            | <b>President Roosevelt</b>  | 3-5 Eyes, Each 90c, Doz. \$9.00     |
| (8.8) Pink. A large, compact, rose type flower of uniform mauve, with center flecked crimson. A tall, strong grower, very profuse bloomer. Late midseason. One of the Kelway's finest. Very distinct color, a great show flower.  |                                     | (8.8) A brilliant and striking variety, coming into bloom early midseason. Flowers very large, semi-rose type, and richly fragrant. Desirable as a cut flower, a garden variety, and a show flower.   |                                     |
| <b>Anemone-Flowered Peony</b>   |                                     |   |                                     |
|   |                                     |   |                                     |
| <b>Reine Hortense</b>   | 3-5 Eyes, Each \$1.00, Doz. \$10.00 | <b>Primevere</b>  | 3-5 Eyes, Each \$1.50, Doz. \$15.00 |
| (8.7) A uniform Hydrangea-pink, with guard and center petals marked crimson. This is a variety that gives universal satisfaction and is both a show and garden variety. The plant is tall with long, stiff stems. The flowers are slightly fragrant. A midseason variety. |                                     | (Lemoine, 1907) (8.6) Guard petals deep creamy yellow and center petals sulphur-yellow. If not exposed to the full sun the flowers will hold a canary-yellow which is most attractive. Very fine. Midseason.  |                                     |
| <b>Richard Carvel</b>   | 3-5 Eyes, Each \$1.50, Doz. \$15.00 | <b>Solange</b>  | 3-5 Eyes, Each \$1.50, Doz. \$15.00 |
| One of the best early reds which we have. Large, bomb-shaped blooms of the same style as Felix Crousse but better in color.   |                                     | (9.7) Flower very large, compact; rose type; outer petals delicate waxy white, deepening toward the center with shades of orange and golden brown. One of the most beautiful Peonies in existence; a strong grower and a late, free bloomer.  |                                     |
| <b>Sarah Bernhardt</b>  | 3-5 Eyes, Each \$1.50, Doz. \$15.00 | <b>Therese</b>  | 3-5 Eyes, Each \$1.50, Doz. \$15.00 |
| (9.0) Apple-blossom-pink, very free blooming and flowers of perfect form on graceful stems. This is the ideal pink cut flower Peony.  |                                     | (9.8) A most desirable variety of a charming shade of violet-rose, changing to lilac-white. Develops a high crown; strong grower and very free bloomer. One of the best midseason sorts.  |                                     |
| <b>Solange</b>  | 3-5 Eyes, Each \$1.50, Doz. \$15.00 | <b>Walter Faxon</b>   | 3-5 Eyes, Each \$1.50, Doz. \$15.00 |
| (9.7) Flower very large, compact; rose type; outer petals delicate waxy white, deepening toward the center with shades of orange and golden brown. One of the most beautiful Peonies in existence; a strong grower and a late, free bloomer.                              |                                     | (9.3) Semi-rose type; midseason. A very distinct, delicate rose colored flower. Tall, free bloomer. Those who know this variety consider it one of the best pure pinks.   |                                     |

### PAEONIA OFFICINALIS (Early Peony)

*Officinalis rubra fl.pl.*

Each \$1.25, Doz. \$12.50  
The old-fashioned early red, that even in our latitude blooms before Decoration Day.

## PAEONIA MOUTAN - Chinese Tree Peonies

The Tree Peony is really one of the finest plants available for the garden. It is quite hardy, and does well under the simplest treatment. It flourishes in the most astonishing manner, bearing blossoms from 6 to 8 inches across, which increase every year in beauty and size. They are a grand addition to the garden, as they do not die down to the ground like the herbaceous sorts, but make fine bushes 3 to 4 feet in height, covered every spring with elegant flowers.

**Culture:** It is advisable to avoid wind-swept locations and to protect the early bloom buds in case of late spring frosts. The south or east side of a planting of evergreens, shrubs, wall or building, is a very good location for Tree Peonies. Mulching is advisable the first winter after transplanting. Apply mulch of light material after ground is frozen solid. Any good well drained garden soil is satisfactory. Never cut back woody branches.

**Archiduc Ludovico** *Each, pot \$3.50, field \$7.00*  
Enormous wide flower, double, flesh-pink, turning soft lilac.

**Athlete** *Each, pot \$3.50, field \$7.00*  
Immense double flower of fine glazed mauve, shaded rose; vigorous and prolific grower. Blooms very freely.

**Banksi** *Each, pot \$2.00, field \$4.00*  
Semi-double; pale lilac-rose. Very free flowering variety. Easily grown.

**Chromatella** *Each, pot \$15.00, field \$25.00*  
This striking novelty is a sport from the beautiful variety Souvenir de Maxime Cornu. Color a pure sulphur-yellow without any shade of salmon or buff. The flower is full double. One of the choicest plants for the garden in existence.

**Comtesse de Tudor** *Each, pot \$4.00, field \$7.50*  
Lively salmon, petals tipped satiny white; fine full double flower; free bloomer. Lovely sparkling variety.

**La Lorraine** *Each, pot \$6.00*  
A cross between Paeonia Lutea and a variety of Paeonia Moutan. Large, well expanded full double flowers of good substance; the petals nearly imbricated, being of a soft sulphur-yellow with a salmon tinge when opening, becoming lighter and purer when fully expanded. (Awarded a Work of Art at the Paris Horticultural Exhibition in 1909, awarded first-class silver medal at the Ghent Quinquennial Exhibition 1913, first class certificate from the Floral Committee of the Royal Horticultural Society, May 14, 1913.) A true jewel for the garden.

**Mme. de Vatry** *Each, pot \$3.50, field \$7.00*  
Very large globular bloom; satiny pink, shaded lilac, vigorous grower.

**Reine Elizabeth** *Each, pot \$4.00*  
Flower perfect in shape, vivid salmon-pink. A brilliant color; considered amongst the finest of all double Tree Peonies. A-1 plant.

**Souvenir de Ducher** *Each, pot \$4.50*  
Large, globular bloom; bright reddish violet with silvery reflex.

**Souvenir de Maxime Cornu** *Sold out for this season*  
A vigorous variety, raised by L. Henry at the Paris Museum from Paeonia Lutea hybridized with Paeonia Moutan, Ville de Saint-Denis. It forms a bush 3 to 4 feet high with abundant and healthy foliage, every stem carries 2 or 3 full flowers, 8 inches or more across, with crowned and wrinkled petals, of a deep yellow, heavily shaded orange.

**Surprise** *Each, pot \$7.50*  
A tall, vigorous variety; flowers carried by strong stalks, very large and full; the color is a combination of straw-yellow, pale salmon and rosy purple, of a very novel character. Fragrant.

Paeonia Moutan (Tree Peony), Reine Elizabeth

**Tree Peonies furnished growing in 5-inch pots: The pot-grown plants establish quickly and usually bloom the second year after planting. They are now two years old. Field-grown plants are four years old. Avoid commercial chemical fertilizers.**

## Graceful Anemone-Flowered Peonies

*A type not very generally known, but awakening great interest and enthusiasm. The opened flowers are of extra wide spread, with one or more layers of broad guard petals which act as a cup to the mounted center. In place of the pollen-bearing stamens, the stamens and anthers are greatly enlarged into narrow, thick, twisted petaloids of various colors, forming a dense cushion. They produce an enormous amount of flowers, creating a riot of color in the garden and are superb for cutting, lasting longer than the double flowers.*

**Camille** *Each 90c, Doz. \$9.00*  
Deep Oriental red with violet sheen. Flower of very large proportions, semi-double to single in appearance. Striking center of golden stamens. Robust grower and extremely free flowering. Great for cutting and colorful garden effects.

**Dai-Jo-Kuhan** *Each 90c, Doz. \$9.00*  
A wonderfully graceful Peony. The large flowers are deep rose paling at the edges with bright yellow crest, giving a fine contrast. It is an outstanding flower of lasting qualities. As many as 4 to 6 on one stem. It makes a beautiful show in the garden and one of the best for cutting.

**Eva** *Each 90c, Doz. \$9.00*  
Bright light crimson flowers with lilac overtone. A very lively and artistic shade. Outstanding are the large round petals, making the flower look like a large Tulip. It flowers unusually free and is an outstanding kind for garden planting, not too tall. It fits well in the hardy border.

**Francoise** *Sold out for this season*  
Bright rose. Two rows of petals. Center composed of petaloids which, when the flower opens, are of a yellowish white shade, edged yellow. While the flower develops, the petaloids take on the same shade as the guard petals. An excellent variety.

**La Fraicheur** *Each \$1.25, Doz. \$12.50*  
Produces clusters of fine and substantial flowers. Often 5 to 6 on a single stem. They are clear blush-pink with fine center of yellow stamens. Excellent cut flower variety, lasting well in water. In the garden it makes an attractive colorful effect, good grower and fine habit.

**L'Eincelante** *Each \$1.25, Doz. \$12.50*  
Semi-double to single in appearance with petals deep rose, inner petals pale rose, white at edges, golden crest of stamens. Large blooms, in clusters of 4 or 5 on one stem, a bouquet in itself. A very showy variety for the garden and handsome as a cut flower.

**Lucienne** *Each \$1.00, Doz. \$10.00*  
White flowers with purple reflex and golden yellow center. The four to five flowers on a single stem make a wonderful show in the garden as well as cut. An unusually free bloomer and rugged grower.

**Mikado** *Each \$1.25, Doz. \$12.50*  
A rich red with long, rounded petals of brilliant red surrounding a great dome of golden staminodes. Exceedingly brilliant.

**Nagasaki** *Each \$1.00, Doz. \$10.00*  
Handsome light pink flowers in clusters of 4 to 6 on a single stem. Its dark foliage and robust growth make this a favorite for garden planting as well as for cutting.

**Nympha** *Each \$1.00, Doz. \$10.00*  
Bright flesh-pink flowers of unusually large size made very handsome by the fine center cluster of golden stamens. A-1 for cutting and garden use.

**Ruigegno** *Each 90c, Doz. \$9.00*  
A double row of clear red petals with a large center of golden petaloids make this an outstanding kind. There are four to five big blooms on a single stem so that a well established clump makes a magnificent show in the garden. It is rugged and very free blooming.

**Shi-Pen-Kue** *Each 90c, Doz. \$9.00*  
A handsome and distinct Peony. The flowers are made up from heavy round petals of a most unusual purplish blue tint which serve as an artistic background for the large clusters of thick golden petaloids in the center of the flower. Several flowers occur on one stem and the plant is exceedingly free flowering, creating quite an effect in the garden. Handsome for cutting as well.

**Taikoon** *Each \$1.00, Doz. \$10.00*  
The blood-red flowers and their showy centers are very effective, particularly against a background of evergreens or dark foliage. Make a striking show always because it is a free bloomer and strong grower.

# Leonian Hybrid Hemerocallis

If the value of a plant is to be judged by the aggregate qualities of hardiness, floriferousness, beauty and complaisance under almost any circumstances, then the Day Lily must be placed among the elect.

By crossing numerous species and hybrids, and recrossing and reselecting the plants produced in an almost endless process into fourth and fifth generations, Dr. Leonian has created the most remarkable series now in existence.

In height they vary from 3 to 4 feet. They stand on stalwart stems. Their flowers are of every shade, from deepest burnt orange through flaming orange-red into amazing tints of pastel old rose and maroon shades, all with a clean and pleasant fragrance.

This marvelous collection of Hybrid Day Lilies has been growing and increasing at Wayside for three years, and we are now ready to

offer some of these plants to our customers. We are going to distribute them unnamed and in units of 6 hybrid plants, 12 hybrid plants and 25 hybrid plants. The price asked will permit you to buy freely. They will be carefully dug and bundled so as to avoid duplication. What you now own in Day Lilies does not matter. What you will receive will be entirely different in color. Dr. Leonian's Hybrids contain no yellows but are a fine lot of seedlings of fascinating colors. And it is almost certain you will find several amongst those you buy that your friends and neighbors will want to purchase divisions of at a substantial profit to you.

Unit of 6 plants Leonian Hybrid Hemerocallis for \$ 4.00

Unit of 12 plants Leonian Hybrid Hemerocallis for 7.50

Unit of 25 plants Leonian Hybrid Hemerocallis for 14.00

## Helleborus

### CHRISTMAS ROSE and LENTEN ROSE

There are two distinct types: one, Christmas Rose, flowering in late winter, and the other, Lenten Rose, in spring. Both are valuable for garden decoration because of their flowering during the dull period of the year.

#### Helleborus altifolius (Improved Niger)

Each \$1.20, Three \$3.30, Doz. \$10.00

Helleborus grow about 12 to 16 inches high and have handsome evergreen, palmlike foliage. Very leathery in texture and dark green in color. During December, January or February, depending on the locality where grown, they have large single white, bell-like flowers which frost does not affect. They last for a month or more and are produced regardless of cold or snow. For hardiness they cannot be improved upon and are able to withstand many degrees below zero. Helleborus are frequently grown in small cold frames on which the glass is placed only from November until after flowering sometime in February, the glass covering keeping the white flowers spotlessly clean. We offer nice 2-year-old plants of this rare variety.

#### Helleborus Altifolius

## Hemerocallis - Lemon Lilies

Beautiful hardy perennials belonging to the Lily order. For generations great favorites in all gardens, both here and abroad. The numerous species have long, narrow leaves and yellow or orange flowers, many of which possess a delicious fragrance. Very graceful and stately plants for the waterside, naturalizing in grass, or growing in the partially shaded border.

**Culture:** Any kind of soil will grow these plants successfully. They prefer partial shade, but do excellently in full sun. May be grown singly or in masses. Plant one to two feet apart in autumn or spring. Lift, divide and replant every third year to ensure the plants flowering freely.

#### Hyperion

Each \$1.00, Three \$2.75, Doz. \$8.50

The giant Amaryllis-like flowers of Hyperion are citron-yellow and delightfully fragrant. It is one of the most prolific flowering plants ever seen. The stems are gracefully thin and have exceptional substance, about 40 inches tall, carrying delicately sparkling clusters of flowers, the soft color of which "carries" a great distance. Experts, as well as amateurs, consider Hyperion the **finest pale yellow** Hemerocallis available at a moderate price. Few plants surpass the beauty and vigor of a well flowered clump of this wonderful Day Lily. It received an Award of Merit of the Royal Horticultural Society of Great Britain. Its graceful arching foliage always looks handsome. The flower buds open well in water. It is perfectly hardy, grows in dry, wet, sunny, or shady places. Blooms in July and August. Plant it any time, anywhere!

#### Dr. Regel

Three \$1.45, Doz. \$4.75, 100 \$25.00  
Handsome, rich orange-yellow flowers in early May and June. Very fragrant. Fine for cutting. 1 1/2 feet.

#### Flava

Three \$1.45, Doz. \$4.75, 100 \$25.00  
Sweet scented, clear full yellow; 2 1/2 feet. Flower in June in great profusion.

#### J. A. Crawford

Three \$1.45, Doz. \$4.75, 100 \$25.00  
Rich apricot-yellow shaded with light cadmium. Many flowers on 4-foot stems; at their best about late June, flowering until end of July. A lovely plant which looks well in light shade.

#### Lemona

Each 60c, Three \$1.50, Doz. \$5.00, 100 \$30.00  
Delicate and pale lemon-yellow flowers on 4 1/2-foot stems. Blooms are at their best July 1st. One of the finest large blooms, much like a large Japanese Iris in form.

#### Mrs. W. H. Wyman

Each 60c, Three \$1.50, Doz. \$5.00, 100 \$30.00  
Lovely light pale lemon-yellow flowers on 4-foot stems. In full bloom August 1st. Very free flowering and lasts a long time. One of the latest to bloom.

#### The Gem

Three \$1.45, Doz. \$4.75, 100 \$25.00  
Rich, deep orange-yellow flowers on 3 1/2- to 4-foot stems. In full bloom June 20th. Very finely formed bloom, equal to the best Lilies; truly a gem.

## FOOD FOR THOUGHT

### As Well as for Your Flowers

Plants, anything that grows in the soil, are exactly the same in their food needs as humans. There are plenty of what might be called the shot-in-the-arm kinds of ready mixed fertilizers. But, they are mostly only stimulants.

What your plants need is a balanced organic food. Not just a stimulant. They need one containing in right amounts, those things that make plenty of strong roots, produce good sturdy stalks, thrifty foliage and an abundance of good sized blooms.

That's exactly the kind of Plant Food we use at Wayside. Much of our success in growing such unfailingly fine plants is due to it.

What it has done, and is doing for our 600 miles of plants, it will do for your garden.

Turn to page 23 and get the full facts about it.

## *Leonian Hybrid Hemerocallis*

The flowers illustrated above portray only in a very limited way the riot of colors and variations of the Leonian Hybrid Hemerocallis. There are hardly any two alike, but we can not pick out any specific colors or forms for you, so please do not ask us to do so. We can supply them only in a mixture. Beautiful though they will be the first year, you will be amazed at their magnificence the second and third year when the well established plants come to perfection.

# Papaver Orientale - Oriental Poppy

Oriental Poppies are the regal representatives of this popular genus, growing 3 to 3½ feet high, and far surpassing in splendor of bloom all the annual kinds. For a gorgeous display of rich and brilliant coloring nothing equals them during their period of flowering in May and June, and whether planted singly or in masses, their large flowers and freedom of bloom render them conspicuous in any position.

## Oriente

(Oriental Poppy.) Tremendous cup-shaped blooms of brightest crimson-scarlet, with large, purplish black blotches at base of petals, creating a wonderful contrast when bloom is fully open. Clumps of these throughout the border add a brilliancy that no other flower can provide.

## Australia

Large massive and substantial flowers of oxblood or spectrum-red on rigid, tall 42-inch stems. This fine red variety is an Australian introduction.

## Barr's White

Large pure white flowers with purplish black spots. This is a free blooming and healthy grower.

## Beauty of Livermore

The finest dark crimson with black blotch; fine flowers freely produced.

## Cavalier

One of Dr. Neeley's latest and best. Strong grower and free bloomer. Flowers are crinkly and deep scarlet-red.

## Crimson Pompon (Double) (1945 introduction)

Each 75c, Three \$2.00, Doz. \$6.00

Blood-red, pompon-like flowers, fully double. The first double Poppy in a really red shade. It is of medium height, multiplies readily and flowers very freely. This is a Dutch introduction of which we were fortunate in obtaining a few plants just before the war and now have sufficient stock available for introduction. You'll want to add this to your collection. The first Poppy to bloom in spring.

## Enchantress

Each 60c, Three \$1.50, Doz. \$5.00

A lovely soft rose, an enchanting delicate shade. Here again one of the best and possibly "tops" in this color which comes to perfection if the plant is grown in light shade. Very good grower and free flowering.

## Gold of Ophir

Each 60c, Three \$1.50, Doz. \$5.00

A Poppy of medium height, about 24 to 28 inches, coming to perfection when two years old or more. The flowers are golden orange. This tone of golden orange becomes more pronounced as the plant grows older. Unique.

Salmon Glow

**CULTURE:** Almost any kind of soil suits them, but they do best in deep rich loam. Set the plants out in the fall or early spring before the first of May, twelve inches apart. Give them water occasionally during dry spells in the early part of the season. Mulch with dry litter to prevent crown rot in the fall; and they will increase in size and floriferousness for several years. The proper planting season for field-grown roots of Poppies is during the last of August, September and October. In spring, strong plants are supplied in pots to insure success.

## Helen Elizabeth

Each 60c, Three \$1.50, Doz. \$5.00

Considered by many as the best pink. It is a rugged grower. The straight 34-inch stems are topped by La-France-pink flowers without dark spots. We also think it one of the best.

## Henri Cayeux Improved

Each 60c, Three \$1.50, Doz. \$5.00

Much larger flowers than Henri Cayeux but otherwise similar. The big blooms are a peculiar tint of ashes of roses or an old rose shaded burgundy. If grown in light shade this flower really comes to perfection.

## Jeanne Mawson

Each 60c, Three \$1.50, Doz. \$5.00

Tall, erect growing variety. Flowers are large and sparkling geranium-pink. Unquestionably a beauty.

## Joyce

Each 55c, Three \$1.45, Doz. \$4.75

Charming soft red flowers in great abundance on 48-inch stems of exceptionally sturdy growth.

## Lula A. Neeley

Each 75c, Three \$2.00, Doz. \$6.00

Good strong stems support flowers of brilliant oxblood-red, the color holding until the last. This variety is becoming most popular.

## Mahony Improved (1945 Introduction)

Each 75c, Three \$2.00, Doz. \$6.00

Larger than the old favorite and a much better grower and more free blooming variety. This beautiful mahogany color is badly needed and for that reason the old Mahogany was always in demand. We have now discontinued this and are introducing Mahony Improved in its place. It grows well, blooms freely, and its flowers are distinct and handsome.

## May Sadler

Each 60c, Three \$1.50, Doz. \$5.00

Salmon-pink with black markings. We believe it one of the finest of the pink sorts because of its large flowers and robust growth.

## Mrs. Perry

Each 55c, Three \$1.45, Doz. \$4.75

Orange-apricot; a very fine variety.

## Orange Perfection

Each 60c, Three \$1.50, Doz. \$5.00

A new variety from Europe. A strong grower with orange-tinted flame-red flowers; very free flowering.

## Perry's White

Each 75c, Three \$2.00, Doz. \$6.00

The flowers are a fine satiny white with a crimson-maroon blotch at the base of each petal.

## Pink Radiance

Each 60c, Three \$1.50, Doz. \$5.00

A delightfully fine radiant pink flower on stiff stem. It is a free bloomer and of easy culture. Height 30 inches.

## Purity

Each 60c, Three \$1.50, Doz. \$5.00

Considered by many to be the finest of all pink Poppies. Color pure soft pink without any spots or markings. Very free flowering.

## Salmon Glow (Double)

Each 75c, Three \$2.00, Doz. \$6.00

A fine double salmon-orange not to be confused with Olympia. The flowers are exceptionally large, fully 8 inches across. It is a Dutch origination and selected for the Wisley trials. It received a first-class certificate in Holland and is spoken of as a beautiful double salmon-orange. Strong, upright growing Poppy. It was much admired in our nursery.

## Sass Pink (True)

Each 75c, Three \$2.00, Doz. \$6.00

No doubt one of the finest and largest pink Poppies. The immense blooms are of fine crepy texture and of a lovely light delicate flesh-pink shade with gray-mauve center.

## Toreador

Each 60c, Three \$1.50, Doz. \$5.00

Beautiful crinkly carmine-red flowers 9 inches across, handsome marking at the base. Good grower, one of the best of the dark red Poppies. Grows about 30 inches tall.

## Watermelon (1945 Introduction)

Each 75c, Three \$2.00, Doz. \$6.00

This new Poppy is liked by everyone who sees it. The flowers are 6 to 7 inches across and about three shades deeper in color than Wunderkind, grow on 30-inch stems and flowers are produced in liberal quantities. Here is a charming Poppy and again a really worth-while color addition.

## Wunderkind (True)

Each 75c, Three \$2.00, Doz. \$6.00

Considered the finest cerise colored Poppy, true Begonia-rose. Strong grower with very large flowers on 33- to 35-inch stems. The plant looks sturdy and is a good grower. Flowers keep well when cut.

## Wurtembergia

Each 60c, Three \$1.50, Doz. \$5.00

A striking flower of great size and substance. Brilliant glowing rose-red.

## SENSATIONAL NEW BICOLOR POPPY

### *Snowflame*

(Plant Patent No. 365)

"A sensational break in Poppies" is what an expert said when he saw *Snowflame* in bloom the first time in our nursery. The lower half of the flower is pure white, the upper half a flame-orange, creating a most unusual and brilliant effect. The orange band of the upper half of the petals varies considerably in width with each flower, helping to increase the charm of this rare variety. Happily, *Snowflame* is a very strong grower, and blooms freely. It is not subject to any ailments or insect pests. In fact, it is one of the strongest growing varieties we have. The flowers are large and grow on stiff stems. A few clumps of Poppy *Snowflame* in your garden will create nothing short of a sensation. We send, in the spring, strong plants in 2½-inch pots. From August until the end of the fall planting season, we send field-grown roots. The pot plants are vigorous and most of them will bloom the first year.

Each 75c, Three \$2.00, Doz. \$6.00

Papaver,  
*Snowflame*

### *Curtis Giant Poppies*

FLOWERS 10 TO 12 INCHES ACROSS ON STEMS 3½ TO 4 FEET TALL

Curtis Giant  
Mulberry  
Poppy

Mr. E. A. Curtis of Cincinnati, Ohio, the originator of these Giants, has arranged with us for the exclusive distribution of his plants. Only a limited number are available for this season. Therefore, order promptly.

Much careful breeding and selecting has resulted in the development of this wonderful strain of hardy Oriental Poppies and we predict they will replace now existing varieties of similar color. Their growth, requirements, habits, and flowering time are the same as all other hardy Poppies, only they are almost twice as large and tall.

#### Curtis Giant Flesh Pink

Each 75c, Three \$2.00, Doz. \$6.00

A mammoth sized Poppy. The flower is flesh-pink, slightly tinted lavender; blooms are 9½ inches across on stems 3 feet high. One of the fine attributes of the variety is that it also grows exceedingly well in shade.

#### Curtis Giant Mulberry

Each 75c, Three \$2.00, Doz. \$6.00

Big, 8-inch flowers on 3-foot stems of a most distinct and different shade. Quite a good deal lighter than Mahony with rich shadings of mulberry. A splendid addition to the still limited range of colors in Poppies. Excellent grower.

#### Curtis Giant Salmon Pink

Each 75c, Three \$2.00, Doz. \$6.00

A rugged grower; 3-foot stems and 8-inch blooms of the most pleasing salmon-pink, showing more pink than salmon. This, while not the biggest of the Giants, is without doubt one of the best.

#### Curtis Giant Flame

Each 75c, Three \$2.00, Doz. \$6.00

Established plants grow flowers 11 inches across, on 4-foot stems. The giant blazing red flowers are immense and almost barbaric in appearance. This is the biggest of the Giants and as a visitor expressed it well, looks like a good sized fire in the garden.

Orange Perfection

Helen Elizabeth

# A New Barberry

## Drought Resistant Mentor Barberry

**BERBERIS MENTORENSIS** (Plant Patent No. 99)

It has very stiff, upright growing branches and quite formidable thorns. Its foliage is heavy and thick, and of perfect color—a green as dark as the Japanese Yew. In hot and dry seasons or in locations where high temperatures go hand in hand with lack of rain, it never shows any signs of rust and discoloration of foliage no matter how hot or dry it may be. Ultimate height about five feet. In Ohio the leaves remain green until after the holidays. Plants growing in Kansas, Oklahoma, Utah, and the Southwest retain their foliage, and there Berberis Mentorensis is evergreen and considered **the finest evergreen plant for hedges**. It is amazingly satisfactory growing around airways or close to dry foundation walls, and does an outstanding job in city gardens, either in single specimens or as a hedge. Its unusual ability to withstand heat and drought is nothing short of wonderful. During the hottest and driest weather there is never any sign of wilting or burning, much to the amazement of everyone. Always good and clean looking, upright in growth, easy upkeep (requires really no pruning), and its tenacious foliage, more than compensates for the lack of berries. We heartily recommend Berberis Mentorensis to you. For hedge use plant in single rows, 12 to 15 inches apart for best effects. Ultimate height, 5 to 6 feet.

**First**—It is evergreen practically the year round. Think what that means. **Second**—Its sturdy, erect growth carries a thick dark green foliage right down to the ground. Is never bare-legged. **Third**—When used for a hedge, its thorny, strong growth forms a formidable barrier to man or beast. **Fourth**—Needs no pruning. It is of erect growth which becomes dense when the plant is three or four years old. No upkeep! No pruning! **Fifth**—Combined in a foundation planting with evergreens, it provides a beautiful and artistic contrast at very small expense and without elaborate preparation of soil. **Sixth**—Is not "choosy" about where it grows. No matter if you can't make other broad-leaf evergreens, such as Azaleas and Rhododendrons, thrive in your soil, this new Barberry will. It is equally at home whether it is acid or alkaline soil.

# Choice Flowering Shrubs

## And Small Ornamental Trees

In most gardens, particularly those started many years ago, one is apt to find big, overgrown shrubs of little value, taking up a lot of room. Their long roots reach out for moisture and plant food needed by more valuable flowers growing nearby. Often, too, their branches cast heavy shade, preventing sun-loving flowers from developing to their full beauty. Such overgrown and out-of-size bushes should be promptly removed and replaced with more suitable kinds.

The removal of overgrown and undesirable material and replacing it with new and appropriate plants is a "face lifting" for a garden. Changes outdoors give you the pleasant sensation of having acquired a new garden and there is nothing like "a change" to boost us along.

The list of shrubs and small flowering trees offered on the following pages is decidedly one suited for the small garden where every square foot counts. It contains the very best and most colorful new things, many not found in the average nursery.

Among them are the remarkable new Cotoneasters brought from China by Wilson, which he called "the Queen of Shrubdom." Interesting in a unique individuality of growth, flowers and colorful fruit.

Another one that's particularly worthy is the Flowering Crab. Far superior in so many ways to the Japanese Cherry trees, which can't approach them in color and beauty of bloom and hardiness.

Lemoine's new Mock Oranges and new Lilacs, as well as the new Weigelas, new Viburnums and Daphnes, make this listing one of the choicest in America.

If you, therefore, seek the newest and finest in flowering shrubs and trees, Wayside has selected them for you.

### ALTHEA; HIBISCUS - Rose of Sharon

Erect growing shrubs of stately and formal shape, particularly well suited for screens or specimens in the shrub border. They bloom from July to frost and give color when most other shrubs have finished blooming. We offer three beautiful varieties of recent introduction, practically unknown, and in our estimation the three best. Their ultimate height is about 10 feet.

#### Celestial Blue

Each 90c, Three \$2.60, Doz. \$7.25

A magnificent, distinct and truly blue Althea. The gorgeous single disk-like blue flowers are produced in large amounts. Planted with our white variety, Snowdrift, it makes a most handsome color effect in the summer border. Plants we send out will bloom this year.

#### Snowdrift

Each 90c, Three \$2.60, Doz. \$7.25

Giant single, disklike, pure white flowers fully 4 inches across. The flowers open flat and are produced in great numbers from early July until frost. The plants we send out will bloom the first year.

#### Rubis

Each 90c, Three \$2.60, Doz. \$7.25

Very large, wide-open, deep rose-pink flowers with deeper center. The best and most brilliant of the pink shaded Althea. Infinitely better than the ordinary double varieties in common use.

### CALICARPA - Violet Jewel Berry

#### Purpurea

Each \$1.00, Three \$2.75, Doz. \$8.50

Gracefully recurring branches, covered in August with thousands of closely set, small, pink tinted flowers. These are followed in late September by masses of violet-purple berries which last until mid-winter. There are few shrubs which give as much pleasure in the garden or which are so satisfactory for cutting. Ultimate height about five feet. We offer nice plants that will bear fruit at once.

### CALYCANTHUS

#### Floridus

Each \$1.50, Three \$4.00, Doz. \$15.00

Few shrubs are so well known as the Carolina Allspice. In fact, over a large part of the United States it is called "Shrub" or "Shrub Bush" without any other qualification. In some places it is referred to as the "Sweet-Scented Shrub," the "Sweet Shrub," or the "Strawberry Shrub." The handsome, dark red-brown flowers are produced in early spring. They are deliciously fragrant, especially when wilted, and school-boys frequently fill their pockets with them, carrying them about until they are shriveled husks. The curious large pods which follow are full of smooth, brown seeds, like coffee beans, which are elusively aromatic when rubbed in the hands and often used as counters in children's games. During the summer, the plant is neat and very handsome, with glossy, corrugated foliage. It grows 4 to 5 feet high, and in time will spread over an area equally broad.

Azalea Pontica—Hardy Ghent Azaleas

## Azaleas

Just as the Rhododendron is the king of the Evergreen Shrubs, so are its cousins, the Azaleas, the aristocrats of the Deciduous Shrubs. In color, the Azaleas give an assortment of hues in much wider range than in the Rhododendrons—and flowering periods from mid-April to early July. While classed as acid soil plants they thrive in soils of considerable range, particularly the Asiatic sorts, which even prefer some lime in the soil. The opportunities for using deciduous Azaleas are almost unlimited. Their graceful habit appears to good advantage in informal plantings either in wooded areas or in shrub borders, while many are most decorative used in the foundation planting where evergreens create a dark background for their vivid colors. They succeed equally well in sun or shade, preferring a moderately moist soil or a mulch of leaf mold.

**Culture:** Plant in full sun, in the South in light shade, in soil freely mixed with leaf mold and peat in about equal proportions. A yearly top dressing of well-rotted stable manure or one pound of Wayside Gardens Plant Food scattered around each plant in the fall will help to produce abundant blooms. Remove faded flowers at once, do not let plants go to seed; never cultivate. Water freely in dry weather. All the varieties offered here are quite tolerant of lime and do well in alkaline soils.

#### Mollis Hybrids

12-15 in. high

Each \$2.00, Three \$5.75, Doz. \$20.00

15-18 in. high

Each \$3.00, Three \$8.50, Doz. \$32.00

18-24 in. high

Each \$3.50, Three \$9.75, Doz. \$35.00

Without exception one of the most satisfactory of all. The color range is through innumerable shades of orange, flame, yellow and, salmon-orange of the most brilliant hues. Unlike all other Azaleas, it is quite tolerant of lime, and does well most anywhere. It is very hardy, ten degrees below zero does not affect the flower buds. A group of these in bloom in the foreground of the shrub border is a delightful sight. Average height of old plants about 3 to 5 feet.

#### Mucronulata

15-18 in. high

Each \$3.00, Three \$8.50, Doz. \$32.00

18-24 in. high

Each \$3.50, Three \$9.75, Doz. \$35.00

One of the very first Azaleas to flower, opening rosy lavender flowers the same time as Forsythia, thus lengthening by several weeks the blooming period of the Azaleas. It will succeed in dry locations and it likes some lime. Can be grown quite successfully in slightly alkaline soils. Planted in front of a Forsythia, it makes a handsome combination.

#### Pontica, "Golden Yellow"

15-18 in. high

Each \$3.00, Three \$8.50, Doz. \$32.00

18-24 in. high

Each \$3.50, Three \$9.75, Doz. \$35.00

Not unlike the Azalea Mollis in habit or appearance but faster and stronger growing, forming perhaps a more compact and bigger plant. Another outstanding feature is the leaves which in autumn turn to richest shades of coppery red and fiery browns, creating an effect as colorful as in the spring when the hundreds of golden yellow flowers transform the plant into a mound of golden yellow. Pontica Azaleas are often called Hardy Ghent Azaleas. You'll enjoy some of them in the shrub border. They are particularly beautiful in combination with spring bulbs.

#### Poukhanensis

12-15 in. high

Each \$3.00, Three \$8.50, Doz. \$32.00

15-18 in. high

Each \$3.50, Three \$9.75, Doz. \$35.00

A compact low-growing Azalea which in late May produces such a profusion of fragrant orchid-lavender flowers. The plant is entirely hidden by its blossoms. It is easily one of the best hardy Azaleas for form as well as color and combines brilliantly with the golden yellow Pontica.

## CARYOPTERIS (See page 62)

### CERCIS

#### Chinensis

Each \$1.50, Three \$4.00, Doz. \$15.00

This charming brilliantly spring-flowering shrub is a Chinese counterpart of the American Native Redbud. It flowers at the same time, but the quantity and quality of its flowers far surpass those of our common wild form. It is shrublike in growth, and when in bloom, every branch and twig is covered with thousands of bright purple blossoms almost double the size of the common variety and noticeably darker. You will want this in your garden surely. Ultimate height from 6 to 8 feet.

### CHIONANTHUS

#### Virginia

Each \$1.50, Three \$4.00, Doz. \$15.00

One of the most striking of native small trees. Its handsome, oblong leaves turn a bright golden yellow in autumn. In June large masses of loose panicles of feathery petaled, snow-white flowers make it an outstanding garden plant.

### CORNUS - Dogwood

#### Florida (White Dogwood)

Each \$3.00, Three \$8.50, Doz. \$30.00

Nothing we can say will add to the charm, beauty and popularity of the white Dogwood. It is THE finest native American small tree. We offer well rooted, ready-to-bloom, 4- to 5-foot trees.

#### Florida rubra (Pink Dogwood)

Each \$4.50, Three \$12.75, Doz. \$45.00

There are no trees or shrubs which possess a larger measure of attractiveness throughout the whole year. The rare pink Dogwood is similar in all respects to the common variety except that the flowers are a beautiful shade of pink. A good specimen in full bloom is a magnificent sight in spring. Does well in shade. We offer plants full of buds, about 4 to 5 feet tall.

### DEUTZIA

All Deutzias are showy flowering shrubs of VERY bushy habit. They have many stems rising directly from the root, arching upward and outward, thickly covered with foliage which almost completely disappears in May under a superabundance of panicles of small, frilled, bell-like flowers. They are hardy throughout most of the country.

#### Gracilis

Each \$1.00, Three \$2.75, Doz. \$8.50

Seldom more than 2 or 3 feet high. This is one of the prettiest and most graceful of all the Deutzias. The plant makes a fountain-like bush attractive at all times of the year. In May it is covered with an astonishing profusion of delicate snowy white flowers. It does well in light shade and is well adapted for low edgings to walks or paths, excellent in clumps in the foreground in the border.

#### Lemoine

Each \$1.00, Three \$2.75, Doz. \$8.50

Lemoine's Deutzia is a hybrid variety and not unlike Deutzia Gracilis but even more floriferous with flowers packed into short, chubby sprays. the color is creamy white and quite distinct.

### NEW SNOW-WHITE, UPRIGHT GROWING DEUTZIA

#### Crenata erecta

Each \$1.25, Three \$3.50, Doz. \$12.00

This beautiful strong, upright growing hybrid came to us from France a few years ago. It produces large, single, milk-white flowers in handsome pyramidal clusters. Shown in England a few years ago, it received an Award of Merit from the Royal Horticultural Society. Its upright growth and modest height, 3 to 4 feet, make it an excellent shrub for foreground planting. Last, but not least, is the enormous amount of flowers which completely cover the bush at flowering time.

### EUONYMUS

#### Alatus compactus (Dwarf Flame)

Each \$1.50, Three \$4.00, Doz. \$15.00

In the Arnold Arboretum in Boston this shrub causes much comment each autumn for its unbelievable brilliance of foliage. Its compact growth, easy culture, and slow growth make it one of the outstanding shrubs for hedges as well as individual specimens in the garden. Its ultimate height is six feet. Be sure to plant one or more of them in your garden for a brilliant autumn foliage display. Does well in shade.

### EUONYMUS EUROPAEUS

#### Intermedia (Macrophylla)

Each \$1.50, Three \$4.00, Doz. \$15.00

Also known as Fructo-coccineo. This upright growing small shrub (6 to 7 feet high) should be among the first twelve fruiting ornamentals. The rigid branches are a perfect sight when carrying the extra large rose-red fruits which age to a brilliant red and are retained long after the leaves have dropped. Cut sprays placed in water will last six weeks or more. The tree is easily grown anywhere and free from "bugs" and troubles. Excellent for the small garden.

#### Patens

Each Three Doz. 100

Bushy plants, 15-18 inches

\$1.20 \$3.30 \$10.50 \$75.00

Bushy plants, 18-24 inches

\$1.50 4.00 15.00 100.00

This is one of the finest and easiest grown evergreen shrubs. Compact and shapely, and ultimately about six feet tall. Its foliage is rich green, somewhat like that of Euonymus Vegetus and remains on the plant practically throughout the entire winter and is quickly replaced by shiny new foliage. In spring it is a plant par excellence for growing in shady places, under tall trees or in sunless corners. It makes a fine hedge and can be pruned any way to suit. Blends beautifully with evergreens, grows equally well on acid or alkaline soils and is iron-clad hardy. In autumn numerous orange berries add to its charm. Transplants easily either in fall or spring. Does excellently in shade.

## Euonymus (Evergreen Bittersweet)

The Most Versatile, Hardy, Easily Grown Evergreen Vine and Shrub. The Plant of 1000 Uses.

#### Radicans, Wayside Gardens Compact Form

Each Three Doz.

\$1.20 \$3.30 \$10.50

1.50 4.00 15.00

An excellent evergreen, fine in either shade or sun. Its habit is a bushy growth. Foliage a dark shiny green and rather small. This vine may also be trimmed into a small evergreen hedge for formal beds or walk.

#### Radicans vegetus

Each Three Doz.

\$1.25 \$3.50 \$12.00

1.50 4.00 15.00

24-30 inch, heavy plants (Evergreen Bittersweet.) A strong growing variety, with larger leaves than the type, and producing bright orange-red berries, which remain on the plant the greater part of the winter. As an evergreen, absolutely hardy wall cover, this plant is unequalled. Beautiful on big old trees or shady walks. Will grow 25 to 30 feet high.

#### \*Kewensis

Each 60c, Doz. \$5.00, 100 \$30.00

(Miniature Evergreen Bittersweet.) A variety with very small, dark green foliage. Everyone who has seen this appreciates its value as a rock plant. It grows close to the ground, and is a most valuable plant for a shady place in the garden where a delicate evergreen is needed. Fine ground cover under small trees.

#### Evergreen Bittersweet—Euonymus Radicans

# Daphne

Daphnes are lovely, fragrant plants and the two varieties offered give bloom from very early spring to May and, occasionally, through the summer. Both are of delicate fragrance and dainty, compelling beauty. They are hardy with little protection except in the coldest sections of the country.

**Culture:** They prefer a sunny position in well drained, sandy soil. In order to keep the evergreen foliage perfect, protect it with a little straw during the coldest part of the winter. The plants will withstand temperatures as low as 10 below zero. Water sparingly in summer. Daphnes will not grow well in cold, poorly drained soil.

## \*Cneorum

Young, well developed flowering plants, 6-7 inches

Each Three Doz.

\$1.00 \$2.75 \$ 8.50

Bushy plants, 7-9 inches

1.25 3.50 12.00

Bushy plants, 9-12 inches

1.50 4.00 15.00

These shrubs are of spreading habit and do not grow over 8 to 12 inches high; producing delicately perfumed rose-pink blossoms. The flowers completely cover the plant not only in spring but again in early autumn. As an edging plant in front of evergreens or shrubs, it is unequalled. It also forms a splendid low hedge along garden walks and around flower beds.

## Mezereum

This Daphne is also called the February Daphne because it blooms from February to April. Its upright growing branches are literally covered with hundreds of rosy purple flowers, making a rare and delightful sight. A charming addition to the garden. A lovely little shrub to grow with Snowdrops, Winter Aconites, or early spring bulbs. Ultimate height 3 to 4 feet.

Each \$1.50, Three \$4.00, Doz. \$15.00

Daphne Mezereum

## New Hardy Daphne "Somerset"

(Plant Patent No. 315)

This deliciously fragrant and **easy-to-grow** Hybrid Daphne originated in England a few years ago. It has received the highest honors from The Royal Horticultural Society of Great Britain. When first shown in London, England, it was one of the highlights of the show. It has been on test at Wayside Gardens for five years, and has successfully wintered without protection all kinds of weather that occurred during those several years.

During May and early June the plants are covered with delightfully scented blush-pink, star-shaped flowers in clusters 6 to 8 inches long. The fragrance is not unlike that of Daphne Cneorum.

The foliage is rich dark green, giving the plants the appearance of Boxwood. It remains green in Northern Ohio until the beginning of March when the new leaves push the old ones off the branches. In California, Daphne Somerset is evergreen.

Daphne Somerset may be used as a hedge. Spaced 18 inches apart, it will grow into a tight fine mass. It may be clipped formally and can also be pruned informally, if the wavy Boxwood effect is desired.

Left unclipped it grows about 3 feet high and 2 1/2 feet wide. Can be kept 24 inches high and 18 inches wide without difficulty.

It is a lovely low shrub for in front of the shrub border and blends happily with hardy plants in the flower border.

Visitors to our nursery, professional as well as amateur, all have admired it. Mr. F. F. Rockwell, garden expert and writer of many horticultural books and articles, remarked when he saw it in bloom this spring: "Here is one of those rare things that happens once every 25 years or so." It is a choice plant with a great future.

## FLOWERING PLANTS

|           | Each   | Three  | Doz.    |
|-----------|--------|--------|---------|
| 12-15 in. | \$1.00 | \$2.75 | \$ 8.50 |
| 15-18 in. | 1.50   | 4.00   | 15.00   |
| 18-24 in. | 2.50   | 7.00   | 25.00   |

The above prices are for stock sold east of Rockies. For prices west of Rockies write our distributor, W. B. Clark & Co., San Jose, California. Because of greatly differing climatic conditions and methods of handling, other prices prevail on the west coast.

*Daphne, Somerset*

New Pale Yellow Forsythia, Spring Glory (See page 66)

### Caryopteris    Hardy Blue Spirea

Blue Mist

Each \$1.50, Three \$4.00, Doz. \$15.00

(Mastacanthus X Mongolica.) This charming low growing shrub is a very real contribution to the meager list of summer and fall flowering shrubs. It is covered from August till autumn frost with numerous clusters of powdery blue, fringed flowers. This shrub grows about 18 to 24 inches tall and is perfectly rounded, making small mound about 2 feet in diameter. The foliage is lanceolate and slightly toothed and silvery green in color. A truly worth-while plant for the flower border as well as for in front of the shrubby border. **Perfectly hardy** and replaces the tender Mastacanthus now in use.

Hypericum, Sungold (See page 66)

**Wayside Gardens**

MENTOR, OHIO

Guaranteed Superior Quality

Wayside Gardens

MENTOR, OHIO

Vitex Macrophylla (See page 68)

Spirea Mongolica (See page 68)

New Giant-Flowered Mock Orange, Atlas (About 1/2 size) (See page 67)

Potentilla, Gold Drop (See page 67)

Pink Weeper Crab

Malus Floribunda Atropurpurea

Malus Arnoldiana

Malus Ioensis Plena—Bechtel's Crab

Malus Scheideckeri

## Flowering Crab

The Crabs stand far above all others in daintiness and grace. Crabs are extremely hardy and will thrive in positions and exposures which would be fatal to more delicate trees. They also exhibit a greater variety in character of tree, wider range of color in their blossoms, and in autumn are adorned with glittering clusters of fruit in shades of green, yellow, orange, scarlet, crimson. No other flowering trees equal the flowering Crabs in profusion of bloom, and amongst other good qualities, varieties may be selected which have a restricted growth or dwarf habit so that they will never become too large and clumsy.

Malus Floribunda

A magnificent flowering Crab offered at a special price.

# Malus ---

## Chinese Flowering Crabs

Two groups of flowering trees, the Cherries and the Crabs, stand far above all others in daintiness and grace. The Japanese Cherries are well advertised by the spectacular planting in Washington, D. C., but the even lovelier Crab Apples have never received justice at the hands of American planters. Crabs are extremely hardy and will thrive in positions and exposures which would be fatal to the more delicately constituted Cherries. They also exhibit a greater variety in character of tree, a wider range of color in their blossoms, and in autumn are adorned with glittering clusters of fruit in shades of green, yellow, orange, scarlet, and crimson. No other flowering trees equal the flowering Crabs in profusion of bloom, and amongst other good qualities, varieties may be selected which have a restricted growth or dwarf habit so that they will never become too large and clumsy.

### Arnoldiana

Each \$1.50, Three \$4.00, Doz. \$15.00  
Arnold's Crab was originated in the Arnold Arboretum at Boston, and was evidently a seedling from some of the many beautiful varieties which are planted there. The semi-double flowers are pink, turning white after a few days, and droop gracefully in long-stalked clusters. In the autumn the tree is adorned with pendulous clusters of waxy yellow fruits about the size of a cherry. Its habit is compact and it is seldom more than 10 to 12 feet high.

### Aldenhamensis

Each \$1.50, Three \$4.00, Doz. \$15.00  
A beautiful brilliant kind with rich purple-red foliage. The flowers are semi-double red with purple glow. When in bloom it is a compellingly beautiful plant. Ultimate height 20 feet.

### Floribunda

Each \$1.50, Three \$4.00, Doz. \$15.00  
Is "the" favorite. It is of spreading growth and prolific flowering. The blossoms are a light pink blending into a white, followed by an abundance of yellowish green fruit relished by the birds. The flower buds are very beautiful, displaying a brilliant pink before bursting into early bloom. It can be grown as a tree, but it is best as a bush—a handsome and very attractive variety. As pink is probably the favorite color in the garden, Floribunda has always enjoyed great popularity. It blooms when about 12 inches high.

### Floribunda atropurpurea

Each \$1.50, Three \$4.00, Doz. \$15.00  
In habit it exactly resembles Floribunda, but it is much more brilliant than that variety. The flowers are red and when this tree is in bloom it will stop every passer-by. The bronzy red foliage also contributes mightily to its showiness and beauty. In the autumn when the thousands of small apples turn red you again behold a lovely sight. It is a strong grower and will bloom profusely on small plants. In fact, the flowers are so profuse they completely hide all twigs and branches.

### Purpurea Lemoinei

Each \$2.00, Three \$5.75, Doz. \$20.00  
The bronze-red leaves make an excellent background for huge masses of deep crimson flowers which are followed by small red fruits. This worthy hybrid is considered the best red flowering Crab.

### Ioensis plena

Each \$1.85, Three \$5.25, Doz. \$18.00  
Bechtel's Crab is a double form of the Wild Crab Apple of the Mississippi Valley. The original plant was discovered near Staunton, Illinois, in 1850, and was brought into cultivation about forty years later by a man named Bechtel. It is a robust, round-headed tree with double, pale pink flowers about 2 inches across, exactly like little roses. They have a delicate violet scent.

### Pink Weeper Crab

Each \$2.00, Three \$5.75, Doz. \$20.00  
This is an unusually handsome weeping flowering Crab. The main stem is upright. The branches are weeping and droop onto the ground. The effect is like a fountain and when in bloom in spring, a picture not easily forgotten. Makes a perfect small specimen tree for the lawn. The flowers are crimson-purple when open; the buds blood-red. A beautiful flowering, small, weeping tree. Its attractiveness is prolonged by its fruit until late in the fall. Ultimate height 12 to 15 feet. We offer nicely shaped trees about 4 to 5 feet.

### Scheideckeri

Each \$1.50, Three \$4.00, Doz. \$15.00  
The flowers of Scheidecker's Crab are double, bright pink, last a long time, and the fruit, which is produced in great profusion, is waxy yellow. The tree has a regular pyramidal habit, about 15 feet high. Best and easiest to flower.

### Theifera

Each \$1.50, Three \$4.00, Doz. \$15.00  
One of the favorites of connoisseurs is the Tea Crab, a stiff, erect plant 15 feet or more high, and in spring every limb, branch, twig and branchlet is buried in a cloud of rose-pink blossoms which slowly change to blush-white.

The Oriental Fruit Moth quarantine prohibits the sending of all fruit trees and their flowering horticultural forms such as:  
Apricot Peach Flowering Peach  
Cherries Apple Flowering Cherries  
Crataegus Plum Malus  
Cydonia Raspberries All Espalier Fruit Trees  
Into Arizona, California, Colorado, Idaho, Nevada, Oregon, Utah,  
and Washington.

## Flowering Cherries

Very beautiful early spring-flowering small trees, seldom growing over 25 feet tall. From early to late May they are loaded with single or double flowers of great charm and beauty. There are upright growing, spreading, and weeping forms of this lovely tree. Should be grown in every garden where winters permit their planting. We offer only the hardiest varieties which are successfully grown at Highland Park, Rochester, N. Y.

### Akebono (Daybreak)

Each \$3.00, Three \$8.50, Doz. \$30.00  
Erect growing Single Cherry. In our opinion this is the most beautiful tree in the world or at least the most beautiful we have ever seen. It belongs in the same class as those around the tidal basin in Washington, D. C., but there is considerable variation in those trees. When in bloom this variety is a cloud of pink with not a leaf showing. We get the same old thrill from it every spring as it does not seem possible to remember from one year to another how superbly beautiful it is. Luckily it is one of the best growers and soon makes a good sized and freely blooming tree.

### Amanogawa

Each \$3.00, Three \$8.50, Doz. \$30.00  
Erect growing, semi-double Cherry. Name means "Milky Way." Unlike all others in its extremely narrow, erect growth, which takes little room. Flowers semi-double, pink, in erect clusters.

### Kanzan

Each \$3.00, Three \$8.50, Doz. \$30.00  
Also called Kwanzan and Sekiyama. All names mean Gateway to the Mountain. Probably the most common and best known double. Flowers very large, up to 2 inches in diameter with about 30 large petals; deep rosy pink.

### Kuramayama

Each \$3.00, Three \$8.50, Doz. \$30.00  
A beautiful double late flowering Cherry. Its flowers open flat and wide and are quite full. The flower petals are ruffled and frilled and of a beautiful shade of pink with delicate carmine edges. The center of the blossoms is flesh-pink.

### Mt. Fuji

Each \$3.00, Three \$8.50, Doz. \$30.00  
A lovely variety highly valued by all who love flowering Cherries. Its double, snowy white flowers are very large and heavy, produced in great abundance. Being the only snow-white, rose-flowering Cherry in cultivation in this country it is very popular. The Arnold Arboretum Bulletin often mentions it because of its beauty and hardiness.

### Paul Wohlert

Each \$3.00, Three \$8.50, Doz. \$30.00  
Semi-double fragrant flowers. The pink petals are boldly edged with rosy red. Outstanding and effective. It is a profusely blooming kind. One of the earliest of the large "hyacinth" flowering varieties.

### Shirofugen

Each \$3.00, Three \$8.50, Doz. \$30.00  
(Victory.) Color effect very unusual. When first open the large flowers are soft pink soon becoming white. Then as they get older they turn deep cerise so that the tree always has plenty of both pink and white flowers at one time. It is an extremely profuse bloomer and good grower. New leaves deepest bronzy purple.

## Cotoneaster

### THE QUEEN OF SHRUBS

All the species of Cotoneaster will thrive either in shade or full sun, and are very suitable for growing under trees, "clothing" north or other walls, and for covering wet, dry, or shady banks, etc.

The outstanding characteristics of this genus are the beautiful, conspicuous clusters of berries, ranging in color from brilliant orange-scarlet, through varying shades of red to black, all preceded by a profusion of white or pinky white flowers wreathing the branchlets, and also in many species the rich autumnal colorings of their foliage. For hedges they are becoming more and more popular, Multiflora being especially well adapted for that purpose. The under-mentioned list contains most of the best recent introductions from China, to which country they are native.

### Apiculata (Cranberry Cotoneaster)

Each \$2.00, Three \$5.75, Doz. \$20.00  
A beautiful hardy dwarf Cotoneaster from Western China. This little known variety grows about four feet high with arching branches weighted down during autumn with masses of bright crimson sub-globose fruits. The foliage is shiny green and beautiful through the year. Perennially hardy.

### Divaricata

Each \$1.25, Three \$3.50, Doz. \$12.00  
From Central and Western China. 5 to 6 feet high, of graceful spreading habit; small green polished leaves and red egg-shaped fruits; few shrubs can equal its glorious scarlet autumn tints.

### Floribunda

Each \$1.25, Three \$3.50, Doz. \$12.00  
Grows into a beautifully shaped round bush. Branches slightly arching and heavily covered with handsome blue-green foliage. It flowers as freely as the English Hawthorn and in fall is covered with thousands of brilliant small red berries.

### \*Horizontalis

Fine 6-inch pot plants, Each \$1.75, Three \$4.75, Doz. \$17.50  
(Prostrate or Rock Cotoneaster.) A low-growing shrub with almost horizontal branches covered with shiny dark green leaves. The fruit, which hangs on until spring, is bright red. It is a most desirable plant for rock garden, in front of shrubbery or at the base of steps near the front door.

### Multiflora (Reflexa)

Each \$1.25, Three \$3.50, Doz. \$12.00  
From Western China. Thin-branching shrub, 5 to 8 feet high, of elegant habit. As beautiful in bloom as the Hawthorn of the hedgerow. The round, bright red fruits ripen in late summer.

# Forsythia

The name "Golden Bell" has been attached to this family of handsome shrubs, but nobody uses it, and in consequence, the name of William Forsyth, one of the greatest gardeners in history, is perpetuated in common speech through the Forsythia, which have become one of the most popular groups of shrubs grown in gardens. They should be given a place where they can grow untrammeled by restricted space and without pruning. There is nothing so miserable to look at as a Forsythia which has been clipped into some formal shape, or a line of them compelled to serve as a hedge; and there is nothing more beautiful and more expressive of springtime than the early grace of a Forsythia allowed to develop naturally according to its own sweet will.

## Giraldiana

Each \$1.50, Three \$4.00, Doz. \$15.00

This is the earliest flowering Forsythia, blooming several days before Ovata. Its dainty yellow, bell-shaped flowers are a treat so early in the spring. It is an uncommon and attractive, slender, spreading shrub which reaches an ultimate height of 5 to 7 feet and as much wide. Its rounded tapering foliage is dense and tinted a lovely brown which makes it outstanding throughout the summer. Does well in shade. An exceptionally hardy variety.

## Ovata

Each \$1.25, Three \$3.50, Doz. \$12.00

(Korea.) Compact growing, seldom more than 4 feet high. The branches bear charming campanulate bright yellow, scented flowers during February and March, even in severe weather. Aside from being a fine flowering plant it is also a splendid shrub for shady places.

## FORSYTHIA, SPRING GLORY

This new Forsythia is without question the loveliest of all the Golden Bells.

When seen in bloom, it is a sight not easily forgotten, its large pale yellow flowers completely cover the branches in such masses that they literally bend with their weight.

It would not be far amiss to say that it produces twice the number of blossoms of the common Forsythias. Further, the pale yellow color is very pleasing and brilliant, infinitely more attractive and cheerful than that of the varieties now in general use. If you desire a brilliant and cheerful display in your garden in early spring, plant a few Forsythia Spring Glory. There is nothing which will make you forget winter as quickly nor announce spring as flamboyantly.

Each \$1.50. Three \$4.00, Doz. \$15.00

# Hydrangeas

## Paniculata grandiflora

Each \$1.00, Three \$2.75, Doz. \$8.50

This variety is very well known, being in almost every garden. Its large conical heads, 12 to 18 inches long, become pink and red as the flower ages. If you want very large flowers, be sure to prune very severely each spring, also give it plenty of water during the summer.

## Quercifolia

Each \$1.75, Three \$4.75, Doz. \$17.50

The Oakleaf Hydrangea is a rather uncommon bush. It has big, artistic leaves, indented, and somewhat ruffled, resembling in a magnified way the foliage of some gigantic oak. The flowers are not a great deal unlike those of Hydrangea paniculata, and are borne in enormous, conical heads which are very majestic and showy. Particularly valuable for the brilliant autumn coloring. Does well in shade.

## Hypericum, Sungold

## HALESIA

### Tetrapetra

Each \$1.25, Three \$3.50, Doz. \$12.00  
The Silver Bell or Snowdrop Tree, also sometimes called the Lily-of-the-Valley Tree, is a most attractive round-headed, bushy little tree with horizontal branches and rather ordinary foliage. Its beauty consists in the millions of small white bells which dangle in bewildering profusion from the lower side of the branchlets. Certainly no flowering tree is handsomer and daintier than the Silver Bell when in full bloom, and it is always an object of great interest and curiosity.

## ILEX - Holly

### Convexa (Crenata bullata)

12 to 15 inch

15 to 18 inch

Each \$2.00, Three \$5.75, Doz. \$20.00

Each \$3.00, Three \$8.50, Doz. \$30.00

This is one of the choicest of evergreens and was introduced into this country in 1919 by E. H. (Chinese) Wilson. It has taken many years of effort to produce this little beauty in quantities, but now it's here for you to enjoy. It is VERY bushy, has shiny dark green, boxwood-like foliage somewhat convex and it grows about 4 feet high and 3 feet across. The glossy leaves are so profuse that twigs are invisible. Left to itself it grows "informally formal" and blends beautifully with other evergreens. As a small "accent" plant it is faultless. For small hedges it is a jewel, particularly in cold climates where boxwood is impossible but it is much too rare yet to be used for that purpose. An absolute "must" for every garden. Does well in light shade or full sun and is equally happy on alkaline or acid soil, and last but not least, it is as hardy as an oak.

### Glabra

Each \$2.00, Three \$5.75, Doz. \$20.00  
The Inkberry is a loose, spreading shrub, 4 to 5 feet high at maturity, with shining dark green leaves and a profusion of glittering black berries through the winter. It is an excellent plant for hedges in shady situations. It may also be effectively used as individual plants mixed with evergreens or in front of the shrubbery border.

### Serrata (Sieboldi)

Each \$1.10, Three \$3.00, Doz. \$10.00  
This is the deciduous Holly. It is slow growing and ultimately reaches a height of about 10 feet. In winter, after the leaves have been shed, it is one of the most showy shrubs because of the persistent brilliant red berries which hang on practically all winter. They make a cheerful showing outside against the snow and are charming for cutting and winter decoration.

# Hypericums

Attractive and charming low growing, summer-flowering shrubs. Their brilliant flowers are beautifully formed and grow on slender branches from early summer until stopped by frost. Excellent subjects for the flower border or in the foreground of taller shrubs, as well as for ground covering.

### Calycinum

Each 75c, Three \$2.00, Doz. \$6.00, 100 \$40.00  
This is a most valuable variety because it can also be used as a ground cover for both sunny and semi-shady places. The underground runners are produced so freely as to completely cover the ground; at the tops the golden yellow flowers shine like jewels. Its height is about 12 to 18 inches. We recommend this as one of the best and hardiest.

### Moserianum

Each 75c, Three \$2.00, Doz. \$6.00, 100 \$40.00  
A most desirable border shrub about 20 inches high, of free and graceful habit, producing long, slender stems, drooping, apparently from the weight of the flowers and buds, although the flowers face so none of their beauty is lost. Color a rich golden yellow, and bloom continuously the entire season.

## HYPERICUM PATULUM

### "Sungold"

(U. S. Plant  
Patent No. 568)

A hardy, shapely, dwarf shrub which grows into an almost completely oval globe of 2 1/2 to 3 feet in diameter, and about 18 to 24 inches in height, densely covered with foliage that is handsome throughout the summer. It bears its cymes of golden flowers at the end of every shoot of the summer's new growth. It flowers more freely and much longer than any of the Hypericum Patulum now in general use. Its flowers are bigger and produced in immense quantities, transforming this lovely plant into a small mound of gold when in full bloom.

Of particular interest and value is its exceptional hardiness. In our nursery tests over five years it has proven its ability to withstand cold weather as well as outgrow and outbloom any Hypericum we have ever seen.

The average size of bloom is from 2 1/2 to 3 inches in diameter.

Each \$1.50, Three \$4.00, Doz. \$15.00

Inkberry—*Ilex Glabra* Used as a Hedge

### KOLKWITZIA - Beauty Bush

#### *Amabilis*

Each \$1.25, Three \$3.50, Doz. \$12.00  
A handsome flowering shrub which came from China. While upright in growth its branches at the ends are arching, almost pendulous, so that they cover the ground about them and never look "leggy" and bare. It is perfectly hardy anywhere, has excellent foliage and in June is a fountain of bell-shaped, light pink flowers not unlike the Weigela. Grows anywhere and does exceedingly well in dry, sandy, poor soil. Kolkwitzias do not bloom the first year or two after planting. Ultimate height about 7 to 8 feet.

### MAGNOLIA

#### *Soulangeana*

Each \$9.00  
Soulange's Magnolia, sometimes called the Saucer Magnolia for no reason at all, is the rather rare Pink Magnolia of city gardens and parks. It makes a small tree with gorgeous shining foliage and in early spring produces its enormous, pinkish white flowers, more or less purplish outside and slightly fragrant. This Magnolia is the showiest of the family for planting in northern gardens, and when in bloom, even one plant will dominate the garden—yes, the neighborhood, if it is a sizeable specimen. A whole street in Rochester, lined with this variety, is a mecca for all enthusiasts every spring. We offer flowering plants with a lot of buds, about 3 to 5 feet tall.

#### *Stellata* (Star Magnolia)

Each \$9.00  
The rarest of the hardy Magnolias. It grows to a small spreading tree; however, this requires years. Early in spring the plant is covered with a mass of fragrant, pure white, starlike flowers, which are three inches across. The numerous long waxy white petals are held together in a lovely starlike shape. A beautiful thing for a small lawn or any small garden. We offer fine plants about 2 1/2 feet tall with flower buds ready to bloom.

Each \$1.25, Three \$3.50, Doz. \$12.00

### POTENTILLA FRUTICOSA

#### Snowflake

A graceful, small, 3-foot high shrub, upright in growth, yet compact. Foliage is dense and fernlike in effect. From early June until October the plants are studded with silvery white, chalice-like blooms. A splendid low-growing and graceful shrub for foreground planting. Fits in perfectly with perennial plants in the hardy border. Prefers a sunny location. Is hardy in below zero temperatures.

Each \$1.00, Three \$2.75, Doz. \$8.50

#### Gold Drop

A charming small shrub of such compact growth as to resemble a small irregular shaped mound about 2 to 2 1/2 feet high. It is closely and densely covered with small, fernlike leaves and studded with intensely brilliant golden yellow, buttercup-like flowers from early June until October. This delightful small shrub may be used in front of the shrub border or in the foreground of any perennial planting. It does best in full sun and is hardy in below zero temperatures. The original plant we selected from the common *Potentilla Fruticosa*. It is far superior both in flowering qualities, habit and general appearance. We know of no shrubs which flower so consistently and remain so cheerfully brilliant throughout the entire summer and fall. Spaced 12 inches apart in a single row it will make one of the most charming informal hedges that can be imagined.

Each \$2.00, Three \$5.75, Doz. \$20.00

## Philadelphus - Mockorange

### *Pekinensis* (Brachybotrys)

Each \$1.25, Three \$3.50, Doz. \$12.00

(Pekin Mockorange.) A beautiful Mockorange from China. In fact, experts claim this to be the finest species from that immense country. Its 5- to 8-foot, slender branches are covered from end to end with racemes of 1-inch, fragrant, creamy flowers. It is one of the showiest of June-flowering shrubs. It has fine, compact habit of growth and is perfectly suited for the shrub border.

Each \$1.25, Three \$3.50, Doz. \$12.00

#### *Zeyheri*

(The Snowstorm Mockorange.) Few shrubs produce as many flowers as does this Mockorange. In early June it is a veritable hill of snow. When the blooming period is over, it is a showy shrub with good, clean, bold foliage. Altogether a very worth-while, rare plant you will be proud to point out to your friends. Ultimate height 6 to 8 feet.

### NEW FRENCH MOCKORANGES

#### *Atlas*

#### New Giant Mockorange

This giant-flowered Mockorange, with its pure white blooms as large as those of Dogwoods, will be sensational in your garden and we predict will replace many of the more common and indifferent shrubs. This magnificent hybrid came to us a few years ago from France. It has been carefully tested and not found wanting. Hardy, of easy culture, grows most anywhere, good upright habit, and covered with immense blooms which slightly lack being 3 inches in diameter that are magnificent for cutting. Decidedly a "must" for every shrubby border.

Each \$2.50, Three \$7.00, Doz. \$25.00

#### *Belle Etoile*

(Beautiful Star)

#### New Fragrant Star Mockorange

We, as well as others who have seen and smelled the charming flowers of this Mockorange, consider this one of the finest and choicest. It is an origination of that great Frenchman, Lemoine. The starlike flowers open in Lily-like fashion, the centers showing a decided light purple flush. This extra touch of color, plus its intense and delightful fragrance which can be detected over the entire garden, sets this shrub aside as one in a class by itself. Its growth is orderly, nice and bushy, and grows about 5 feet tall and 4 feet in diameter. It is one of our last importations from France, and a few years ago received the Award of Merit from the Royal Horticultural Society of Great Britain. Dig up an old, unsightly bush and replace it with this beautiful, sweetly smelling Mockorange.

Each \$2.50, Three \$7.00, Doz. \$25.00

#### *Innocence*

#### New Alabaster-White Mockorange

The long arching branches carry a wealth of large single alabaster-white flowers. So heavily loaded with flowers are the slender branches as to assume the appearance of sheaves of bloom. They are of such purity of whiteness as to make all other Mockoranges seem gray by comparison. The fragrance is delightful, more delicate, yet more penetrating than that of Jasmine. Its flowers are so intensely white, one constantly marvels at its ethereal effect. A "must" in every garden. Ultimate height about 6 feet.

Each \$2.00, Three \$5.75, Doz. \$20.00

#### *Norma*

#### New Lace Mockorange

Handsome lacy edged starlike single flowers are produced on a tall plant literally by the thousands. It is an outstanding Mockorange growing 10 feet tall. A superb plant for background or screen planting as well as a fine windbreak. Its unusual freedom of bloom and other fine qualities earned for it the Award of Merit of the Royal Horticultural Society of Great Britain.

Each \$2.00, Three \$5.75, Doz. \$20.00

### FOOD FOR THOUGHT — As Well as for Your Flowers

What your plants and bulbs need is a balanced organic food. Not just a stimulant. They need one containing in right amounts, those things that make plenty of strong roots, produce sturdy stalks, thrifty foliage and an abundance of good sized blooms. That's exactly the kind of Plant Food we use at Wayside. Much of our success in growing such unfailingly fine plants is due to it. Turn to page 23, and get the full facts about it.

# Prunus

## FLOWERING ALMOND

### Glandulosa alba

Each \$1.50, Three \$4.00, Doz. \$15.00

(Flowering Almond.) The small, very double, white rosettes grow in great quantities along the stem in late April and early May. Lovely when in bloom. Ultimate height about 4 to 5 feet.

### Glandulosa rosea

Each \$1.50, Three \$4.00, Doz. \$15.00

Produces very double, rose colored flowers in great profusion in spring. One of the most charming old-fashioned early flowering shrubs, and is still unsurpassed in beauty in its season. Our plants are grown on their own roots, thus insuring extra vigor and more lasting satisfaction as well as no "wild suckers."

## FLOWERING PLUMS

### Pissardi rosea (Purple-Leaved Plum "Special Selection")

Each \$3.00, Three \$8.50, Doz. \$30.00

The deep bronzy purple foliage of this small tree is its great attraction; however, the thousands of pink, single flowers in spring are not to be overlooked. Most "purple" leaved trees lose much of their color throughout the summer, but this is not the case with this special selection of ours recently imported from England. Its foliage is of the deepest shade or purplish red imaginable, almost black. It makes a fine contrast plant and helps give variety and color in the garden, easily grown and ideal for the small yard or a special point of interest. Ultimate height about 10 feet. Occasional pruning will keep it in shape desired.

### Pissardi veitchii

Each \$3.00, Three \$8.50, Doz. \$30.00

This small tree grows about 10 feet tall, but can be pruned to small size if desired. In early spring it is covered with thousands of large clusters of double pink blossoms not unlike those of the double flowering Cherry or Peach. It is very hardy and should be used in place of flowering Peaches or Cherries in those localities where the latter are not hardy. In addition to the delightful display of double pink flowers you will enjoy the light bronze colored foliage which in late summer turns green.

### Triloba

Each \$1.50, Three \$4.00, Doz. \$15.00

(Flowering Plum.) The flowering Plum blooms early in May before the leaves come out. The delightful double, quilled, bright pink flowers stud every twig and branchlet so heavily no wood is visible. Very handsome and should not be left out of any garden. We offer plants growing on their own roots because they are so much more satisfactory. Ultimate height about 8 feet.

## SALIX - Willow

### French Pussy Willow

Each \$1.00, Three \$2.75, Doz. \$8.50

Not the wild Pussy Willow but a fine cultivated French variety. Branches of this variety have been selling at retail during the winter months in cities at from \$1.00 to \$2.00 per dozen. You can grow them on your lawn! Enjoy these dainty silvery pink flowers every winter. A beautiful round shrub in summer or use them for tall screens or backgrounds. Cut the ends of the branches in January or February. Place them indoors in a vase of water. Watch them unfold their large catkins of silver-pink, from 1 to 2 inches long. They will repay you many times their cost in pleasure. Ultimate height 10 feet. Cut back branches to 6 inches when planting and each spring after catkins have formed to promote long, vigorous new canes.

### Purpurea nana

Each 55c, Doz. \$4.50, 100 \$25.00, 1000 \$225.00

Dwarf Blue-Leaf Arctic Willow. Discovered north of the Arctic Circle. A charming low-growing Willow excellently suited for edgings. Grows anywhere in wet or heavy soils where other plants perish. It is able to withstand the lowest temperatures encountered in this country, is of easy culture. Just the plant for low edgings, around beds or along walks in difficult soils or localities. The foliage is a lovely gray-blue-green. Can be clipped for formal effects or left natural as desired. Should be planted about 8 inches apart. May also be grown as single specimens in the rock garden.

## SORBUS - Mountain Ash

Each \$4.00, Three \$11.00, Doz. \$40.00

This prolifically fruiting variety resembles the well known Mountain Ash very closely. It does not grow quite as tall, only 20 to 25 feet, but produces twice the amount of flowers and fruit. The branches literally bend under the brilliant loads of orange fruits. This small tree can be grown in every small garden without damaging nearby flowers. Transplants readily. We offer nice young trees about 6 feet tall.

## SPIRAEA

A very important family of shrubs. Most Spiraeas are sun loving, but withstand much abuse in location and soil conditions, and are a source of joy and satisfaction.

### Bumalda crispa

Each \$1.00, Three \$2.75, Doz. \$8.50

The ornamental foliage of this Spirea is crested and covers the plant heavily, giving a most attractive effect. The flowers are deep crimson-red and occur throughout the summer. A choice, low growing shrub for foreground planting or a colorful low hedge which requires no pruning. Ultimate height about 24 to 30 inches.

### Japonica coccinea

Each \$1.00, Three \$2.75, Doz. \$8.50

Similar in growth and habit to the Anthony Waterer Spirea. The flowers of this new variety are much better and richer crimson-red. No one will ever again plant the old Anthony Waterer once they have seen this fine improvement. Ultimate height about 30 to 36 inches. (Color illustration, page 55.)

## SNOWBANK SPIREA

### Mongolica

Each \$1.50, Three \$4.00, Doz. \$15.00

This is the earliest flowering of the Spiraeas, in full bloom along with the Forsythias. It is a gracefully slender but erect shrub about 4 to 5 feet high at maturity. The branches are thin and arching, plentifully besprinkled with pure white flowers like snow lingering from winter. It is a dainty and very beautiful shrub with feathery fresh green foliage that in autumn turns orange and scarlet. Makes a fine informal hedge or attractive in groups or singly in the border where its early bloom blends beautifully with Daffodils and early blue Scillas.

# Syringa

## NEW HYBRID SPECIES LILACS

### THE DAPHNE LILAC

Microphylla superba Each \$4.00, Three \$11.00, Doz. \$40.00

A remarkably lovely shrub, deliciously fragrant, introduced from China. Graceful, slender stems; pinkish red buds opening to pale pink, loose panicles of small individual florets. The flowers produce a two-tone effect that is very pleasing and novel. The main truss is on top of each stem and smaller trusses are set down the branches, so that the entire plant forms one large bouquet. The foliage is very pretty, about one inch long and three-fourths inch wide. Blooms again in the fall. The fragrance of this Lilac is something never to be forgotten. More like that of Daphne and Gardenia blended than the Lilac fragrance we are familiar with.

### HYBRID HUNGARIAN LILAC

Henri Lutece Each \$2.50, Three \$7.00, Doz. \$25.00

A hybrid between S. Villoso and S. Josikea, with a round, shapely bush about midway in size between the two parents. The blooms are enormous panicles, open, plumelike in appearance, held erect and of beautiful light violet in color. Has the heavy foliage of Josikea. A fine ornamental shrub coming into bloom about a week after the French Lilac. This variety deserves a place in all Lilac plantings. One who has never seen one of these hybrid Lilacs cannot imagine how beautiful they are and how different from other Lilacs.

### THE PINK PEARL LILAC

Sweginzowia albida Each \$4.00, Three \$11.00, Doz. \$40.00

This new Hybrid Lilac was originated by Mr. Lemoine, of Nancy, France, who without a doubt has created the world's finest Lilacs, Peonies, and many other things. This Lilac is not a so-called French Hybrid, but a cross between S. Sweginzowia Superba and S. Wilsoni. At the end of May it produces a profusion of many-branched panicles of the most elegant character; the large, long-tubed flowers with reflexed lobes are of a delicate pale pink passing to white and are very sweet scented. The flowers remind one of large trusses of pink pearls. Hardy anywhere.

## VITEX - Chaste Tree

Macrophylla Each \$1.25, Three \$3.50, Doz. \$12.00

A graceful shrub with attractive spikes of lovely lavender-blue flowers. Blooms profusely from July until fall and grows more than ten feet high unless pruned back. It is a most desirable summer-flowering shrub of distinctive appearance. Fits in well in the border and is also suitable as a lawn plant. Its form, foliage and lilac flowers are very unusual.

## Viburnum - Snowball

### Burkwoodi (New English Hybrid)

Bushy plants, 3-4 ft. Each \$4.00, Three \$11.00, Doz. \$40.00

Bare root, 2-3 ft. Each \$3.00, Three \$8.50, Doz. \$32.00

Bare root, 18-24 in. Each \$2.00, Three \$5.75, Doz. \$20.00

Improved Carlesii. Waxy blush-white and delicately fragrant, the flowers of this new fragrant Viburnum are produced in early spring when the leaves are unfolding. They form round, domed clusters, and the gardenia-like fragrance is so sweet as to pervade a large area. The plant grows about 6 feet high and 4 to 5 feet in diameter. It likes a well drained, sunny place, with plenty of moisture. This is a new jewel for the garden—a real aristocrat. For the small garden, the one Viburnum above all others that should be grown, is Viburnum Burkwoodi. Foliage shiny dark green all summer.

### Carlesii

Waxy white, deliciously fragrant flowers in early spring when the leaves are unfolding. This fragrant Snowball is a great favorite. It is very hardy, easily grown and does well in light shade, as well as in full sun.

### Tomentosum

Each \$1.50, Three \$4.00, Doz. \$15.00

If all the other Viburnums were thrown into the discard, this one would justify the family. It is a superb flowering shrub and the spectacle of a good Tomentosum in bloom is a sight not ever to be forgotten. In early June the horizontal branches become perfect mosaics of wheel-like clusters ringed with dazzling white flowers, with spidery sunburst centers, resembling a fall of snow. Ultimate height 8 feet.

### Tomentosum plicatum

Each \$1.50, Three \$4.00, Doz. \$15.00

The Japanese Snowball has its pure white flowers arranged in a perfectly round ball 3 to 4 inches across. Its clean foliage is quite similar to the Tomentosum. Much neater and in every way superior to the common Snowball which is usually covered with aphids. It makes a commanding specimen and there are few shrubs handsomer than this when well grown.

### Opulus Xanthocarpum (Apricot-Fruited Cranberry Bush)

Each \$2.00, Three \$5.75, Doz. \$20.00

This makes a handsome bush 5 to 7 feet high. It is particularly attractive from July to December after when its beautiful blossoms are replaced by immense clusters of 1/2-inch apricot-yellow fruits. The clusters of berries are many and heavy, and create a beautiful show against the rich green foliage. The heavily fruited branches may be cut for indoor decoration. They combine stunningly with Gladioli, Dahlias, or Chrysanthemums. The clusters of fruits retain their beautiful apricot-yellow tint for six weeks or more. Easily grown, hardy as an oak. May be planted in fall or spring. The plants we ship are about 3 feet tall.

# The Cream of the

The following are the "cream" of the cream of Lilacs. They stand out above other varieties because of their enormous trusses and exquisite colors, as well as their fragrance. No more need be said than "these are the best to date." Although our collection of French Lilacs comprises only a limited

## Ambassadeur

Each \$5.00, Three \$14.00, Doz. \$50.00

A splendid new French Hybrid. One of the best. Broad spikes of very large single flowers of a most charming appearance. The rounded, slightly reflexed lobes are of a pleasing azure-lilac, enlightened by a conspicuous white center. Single.

## Ami Schott

Each \$4.00, Three \$11.00, Doz. \$40.00

Magnificent double deep cobalt-blue flowers with paler reverse. The panicles are dense and broad. This is a superb novelty.

## Etna

Each \$3.00, Three \$8.50, Doz. \$32.00

Broad panicles of medium sized regular flowers, deep claret-purple, late. Practically the most approaching to red. Single.

## General Pershing

Each \$3.00, Three \$8.50, Doz. \$32.00

Double flowers of a quite unusual size, broad lobes of a rich purplish violet, paler underneath, big purple buds. Late. Very beautiful.

## Hugo de Vries

Each \$3.00, Three \$8.50, Doz. \$32.00

Brilliant single deep purple flowers with carmine-red glow. Exceptionally large trusses. An outstandingly fine Lilac, blooms freely and is a good grower. Single.

## Lamartine

Each \$3.00, Three \$8.50, Doz. \$32.00

Mauve-pink, immense, compound clusters of single flowers. Very choice variety. Early flowering.

## La Vestale

Each \$3.00, Three \$8.50, Doz. \$32.00

Immense trusses in great abundance of purest white. Single.

## Marie Finon

Each \$3.00, Three \$8.50, Doz. \$32.00

Extremely floriferous, immense single flowers of purest alabaster-white. Large branched panicles, round flowers.

# French Hybrid Lilacs

number of varieties, the purpose of this list is to bring to your attention the very newest and most interesting developments at the earliest possible date.

The plants offered are healthy and vigorous, about 2½ to 3 feet tall, and will flower for you next year.

## Marechal Foch

A sensational new Lilac. The expert horticulturist, Felix Crousse, pronounced this to be the handsomest of all single Lilacs. The high panicles, carried by long, straight stems, are truly immense and very light. The individual flowers, fully one inch in diameter, perfectly shaped, are of a bright carmine-rose with a pink eye when opening, contrasting with the mauve of the older flowers and the deep carmine of the buds.

## Massena

Strong, upright spikes, individual flowers over one inch across, of the deepest red.

## Miss Ellen Willmott

Extremely floriferous, immense double flowers of purest alabaster-white. Large branched panicle, round flowers.

## Paul Deschanel

Immense panicles of very broad flowers, rosy mauve with carmine buds; exceedingly free.

## President Lincoln

Single flowers three-fourths to seven-eighths inch across, purplish lilac in bud, Wedgwood-blue when fully open, large clusters. Branches ascending and habit somewhat compact. Very vigorous and early in bloom.

## Rosace

A magnificent new Lilac with broad and long spikes of very regular large individual double flowers of a soft mauve-pink; an improvement of the popular and beautiful variety, President Fallières, expanding after all other Lilacs have finished blooming. Late flowering double.

Etna

Ellen Willmott

President Lincoln

THE NEW  
WEIGELA  
BRISTOL  
RUBY

## Weigela - Diervilla

The Weigelas are an interesting and useful family of shrubs, flowering in May, June and July. The flowers in shape may be likened to those of a Foxglove and are borne in immense quantities. They prefer a moist soil and do not like shade or roots of large trees encroaching on them. Otherwise their culture is simple. The average ultimate height of most varieties is about 5 to 6 feet.

**Othello (New)**

Each \$1.50, Three \$4.00, Doz. \$15.00

A well shaped plant about 4½ to 5 feet ultimately. The branches are covered with rich rose colored flowers closely spaced. This new hybrid is a fine improvement and a most desirable variety because of its fine habit, freedom of bloom, and lovely clear flowers.

**Fairy (New)**

Each \$1.50, Three \$4.00, Doz. \$15.00

A handsome shrub for any garden, big or small. Grows about 4 feet tall and in spring is completely covered with light pink blooms which possess a great depth of color and sparkle like pearls. It is early flowering but follows Richesse. This is one of the great French hybridist Lemoine's latest and best.

**Richesse (New)**

Each \$1.50, Three \$4.00, Doz. \$15.00

The flowers are a rich deep pink and produced in amazing quantities. When in full bloom this Weigela is truly a wonderful sight. Its purity of color and early blooming make it an outstanding shrub for the small garden. Ultimate height is about 6 feet and 5-foot spread.

**NEW WEIGELA, BRISTOL RUBY**

(Plant Patent  
No. 492)

Spring and Autumn Flowering

The color of the flowers is a pleasing sparkling ruby-red, shading to garnet-crimson. They are produced in immense quantities and create a wonderful display of colors. After the big spring display is past there is again a fine showing of bloom throughout the late summer and entire autumn. Few shrubs produce flowers as freely and over so long a period as does Bristol Ruby Weigela. It attains a height of 6 to 7 feet at maturity, and grows into a perfectly formed, well rounded specimen requiring very little pruning because it flowers well from old wood; no die-back or uneven growth at any time. Excellent reports from Canada and Vermont and other difficult regions fully substantiate our own estimate of its unusual hardiness. Bristol Ruby is definitely superior to any other red Weigela in every respect and visitors here at the nursery are quick to note its better qualities.

|  | Each   | Three  | Doz.    |
|--|--------|--------|---------|
| 2-year-old bushy plants, 1½-2 ft. high | \$1.10 | \$3.00 | \$10.00 |
| 2-year-old bushy plants, 2-3 ft. high  | 1.50   | 4.00   | 14.00   |
| 3-year-old bushy plants, 3-4 ft. high  | 2.00   | 5.75   | 20.00   |

# It's Easy to Order by Mail from Wayside

## NEW CUSTOMERS ARE INVITED TO READ THIS PAGE BEFORE ORDERING

The business of Wayside Gardens is conducted each year with many customers—and is based upon confidence and co-operation. By its very nature most of our shipping must be done during only a few weeks in each year. At the peak, hundreds of orders are filled daily.

### Your Confidence in Wayside

We appreciate your confidence in ordering from us—and will do our utmost to merit your trust. Based on many years' experience we have worked out systems for handling orders expeditiously and correctly with a minimum of trouble to the customer.

However, you can help us, and enable us to give you the best possible service, if you will order early.

### When to Order

Send us your order as soon as you have made your selection. Do not delay mailing it to us! Much preliminary work must be done before the actual shipping of bulbs or plants is possible.

In case of "short crops" early orders have first consideration. It is always good judgment on your part to have your order "in" early, as well as it is helpful to us.

### The Time to Plant

One of the most often asked questions is: "When is the right time to plant, the autumn or the spring?" The answer to this question depends entirely on the material to be planted, the location it is to be planted in, and the time when the question is asked.

The autumn is the better time to handle all plant material of unquestioned hardiness. In the fall weather and soil conditions, as a rule, are better than in the early spring. Here is a good suggestion:

Plant Alpine and Herbaceous Plants from September 1st to November 1st. Roses from October 15th to December 1st. Peonies, German and Japanese Iris from September 1st to frost. Oriental Poppies from August 15th to October 15th. Spring flowering bulbs from October 1st until ground is frozen hard.

It is our practice to ship no plants or bulbs except at the season when they will give best results.

Every order in the autumn is carefully examined, material and location carefully considered, and shipment is made only of such material as can be transplanted in that part of the country at that particular time, the balance is carried over by us and sent to you in the spring. This work of examining is not left to employees; it is done by a responsible official of the company. It is part of our service to our customers.

### Shipping Directions are Desirable

All plants, roses or shrubs will be shipped at the proper time for planting in your locality. This often requires two or more shipments. If there is a special date on which you would like to receive your order, mention it on the order blank. Shipments will be made by parcel post or express, at our option, unless specific instructions are received.

### Small Purchases

We have based our prices of plants, roses, shrubs and bulbs in this catalog on the assumption that orders received will be \$3.00 in value or more. If your purchase is for a lesser amount, it will be a privilege to serve you, but please add 35 cents service charge to your remittance. Handling small orders in any nursery

requires a great amount of labor and is very expensive. Orders for less than \$3.00 for seeds, sundries, or books do not require this extra 35-cent service charge.

### Remittances Must Accompany Order

Your remittance and your order will be acknowledged when received. Checks, money orders or bank drafts may be used. Currency should be sent only by registered mail. We cannot be responsible otherwise.

**C. O. D.:** We will gladly forward your purchase collect on delivery, if desired.

### Wayside's Guarantee

We guarantee each order we send out to be filled with stock of superior quality.

We guarantee each shipment to reach you safely and undamaged.

We guarantee to replace any of our products that do not reach you in first-class condition or refund your money in full, including any and all transportation charges paid by you.

We guarantee the accuracy of our shipping dates for your order and your own particular garden. Your order is a matter of personal and individual concern with Wayside.

### Report Errors Promptly (Always Give Date of Order)

It is impossible to avoid or escape rush periods in the nursery business. Errors are possible at such times. Therefore, check over your order as soon as you receive it. Remember that shrubs, roses, bulbs and plants, etc., are sent in separate packages sometimes several weeks apart. Consult your order acknowledgement. If you receive anything which has been damaged in transit, advise us at once. Be sure to always state the **variety name** and **quantity** of damaged goods. With that information at hand we are able to immediately send you a free replacement for that which was received damaged. For prompt replacement it is important we have **complete** information.

### Replacements

We guarantee our plants, roses, shrubs and bulbs to bloom if given intelligent and reasonable care. Of course, you would not expect us to replace stock lost due to freezing, bad drainage, drought, heat, carelessness, neglect or lack of experience on the part of the planter. The above mentioned conditions are entirely beyond our control and we cannot be held responsible for stock when lost because of them. No complaints can be entertained more than one month after delivery.

### Transportation Charges

It is impossible to predetermine the size and weight of bulbs, roses, shrubs or hardy plants; therefore, transportation charges are not included in the purchase price. All seeds are delivered free.

A notice of the correct amount of postage we have advanced will be found inside the package, which you can refund us in postage stamps, or any other way, at your convenience.

### Unlike Other Commodities, Nursery Products are Ordered in Advance

# Garden Blox A Happy Solution To Your Gardening Problems

WHAT TO PLANT—WHERE TO PLANT IT

Published Price, \$2.00, postpaid.  
Wayside Gardens Customers, only \$1.00.

Wayside Gardens  
MENTOR OHIO

*"I love flowers but have no real knowledge of them. Can't you help me to arrange my garden and make it more attractive and beautiful? I wish merely to know WHAT to plant, and WHERE and when to plant it."*

Hundreds of such letters come to WAYSIDE. We knew that something should be done about this simple appeal. Anxious to help our customers, at the same time preserve and create more beauty in the New World, we called upon noted landscape architects and garden experts of the country.

## Let the Experts Help You

At a cost of thousands of dollars to us, we bring you this expert knowledge in a simple, practical and condensed form. Easy to understand and follow, the Garden-Blox plans or maps show you how to get the maximum amount of beauty in your garden for the least possible time, expense and trouble.

There are 14 sheets of these fascinating maps, 18 x 24

inches in size. They come to you in bound form, enabling you to take them right out into your garden and follow their simple instructions. The plans or maps come in two sizes, 5 x 5 feet, and 10 x 5 feet, making them adaptable to different size locations. Like playing with blocks, you can make your garden any size or shape and each block is complete in itself.

## Like Magic in Your Garden

Garden-Blox show you how to obtain the very finest and most efficient results. They point out your general directions and show the proper course to follow, but are flexible and adaptable enough to enable you to depart on flowery bypaths and carry out your own personal ideas. Thus you retain the stamp of your own personality on your garden; the Blox actually assist you in carrying out your own desires for your garden, and are made to fit all sections of

the country. These beautiful plans give you information you have long sought about color arrangements, artistic and harmonious designs, where to place plants of certain size and height, showing you flowers that thrive, flourish, and grow even lovelier when planted alongside each other. Of even more importance is the fact that the Blox may reveal any mistakes you may now be making in your garden.

## Only \$1.00 to Wayside Customers

Thousands of garden lovers have purchased these plans. Many are the letters of praise we have received. These artistic maps represent the cumulative knowledge—the result of a lifetime of study—of some of the noted garden-planning experts of the land.

These Garden-Blox plans are yours for a mere dollar. The published price is just double that amount. The low price of a dollar does not begin to cover the cost of them. If your order for nursery products amounts to ten dollars or more, we send the Blox to you free, if you request them.

## Satisfaction Guaranteed

Be assured that if you are not more than pleased your dollar will be very promptly returned. (We underestimated the demand in our last printing and it is extremely doubtful if we have enough of the Blox plans on hand to fill all of the orders we are certain to receive.) Order today.
